CoolitArt

Birds of Paradise: Mixed Media

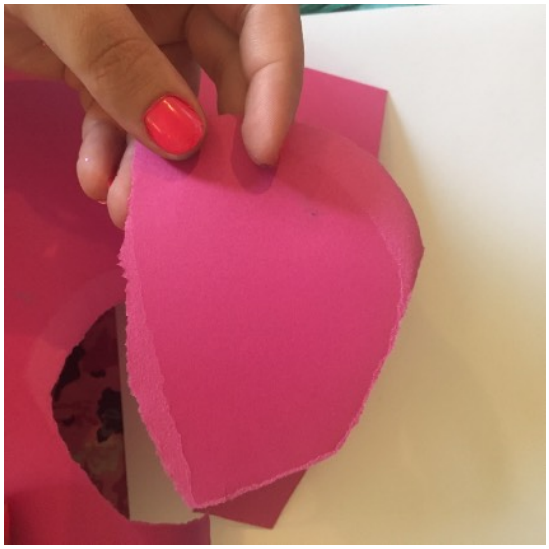

Taking inspiration from Birds of Paradise flowers and tropical birds you can create a mixed media piece of work to celebrate the vibrancy of nature.

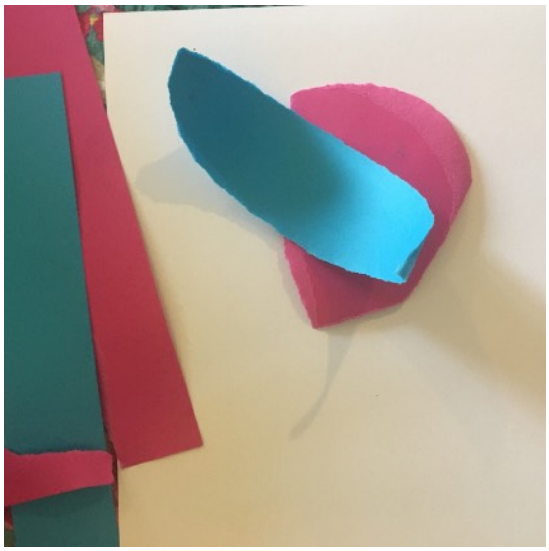

Tools and Materials:

- Paper
- Coloured Paper
- Chalk Pastels
- Glue stick

To create the colourful background we can rip different bits of coloured paper to layer over each other like so to glue to our background white paper

Taking inspiration from the paper shapes start drawing out your scene, with flowers, birds and luscious leaves.

And there you have it your own “Birds of Paradise: Mixed Media” creation!

Here is another we created to inspire you!
