Cutout Christmas Cards

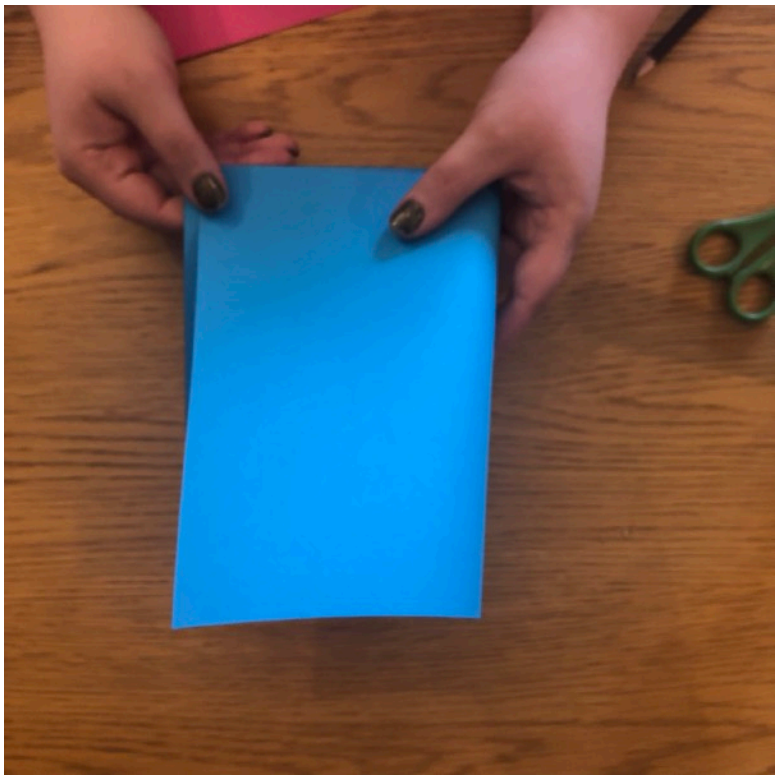

Celebrating the festive season why not create your own cutout Christmas card to give to friends and family

Tools and Materials:

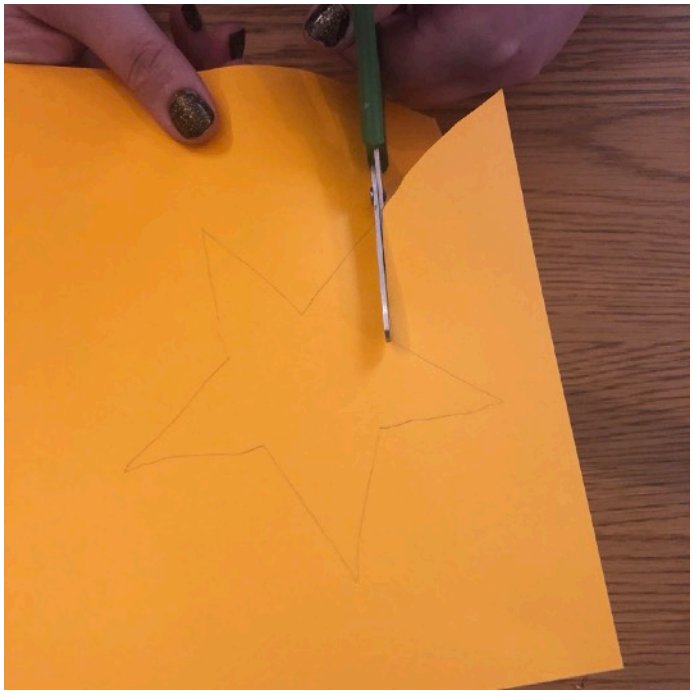

- Coloured Paper
- Pencil
- Gluestick
- Scissors

First of all choose what colours you want to use - we've gone for bright colours instead of traditional red and green you can use whichever colours you like! Chose which colour you want for the base of your card and fold it in half

Then think about what you want to put on your card - we thought a star would be a nice striking image

