Festive Friends

Getting into the festive spirit you could create your own festive friend to decorate your house with and bring some festive cheer to you and your family!

Tools and Materials:

- Loo Roll innard
- Coloured paper
- Scissors
- Paintbrushes
- Glue & Sellotape
- Water
- Acrylic

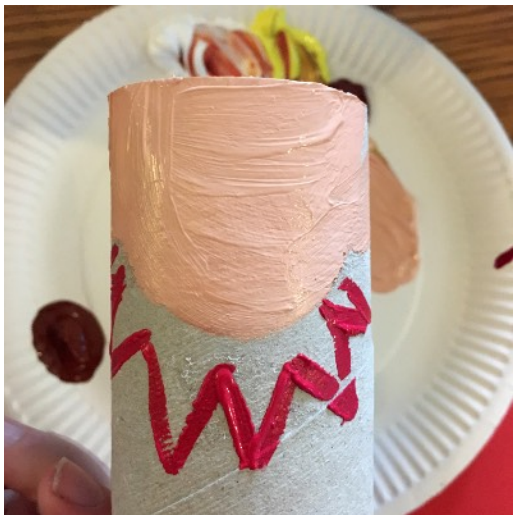

First of all decide what you would like to create - we decided on an Elf! So first of all what does an Elf need? A face and body - mix some paints and start creating!

