Easter Bunny Ears

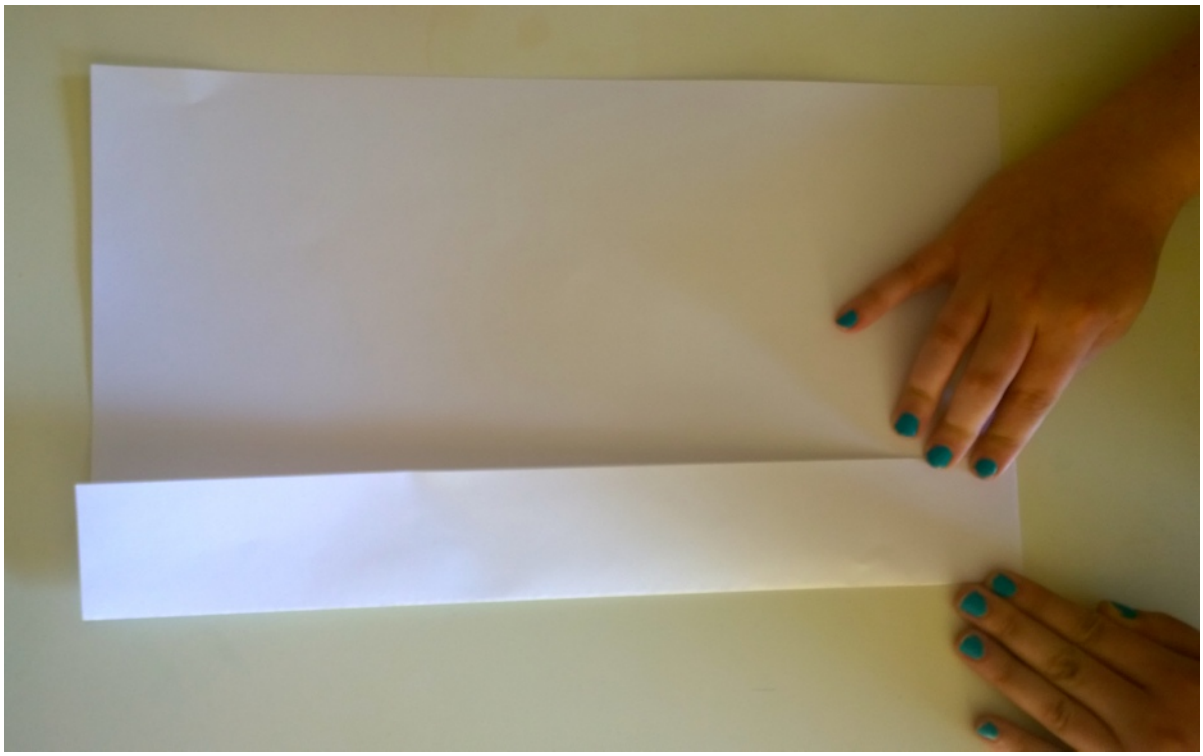

What better way to celebrate Easter than some bunny ears!

Tools and Materials:

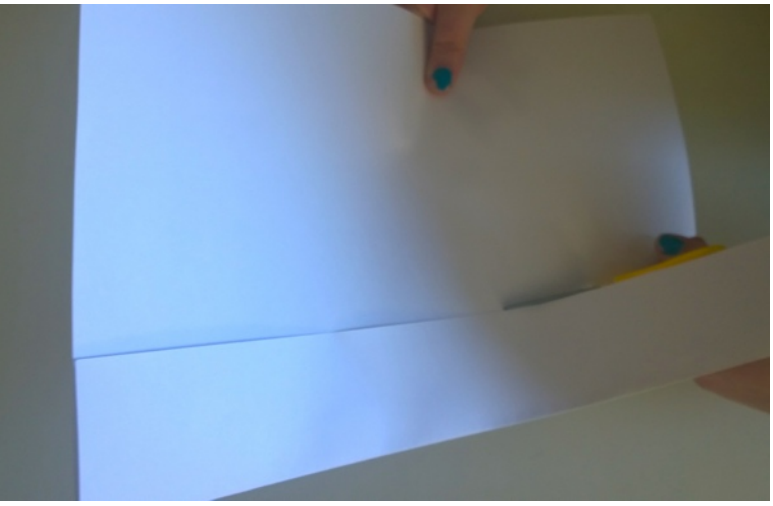

- Card (ours is A3)
- Pencil
- Sellotape
- Pritt Stick
- Scissors
- Tissue Paper

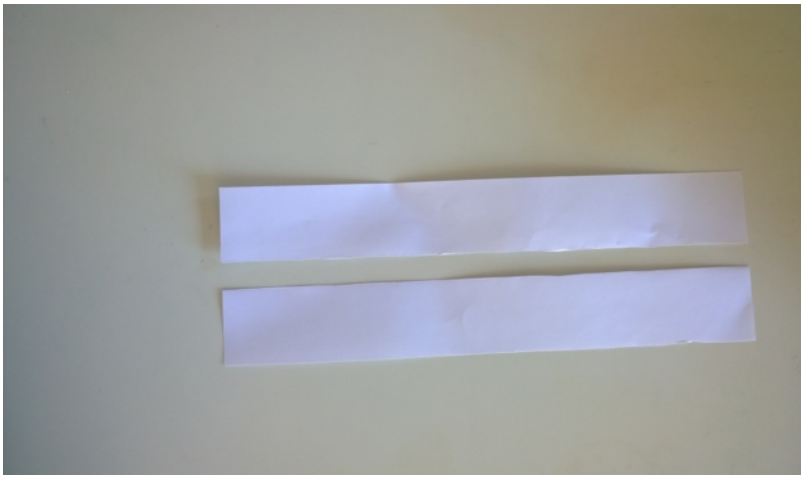

First you need to make your headband for the ears to be attached to, whilst A3 is big you are going to need 2 strips to make a band to fit your head, fold the card over by about 4-5cms

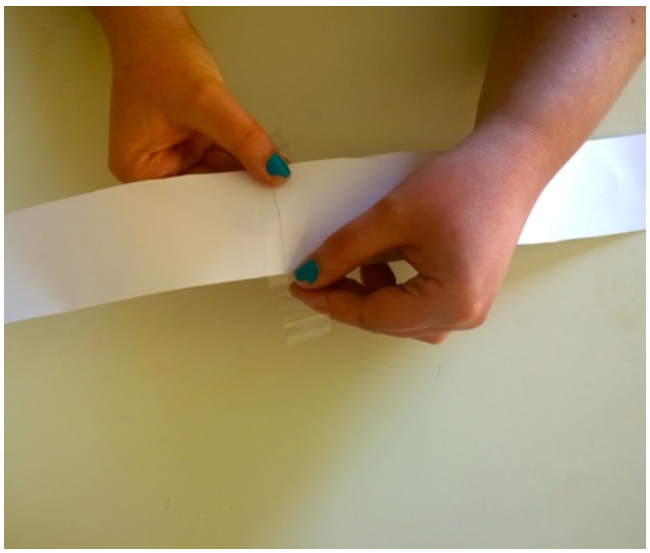

Cut along the edge of the folded card then when that is cut cut again along the folded line so you end up with 2 strips like so

