Be Kind to Animals Poster

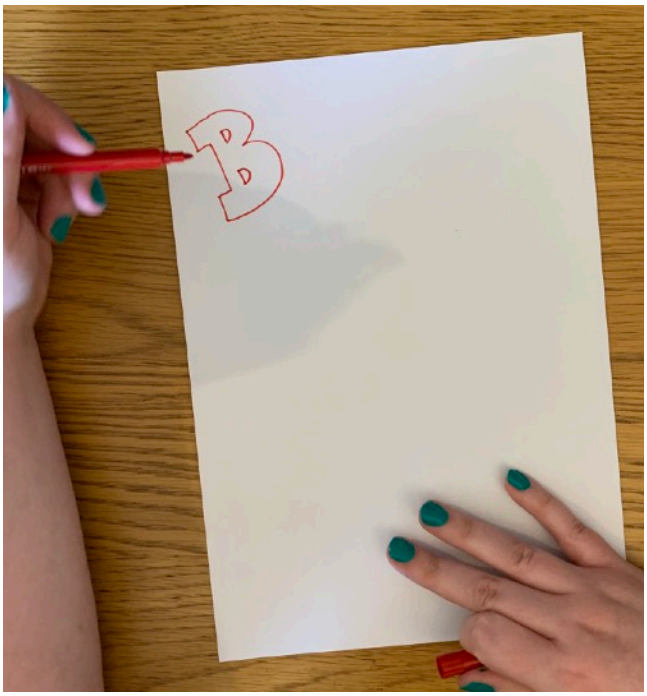

We discovered there is a “Be Kind to Animals” week (Oct 1st-7th) which we thought was a great message and fantastic reason to create a poster to celebrate our animal friends

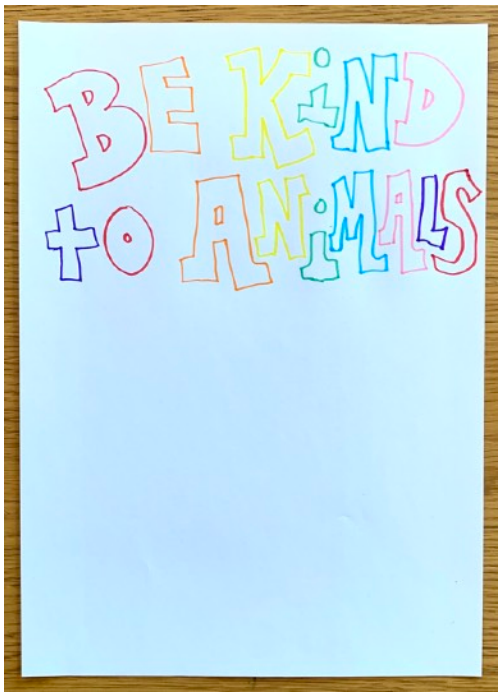

Tools and Materials:

- Paper
- Felt Tips (you can start with a pencil if you want to!)

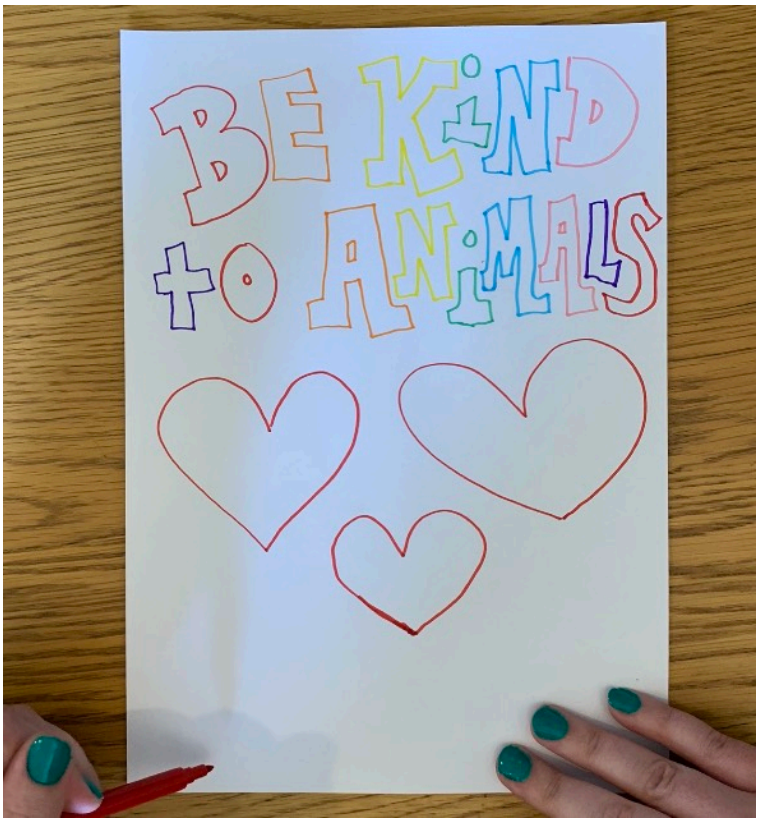

With posters it is good to think about what text you want on them and where you want that text. Also what images do you want to put around it? We wanted to focus on the words “Be Kind to Animals” as it is so important

Once you are happy with the words and font you’ve chosen to use you can start to draw the animals and any other elements you want to include - we thought hearts were good to frame the animals on the poster

There you have it your very own “Be Kind to Animals” poster!

Here are more we made to inspire you!