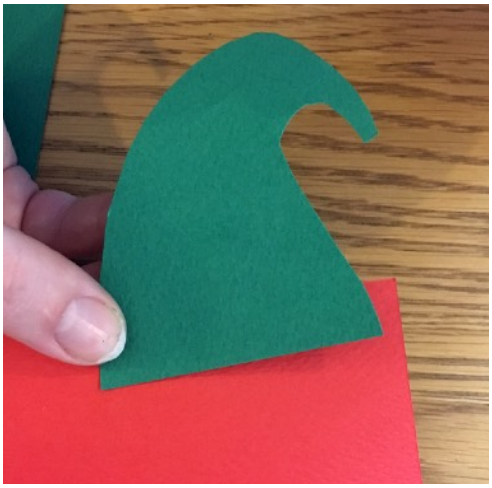

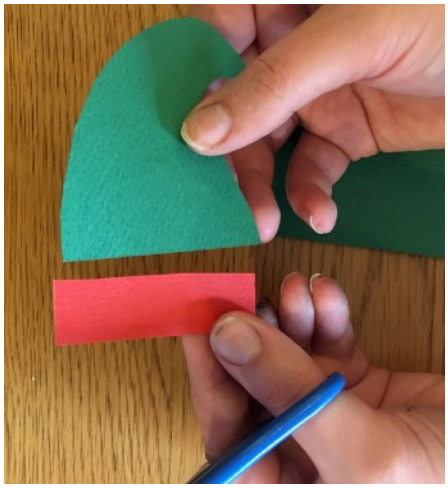

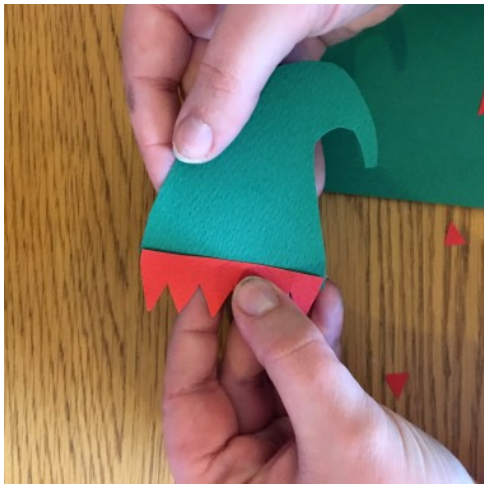

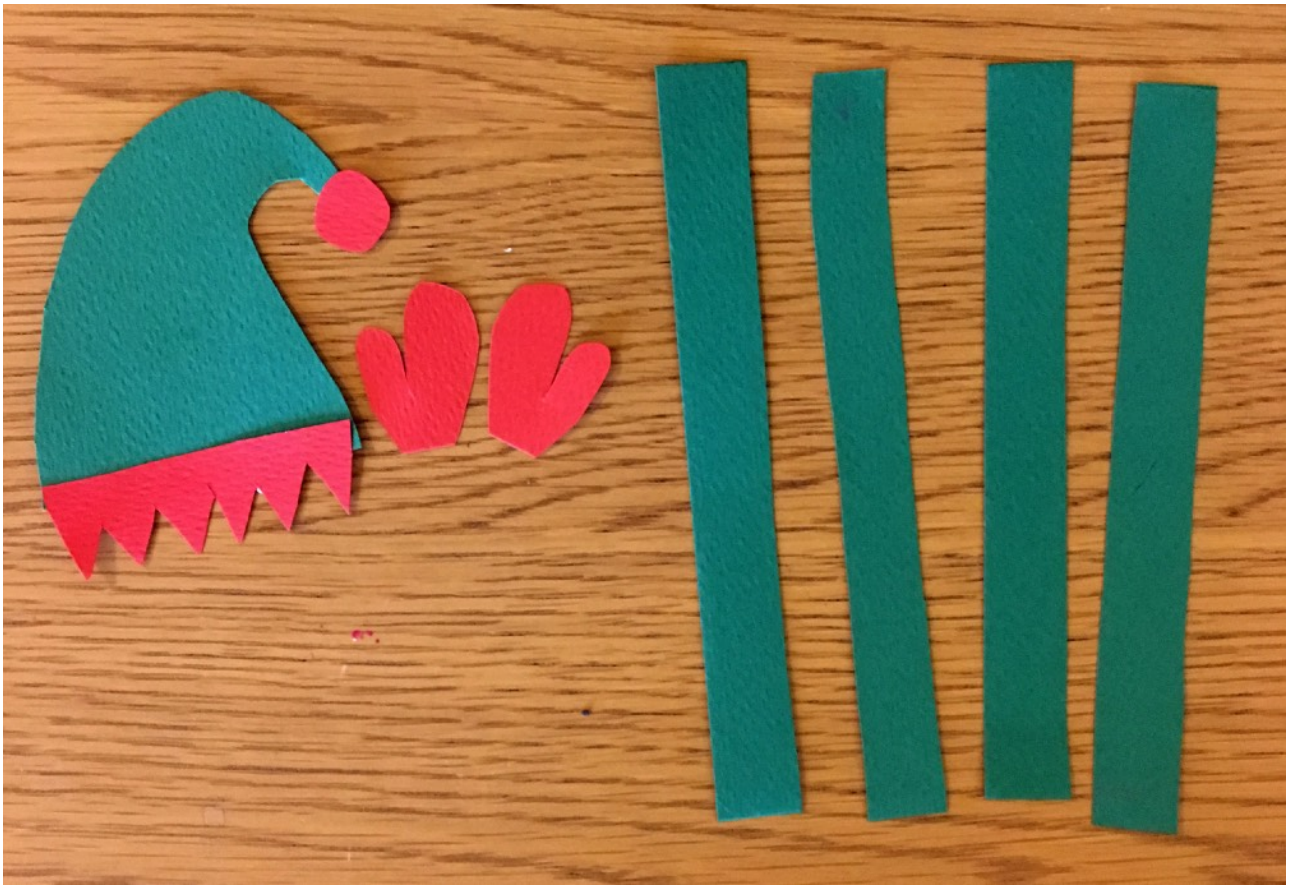

Now you have the body of your character you can add a hat and some arms! Measure the paper against the top of the face to get the size then cut it out and add details

