Festive Wreath

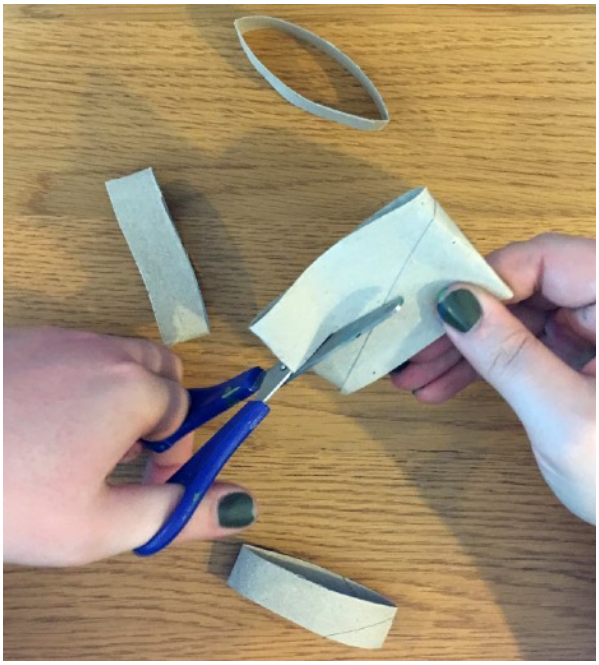

Getting into the festive spirit you could create your own festive wreath to decorate your house with and bring some festive cheer to you and your family!

Tools and Materials:

- Loo/Kitchen Roll innards
- Scissors
- Paintbrush
- Glue
- Acrylic

Firstly you need to trim your card rolls (loo roll or kitchen roll innards into smaller hoops/circles to make you wreath - then you can start placing them to form your pattern like so

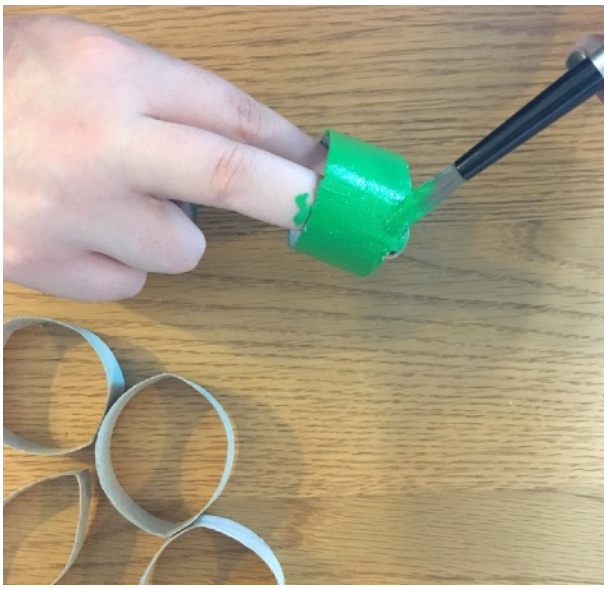

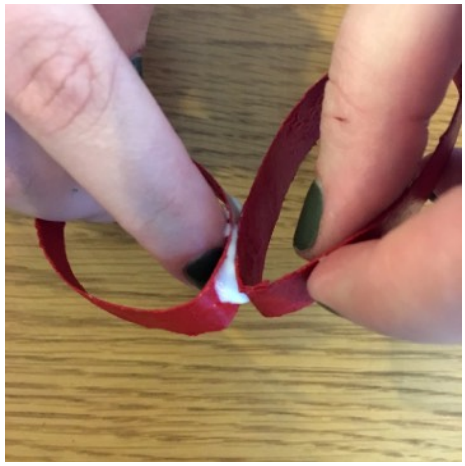

Once you are happy with your design then you can paint the pieces - we opted for the outer circle to be green and the inner flower to be red

Once your rings are all painted and dry then you can glue them together - make sure to put lots of glue on to stick it

And there you have it your very own “Festive Wreath”!