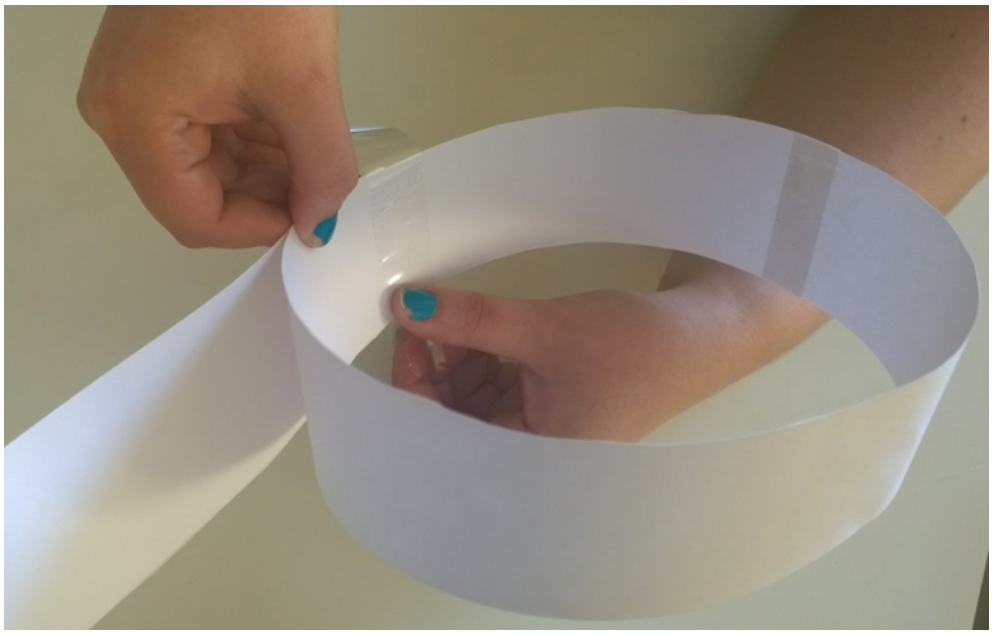

You need to tape the 2 strips together so that you can then measure your head

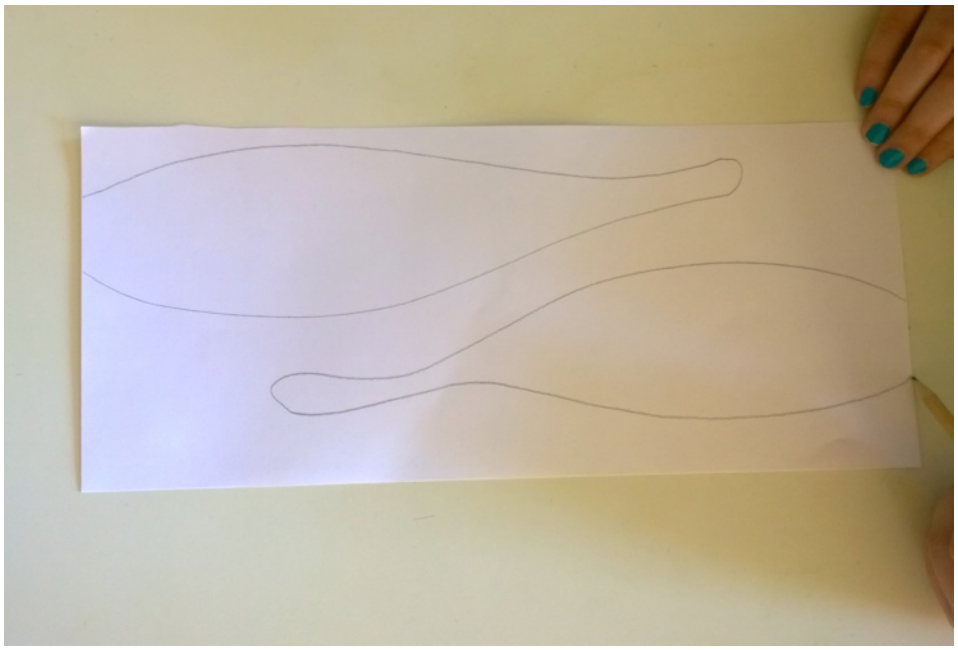

Once you have measured it, carefully keeping your finger holding it in the right place tape it together