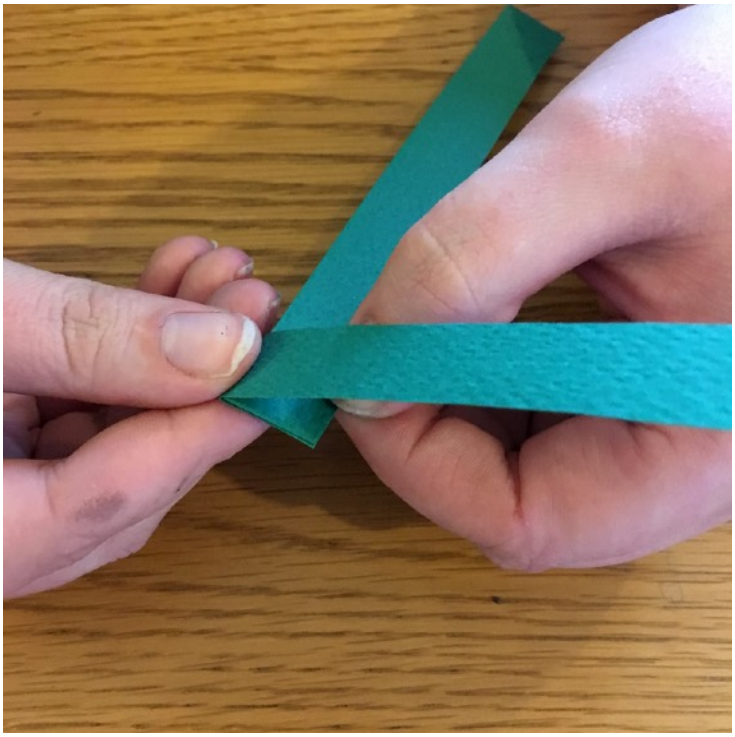

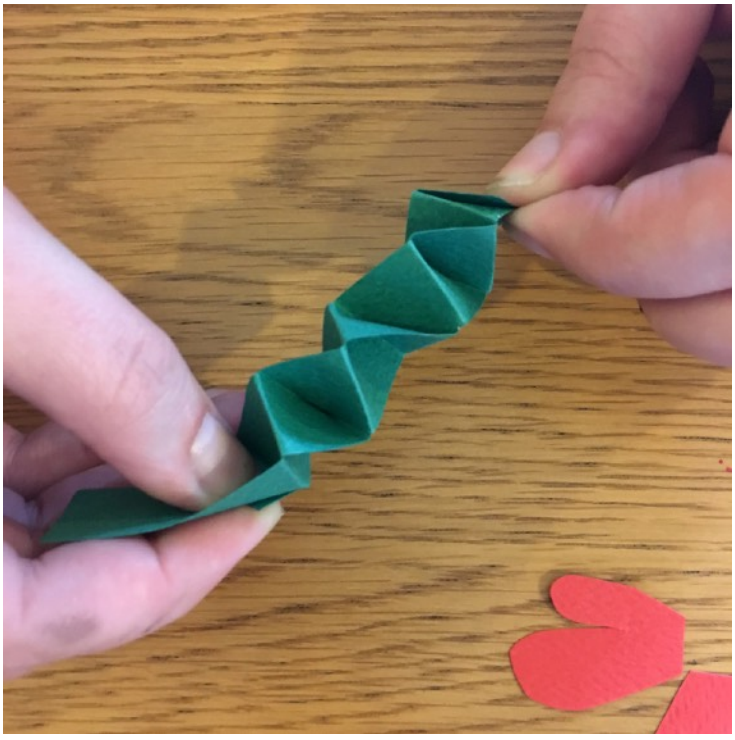

Cut out some hands and 4 long strips of paper to create the arms from, we thought spring arms would be fun!

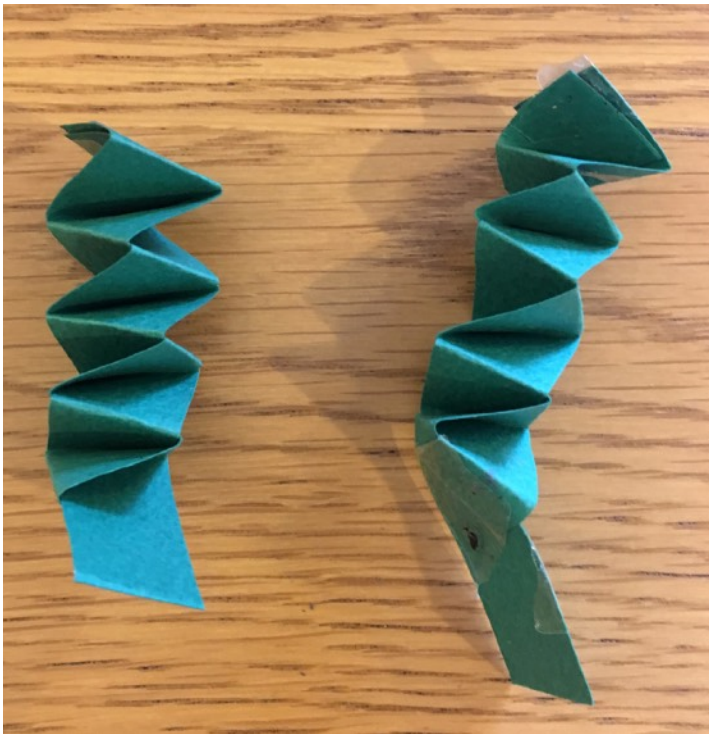

Taking 2 longs strips put the ends at right angles and start folding them over one another like so

