Furry Face Coo

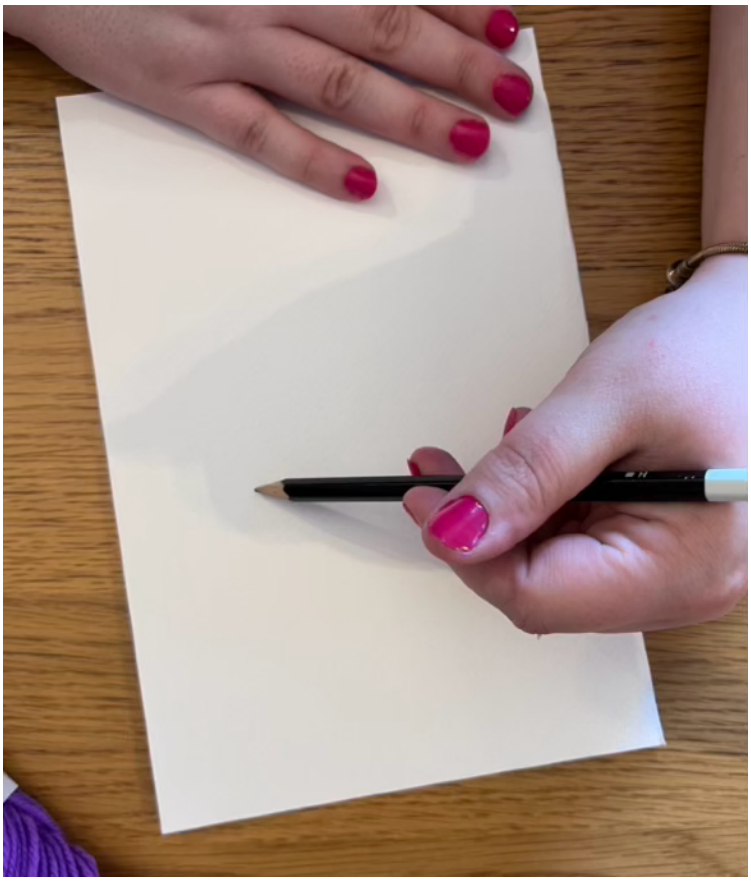

Celebrating Cow Appreciation Day (which falls on the 2nd Tuesday in July) we thought it would be fun to create a tactile and bold “Furry Face Coo” like the Highland Cows we have in Scotland!

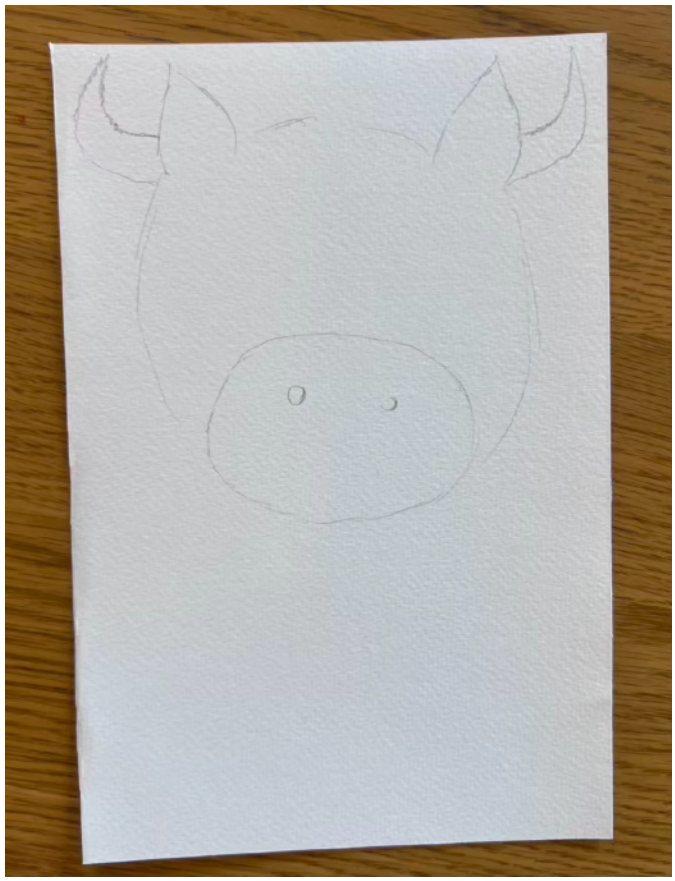

Tools and Materials:

- Paper
- Pencil
- Gluestick
- Scissors
- Wool

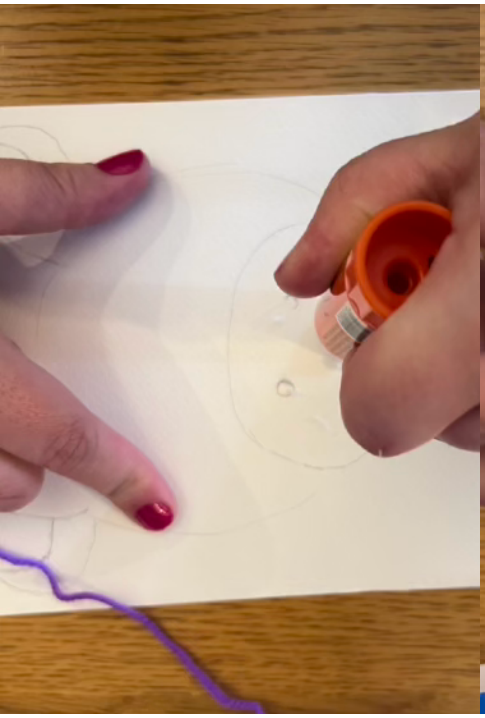

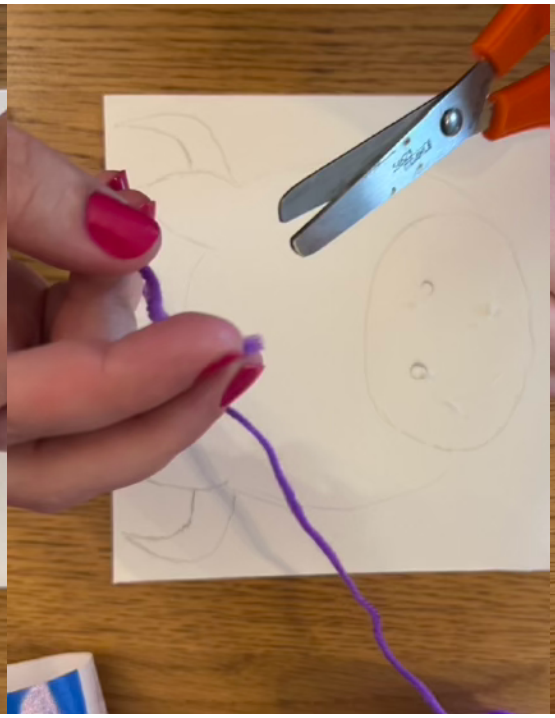

First sketch out your Coo (cow) face, Highland cows generally have horns and a lot of fur!

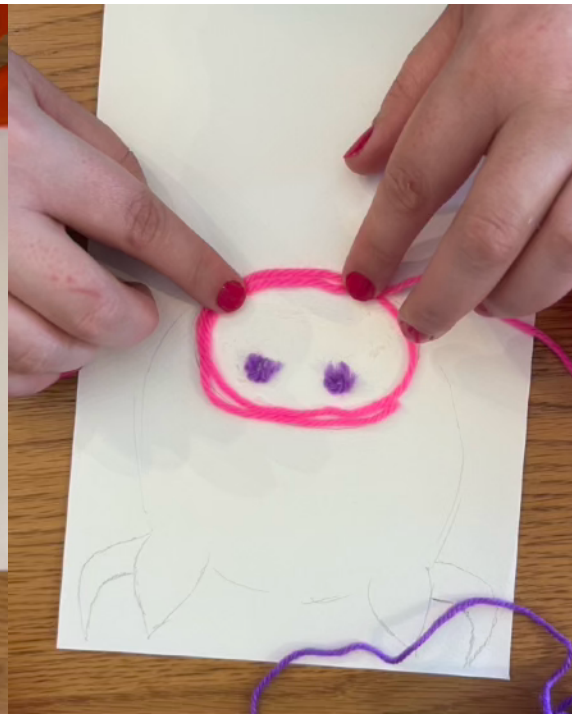

Then cover the coo in glue and start adding wool you might want to do this in sections so the glue doesn't dry, we started with he nostrils then mouth winding the wool around

You should end up with something looking like this, which you can then cut out

There you have it your very own “Furry Face Coo”!

Here is another we made to inspire you!
