Cool it Art

Lambeth

Art Focus: André Derain

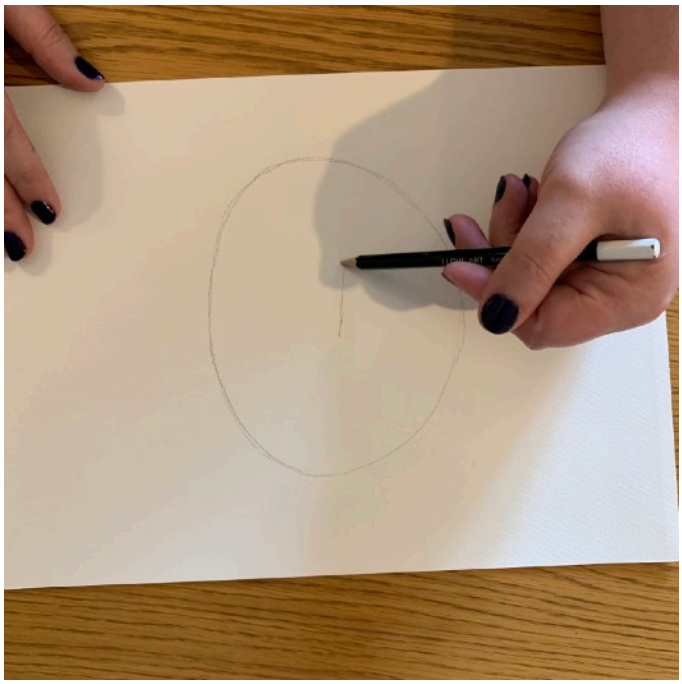

André Derain was a French Artist born in 1880 and lived till 1954, he was the co-founder of “Fauvism” which featured very strong colours - which is what we want to look at, making work in that style

Tools and Materials:

- Paper
- Pencil
- Paint (bright colours and black)
- Paintbrush
- Water

So Derain painted quite a few London scenes - and taking inspiration from that we thought it would be fun to paint our own version of London landmarks in his style - you can of course paint landmarks from wherever you live! Start sketching out your landscape

When you’re happy with it you can add paint directly on the paper like so - we are starting with the background the sky in this case which we are using the red and yellow for

We want to make the paint quite patchy as in not mixing the colours up too much so you can still see the is 2 colours like so

We then used our pink and turquoise to fill in the buildings and a mix of all the colours to make the ground

Once its dry - it make take a while because the paint is quite thick you can outline it with the black. There you have it your very own André Derain inspired piece of work!

Here is another we created to inspire you!
