Glowing Cat Face

This is a super fun way to create your own creepy cat face decoration to adorn your wall or door for Halloween!

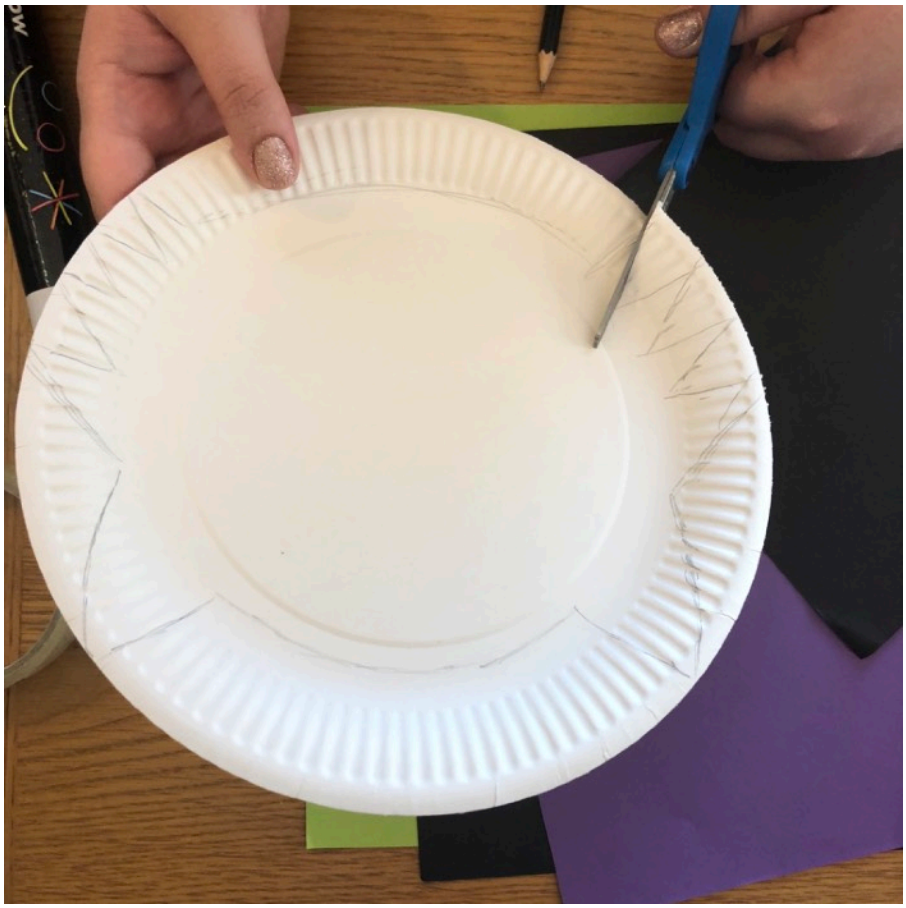

Tools and Materials:

- Coloured Paper
- Pencil
- Sellotape
- Scissors
- Glue
- Paper Plate
- Glow Sticks