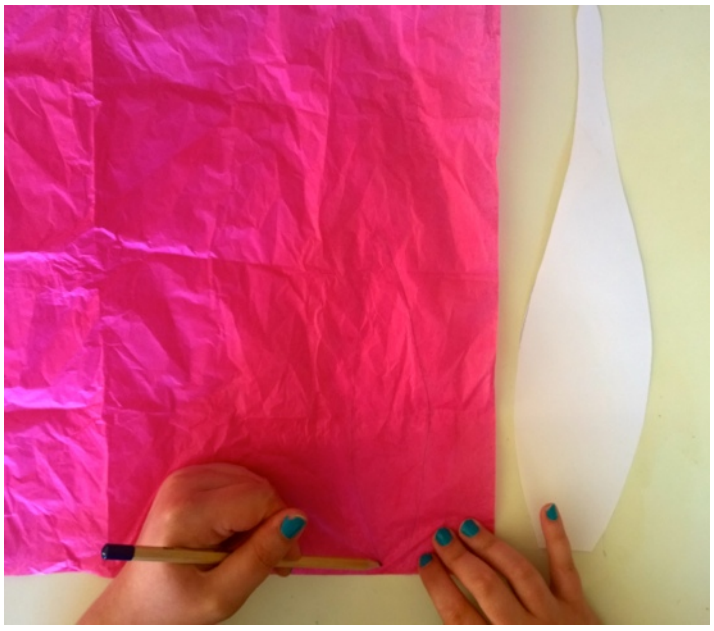

Now time to draw your rabbit ears! Once drawn cut them out for the next stage

Place your rabbit ear underneath the tissue paper to see what size to cut the inner ear, repeat for the other ear then cut out

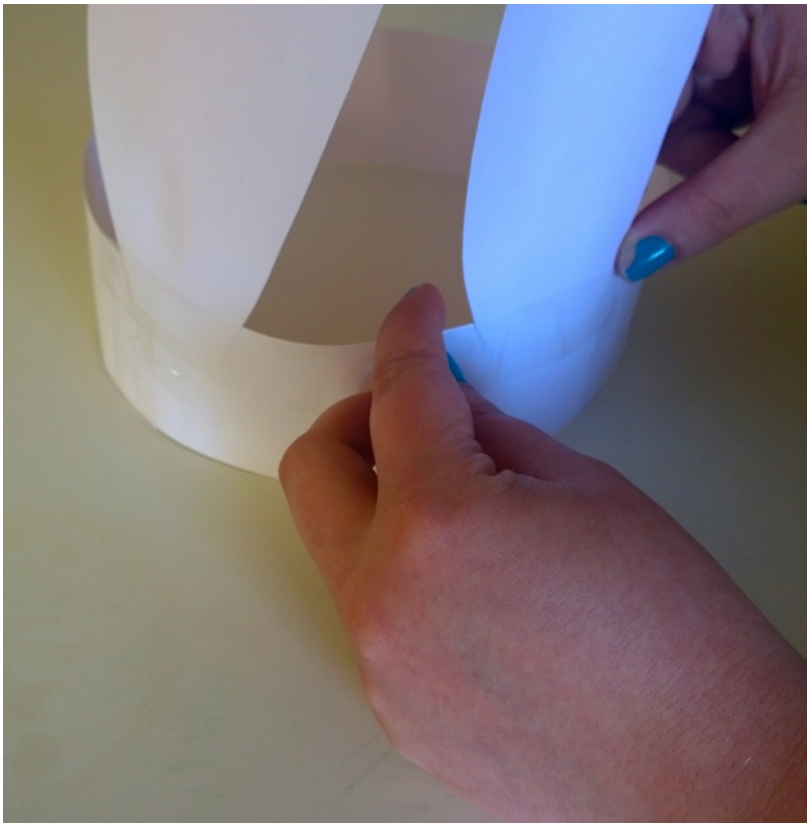

Use the pritt stick to glue the tissue paper onto the ears

Then sellotape the ears to the back

And there you have it - your very own bunny ears!
