Art Focus: Frida Kahlo

Taking inspiration from Frida Kahlo why not create your own work in the style of her self portraits!

Tools and Materials:

- A4 White Paper
- Colouring Pencils
- Black Felt Tip

If you haven’t heard of Frida Kahlo then you can look up her self-portraits - often filled with nature and animal companions her self-portraits are thought of as iconic and bold. Taking inspiration from that why not take an animal or character you like and draw them in her style. We chose a panda but you can choose any character you like! We started by sketching out a flower head band first like so

Then sketch out the face around it and think about how you want the background to look - what shapes are in it and how it frames your character

When you are happy with it then you can colour it in and for a final touch add your artworks name in felt tip - we went for a really simple name, “Panda Kahlo” to be like Frida Kahlo, but you can play around with titles based on hers!

There you have it your own “Frida Kahlo inspired work”!