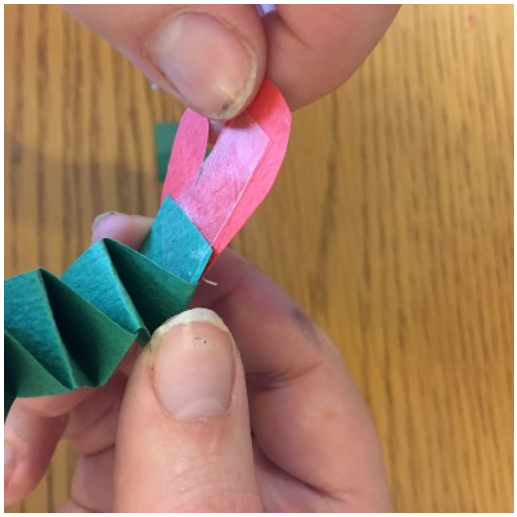

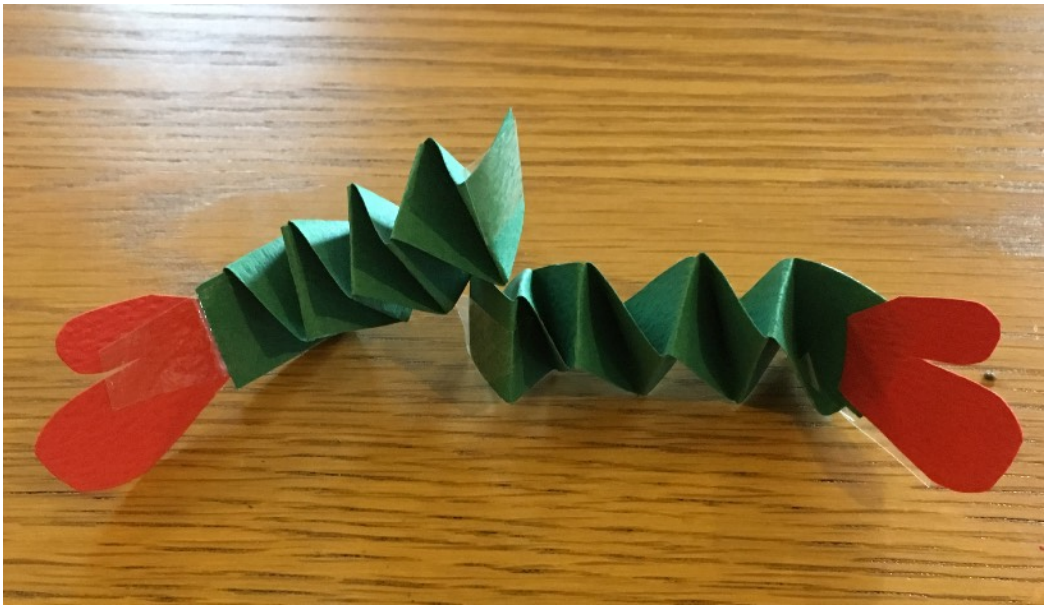

Once you are happy with them you can glue the ends together - you might need sellotape to secure them if thick card!

Now you can glue the hands on!

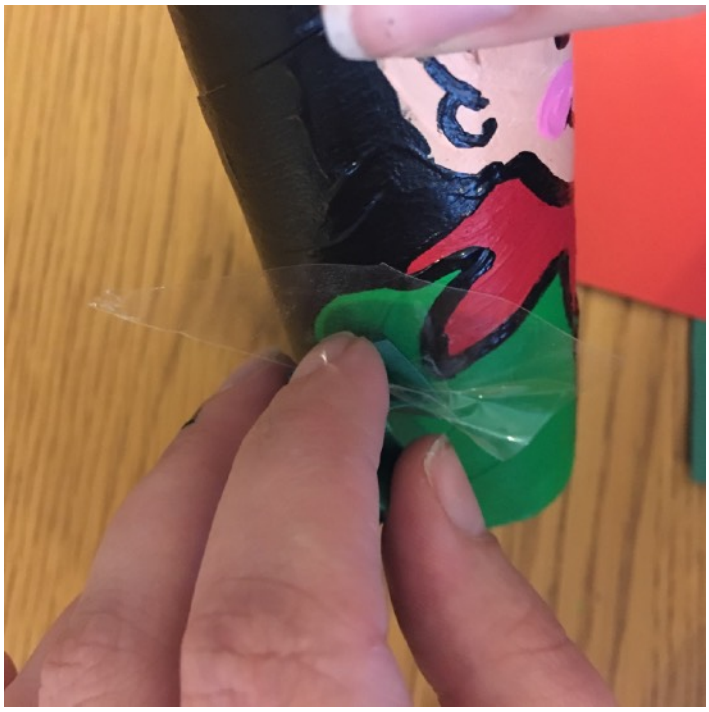

Attach to you Elf like so

Then last thing is attaching the hat - tape it from the inside so it looks a bit neater and it will give it some movement!

There you have it your very own “Festive Friend”

Here is another we made to inspire you!