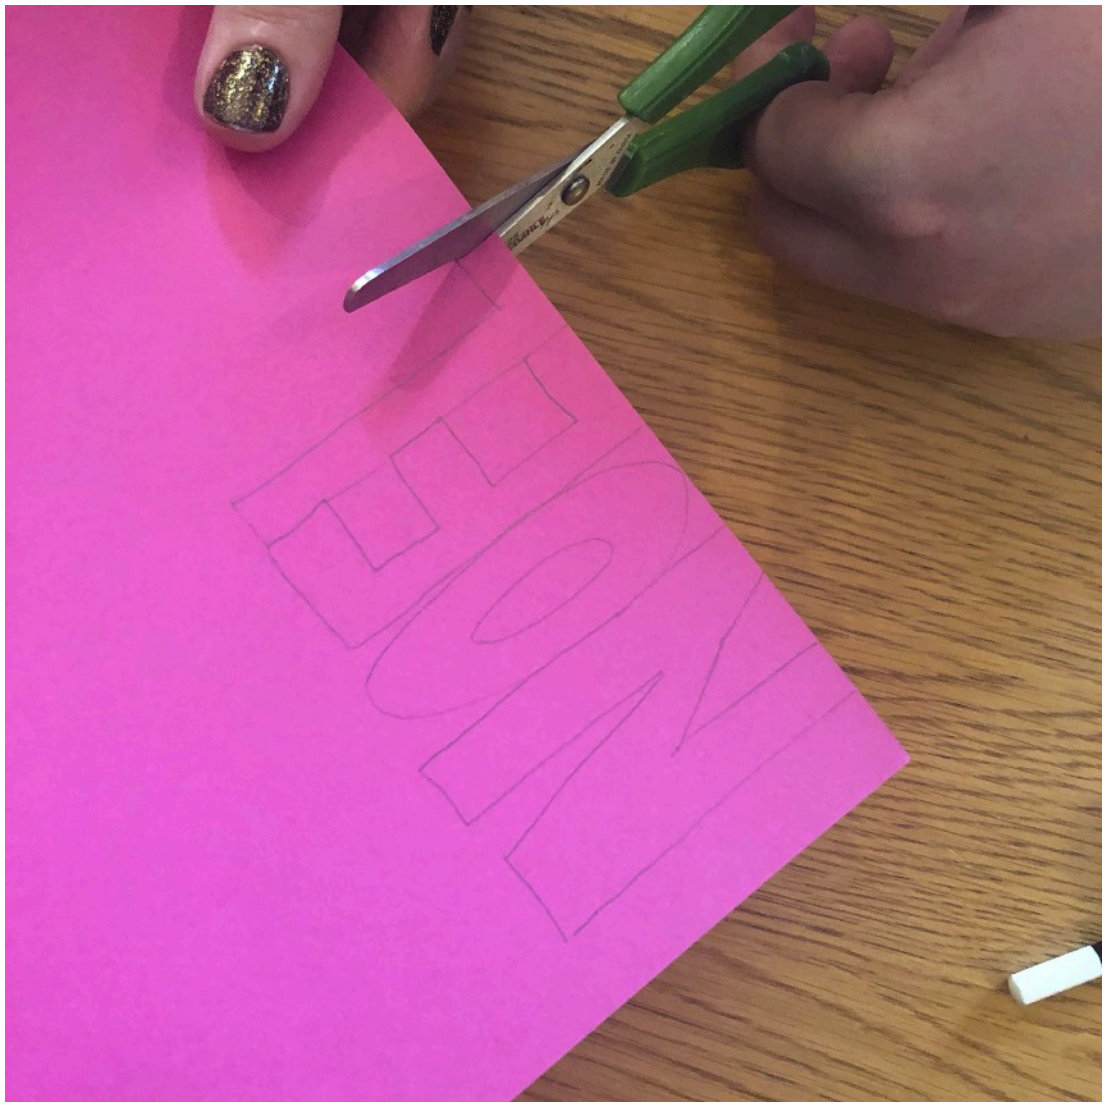

To make it more interesting we decided to cut out the inside to leave the outline of the star