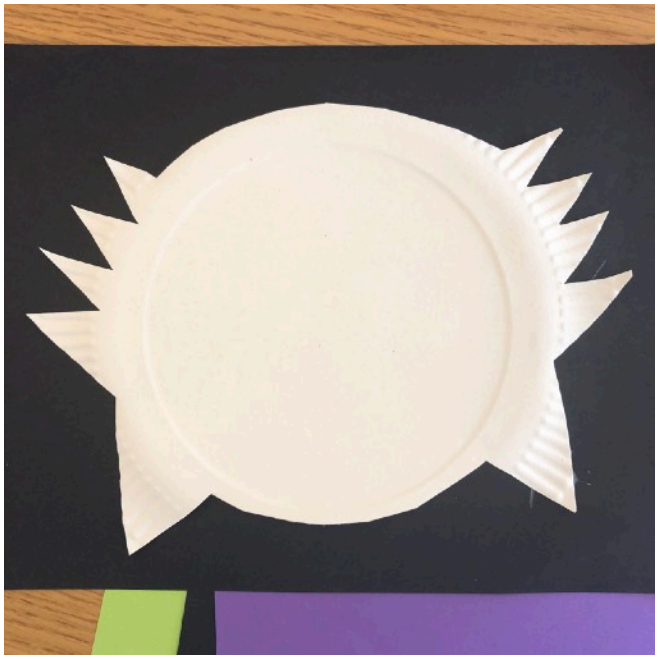

Using the plate as a base start sketching your cat face and then cut it out

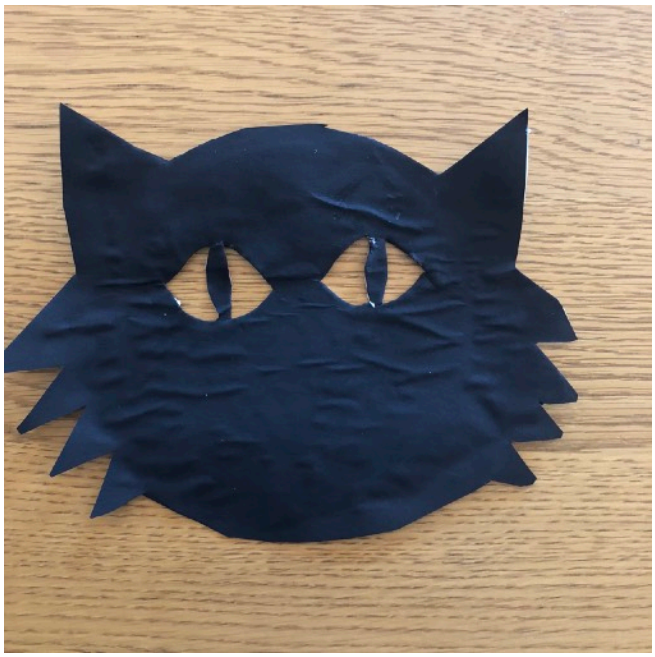

Once you have cut it out put glue over the back and stick the paper on that you want for the face - we chose black but it can be any colour you want!

