Floral Headbands

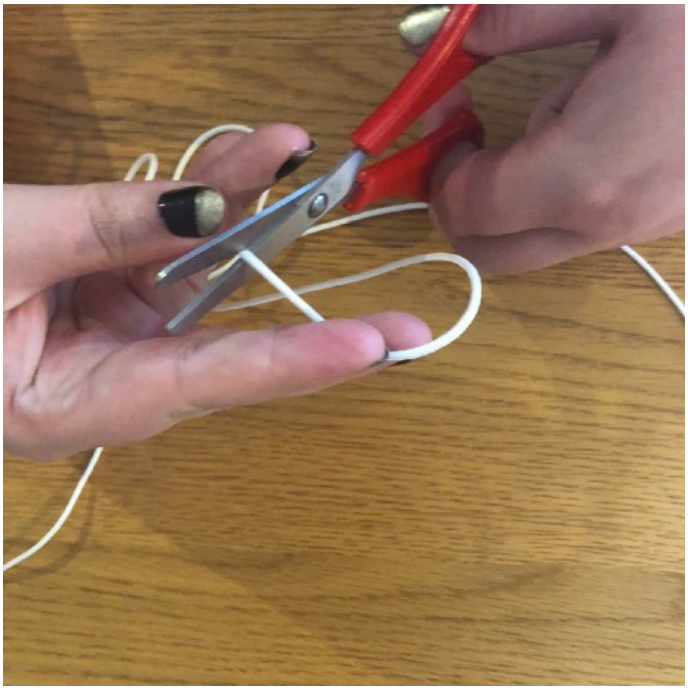

This is a fun was to create a wearable accessory for Summer or even May Day or whenever you fancy some flowers in your life!

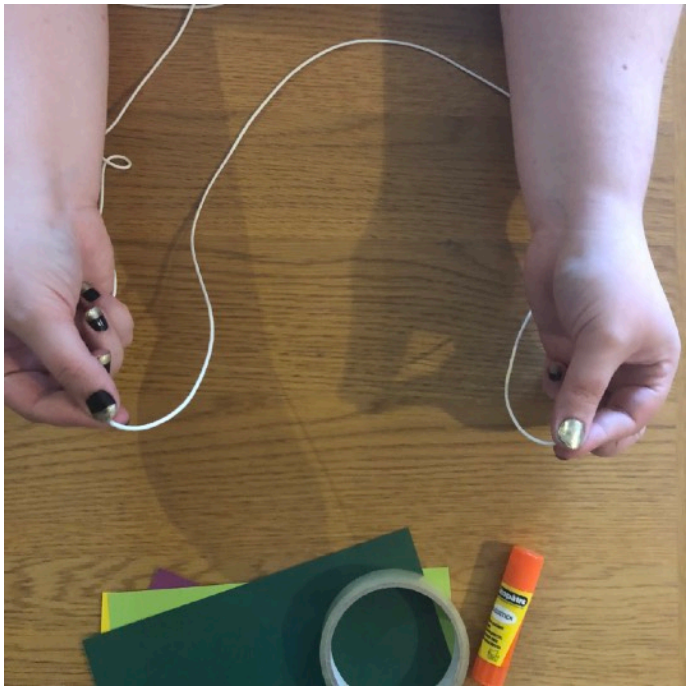

Tools and Materials:

- Coloured Paper
- Pencil
- Gluestick
- Scissors
- Elastic
- Sellotape

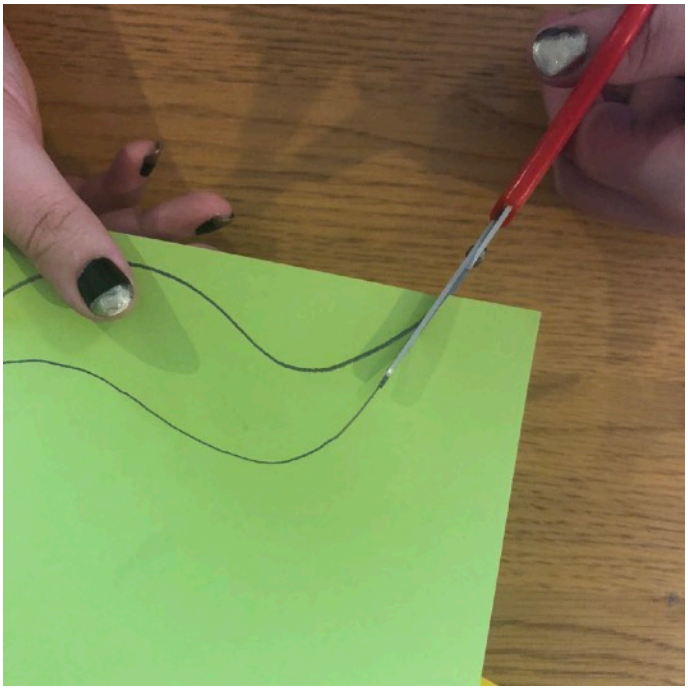

So first of all you need to measure the elastic around your head - leaving a few centimetres to tie it off. Because it is elastic make sure is relatively tight so it stays on your head!

Now you have your elastic you can start planning out the different things you want to put on your headband. You can do flowers, leaves and even garden bugs! Draw and cut out your shapes - ready to place together.

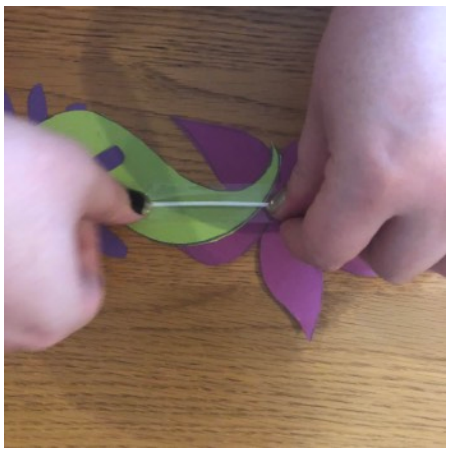

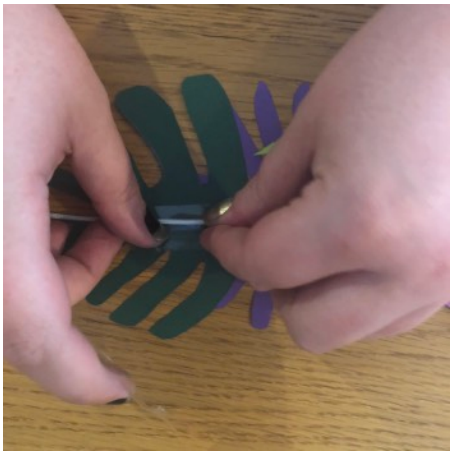

Glue the inner bits to your flowers like so

Once you are happy with all the elements you can lay them out to be taped to your elastic - place them face down so you can tape them on the back

Tie the ends together - there you have it your very own floral headband!