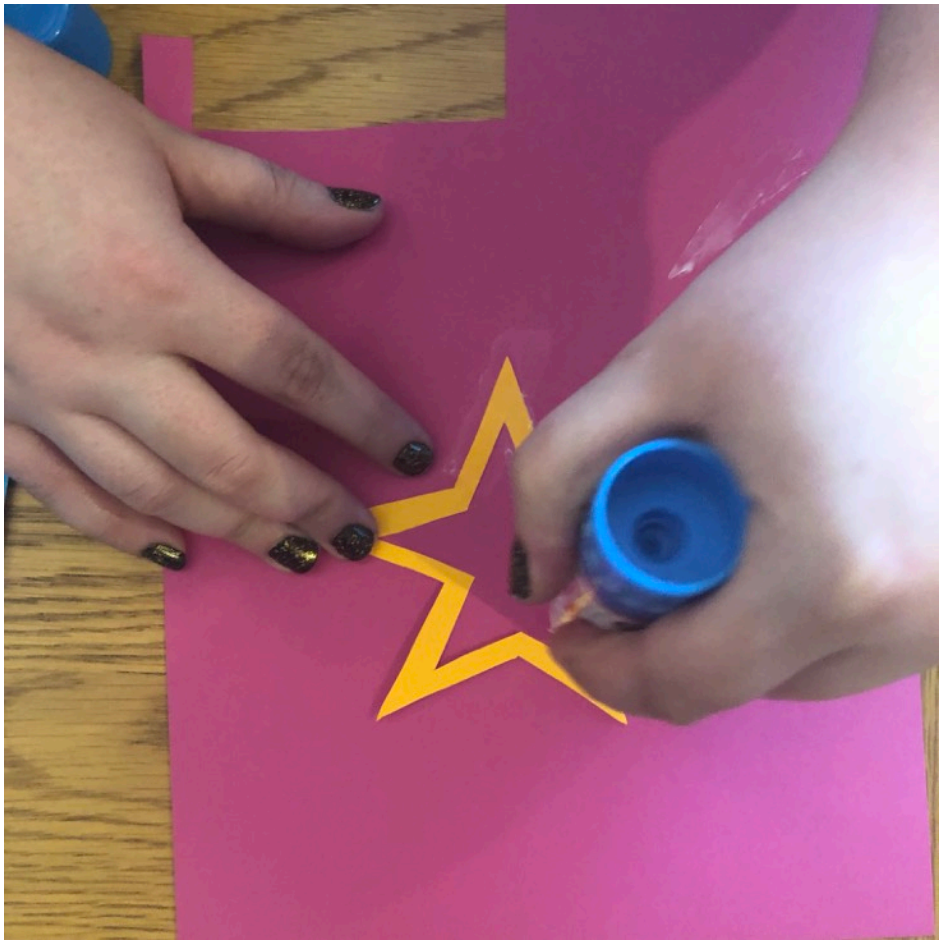

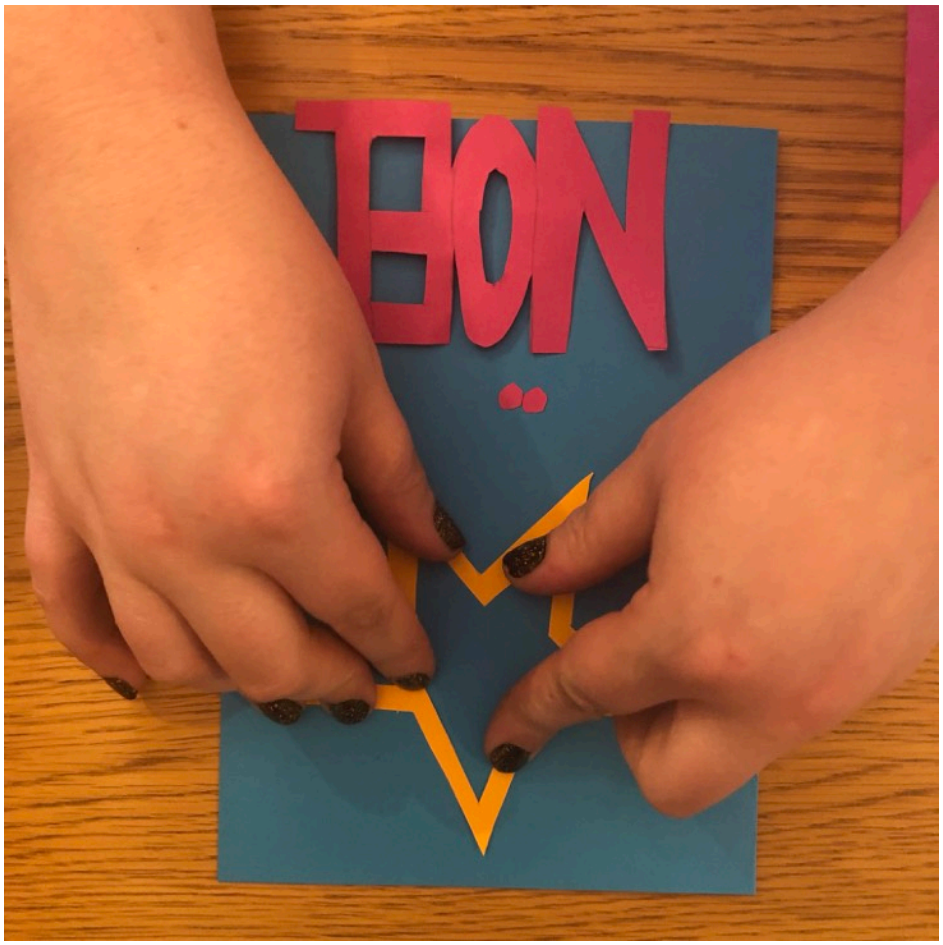

Then using your other colour why not add some text - we thought Noël which means Christmas in French wold make our card pop with colour plus bring Christmas into it

When you have cut everything out you can start to glue it onto your card

There you have it your very own “Cutout Christmas Card”!