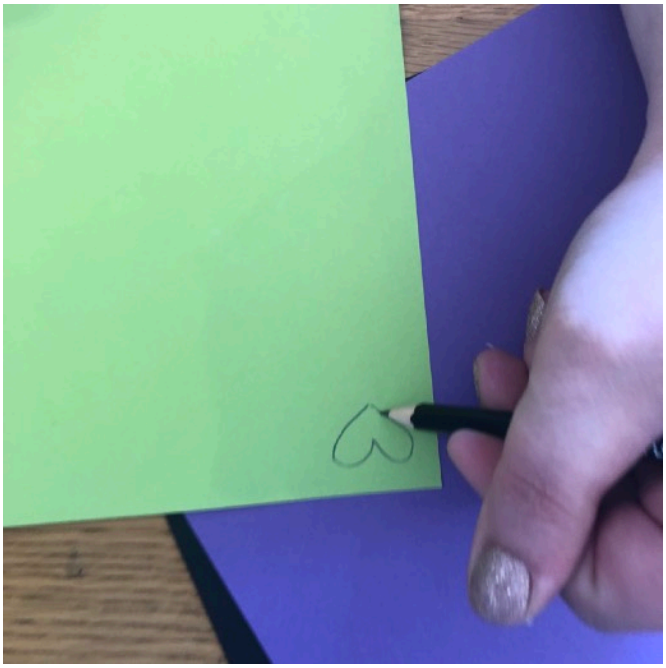

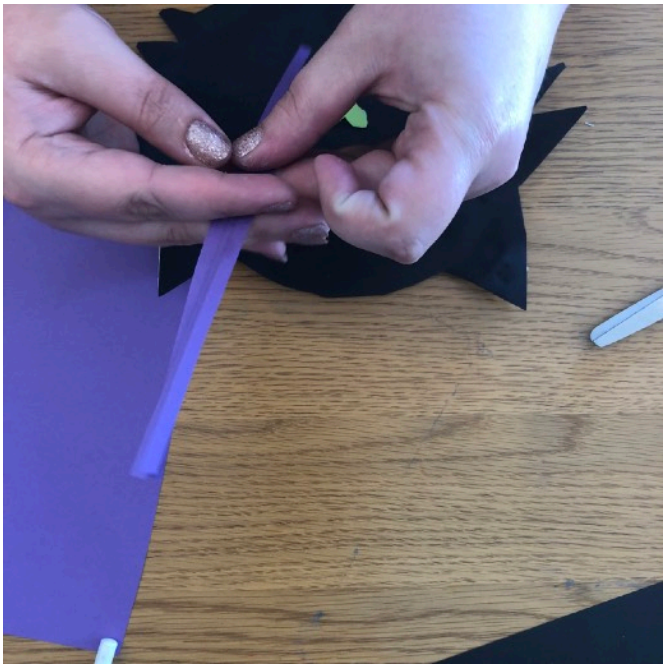

Start cutting the excess paper off and add some eye holes

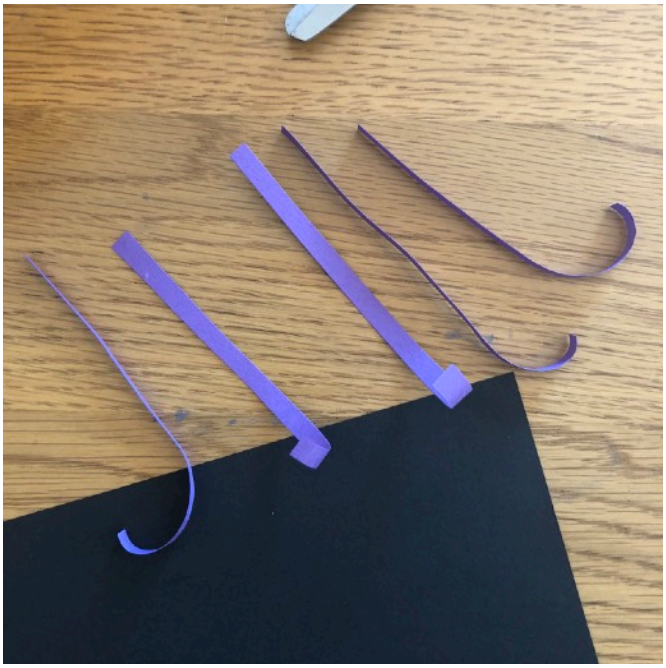

Now to start adding the details like a nose and whiskers!

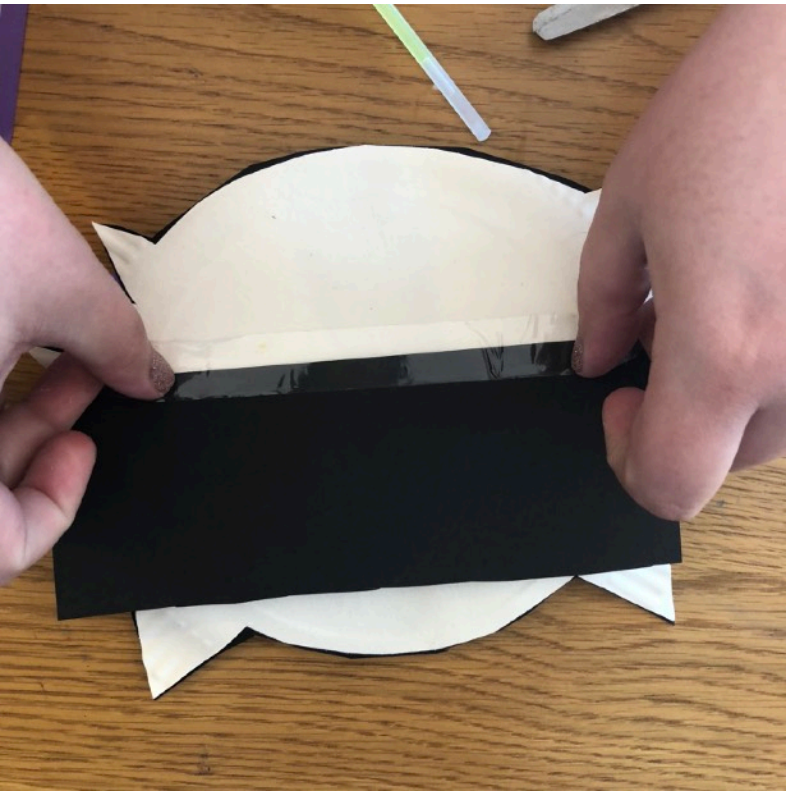

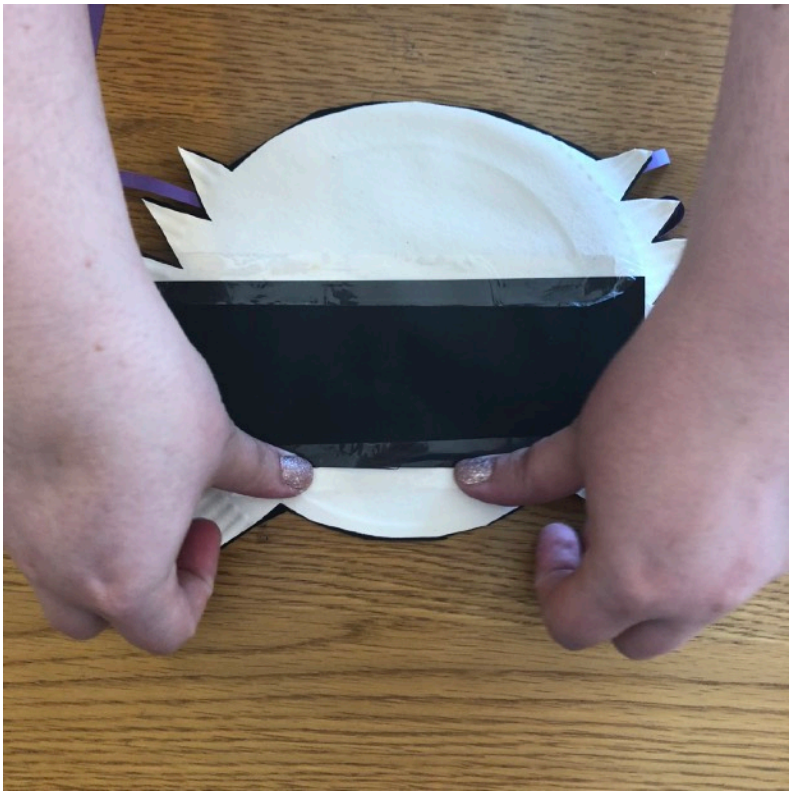

Use the glue to fix them to the face, you can use a pencil to curl the whiskers if you like by rolling it round the end

Now we need to make a flap for the back of the eyes to house the glow stick to make it glow!

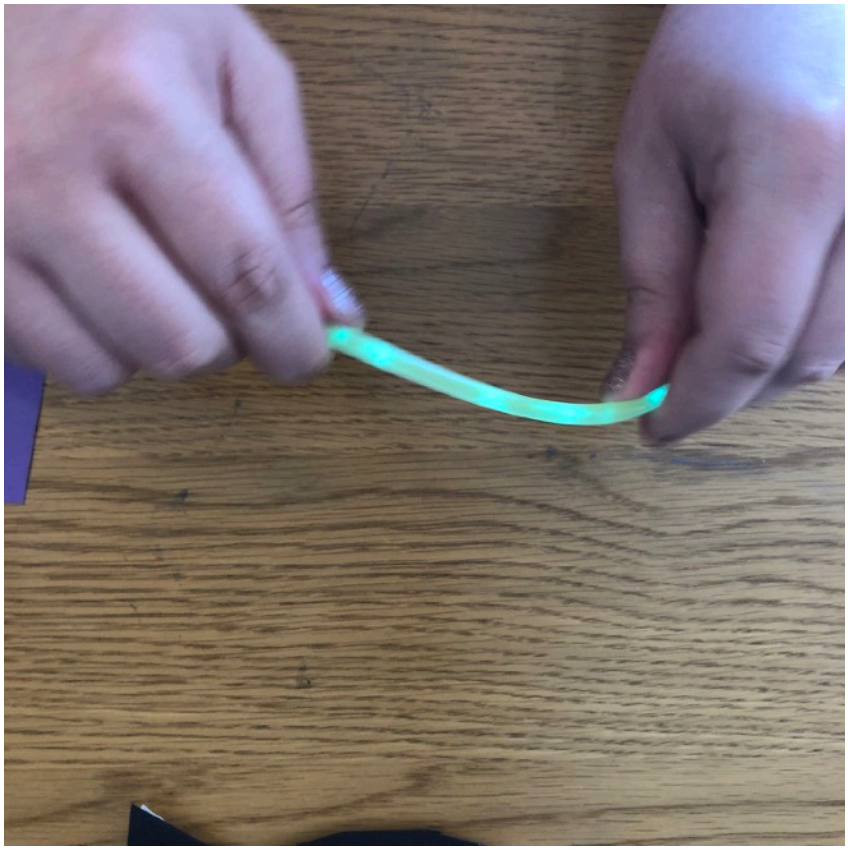

Make sure there is a bit of slack in the paper so you can fit a glow stick in - don’t stick the paper totally flat, trim any overlap off.

Now for the fun bit! The glow sticks you can pick up usually in 99p stores or similar to make it glow you need to bend the stick to snap the liquid inside - once glowing pop it in the pocket at the back of the face

There you have it your very own glowing cat face!
