Happiness Board

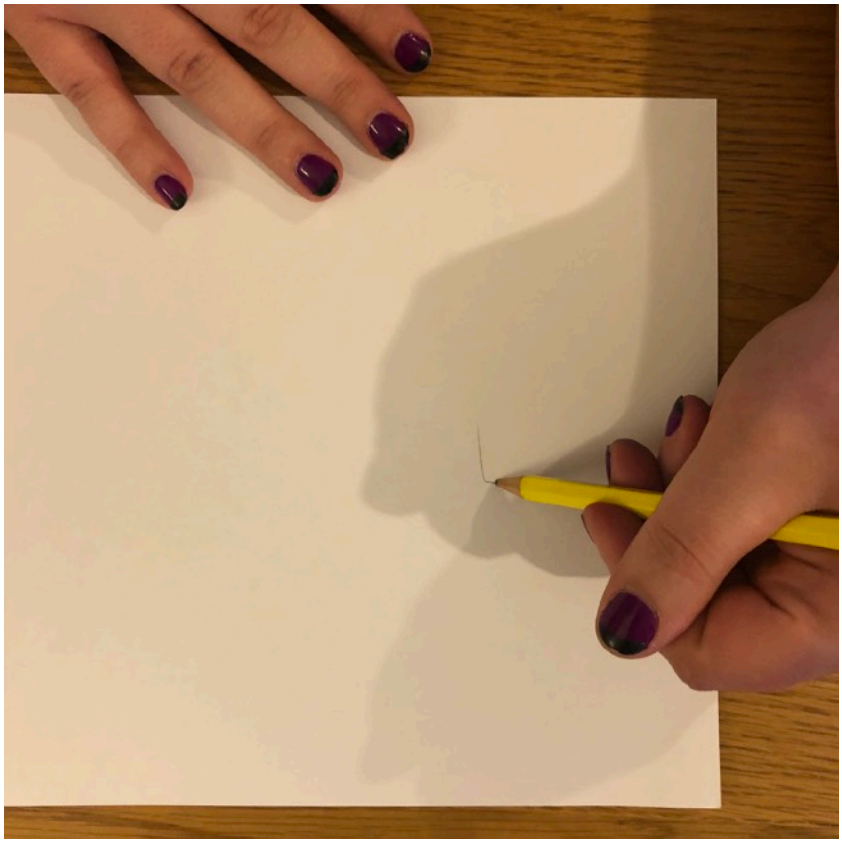

Taking inspiration from International Day of Happiness on the 20th March why not you create your own happiness board with all the stuff that makes you happy!

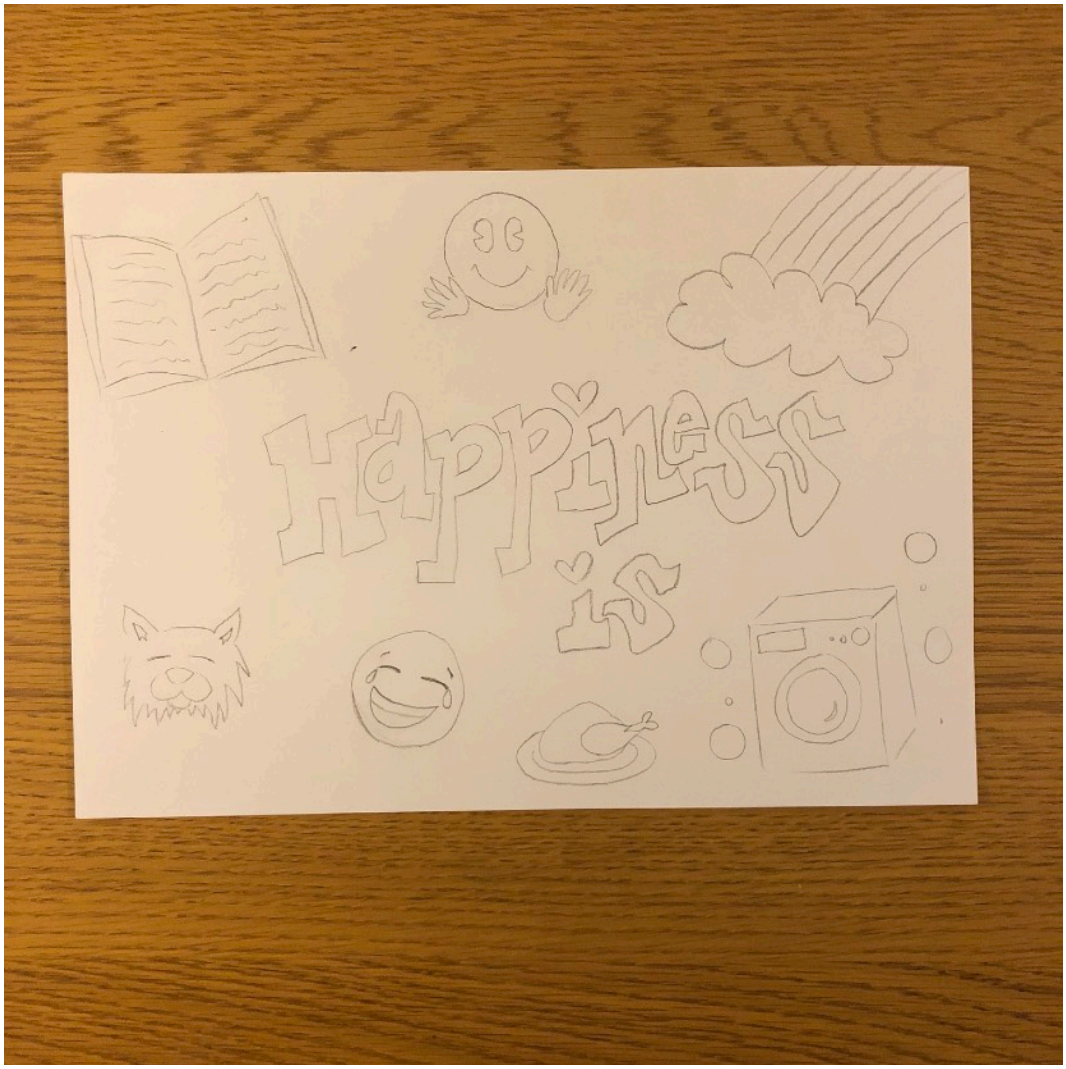

Tools and Materials:

- Paper
- Pencil
- Water
- Watercolour
- Paintbrush
- Black Pen to outline if you like

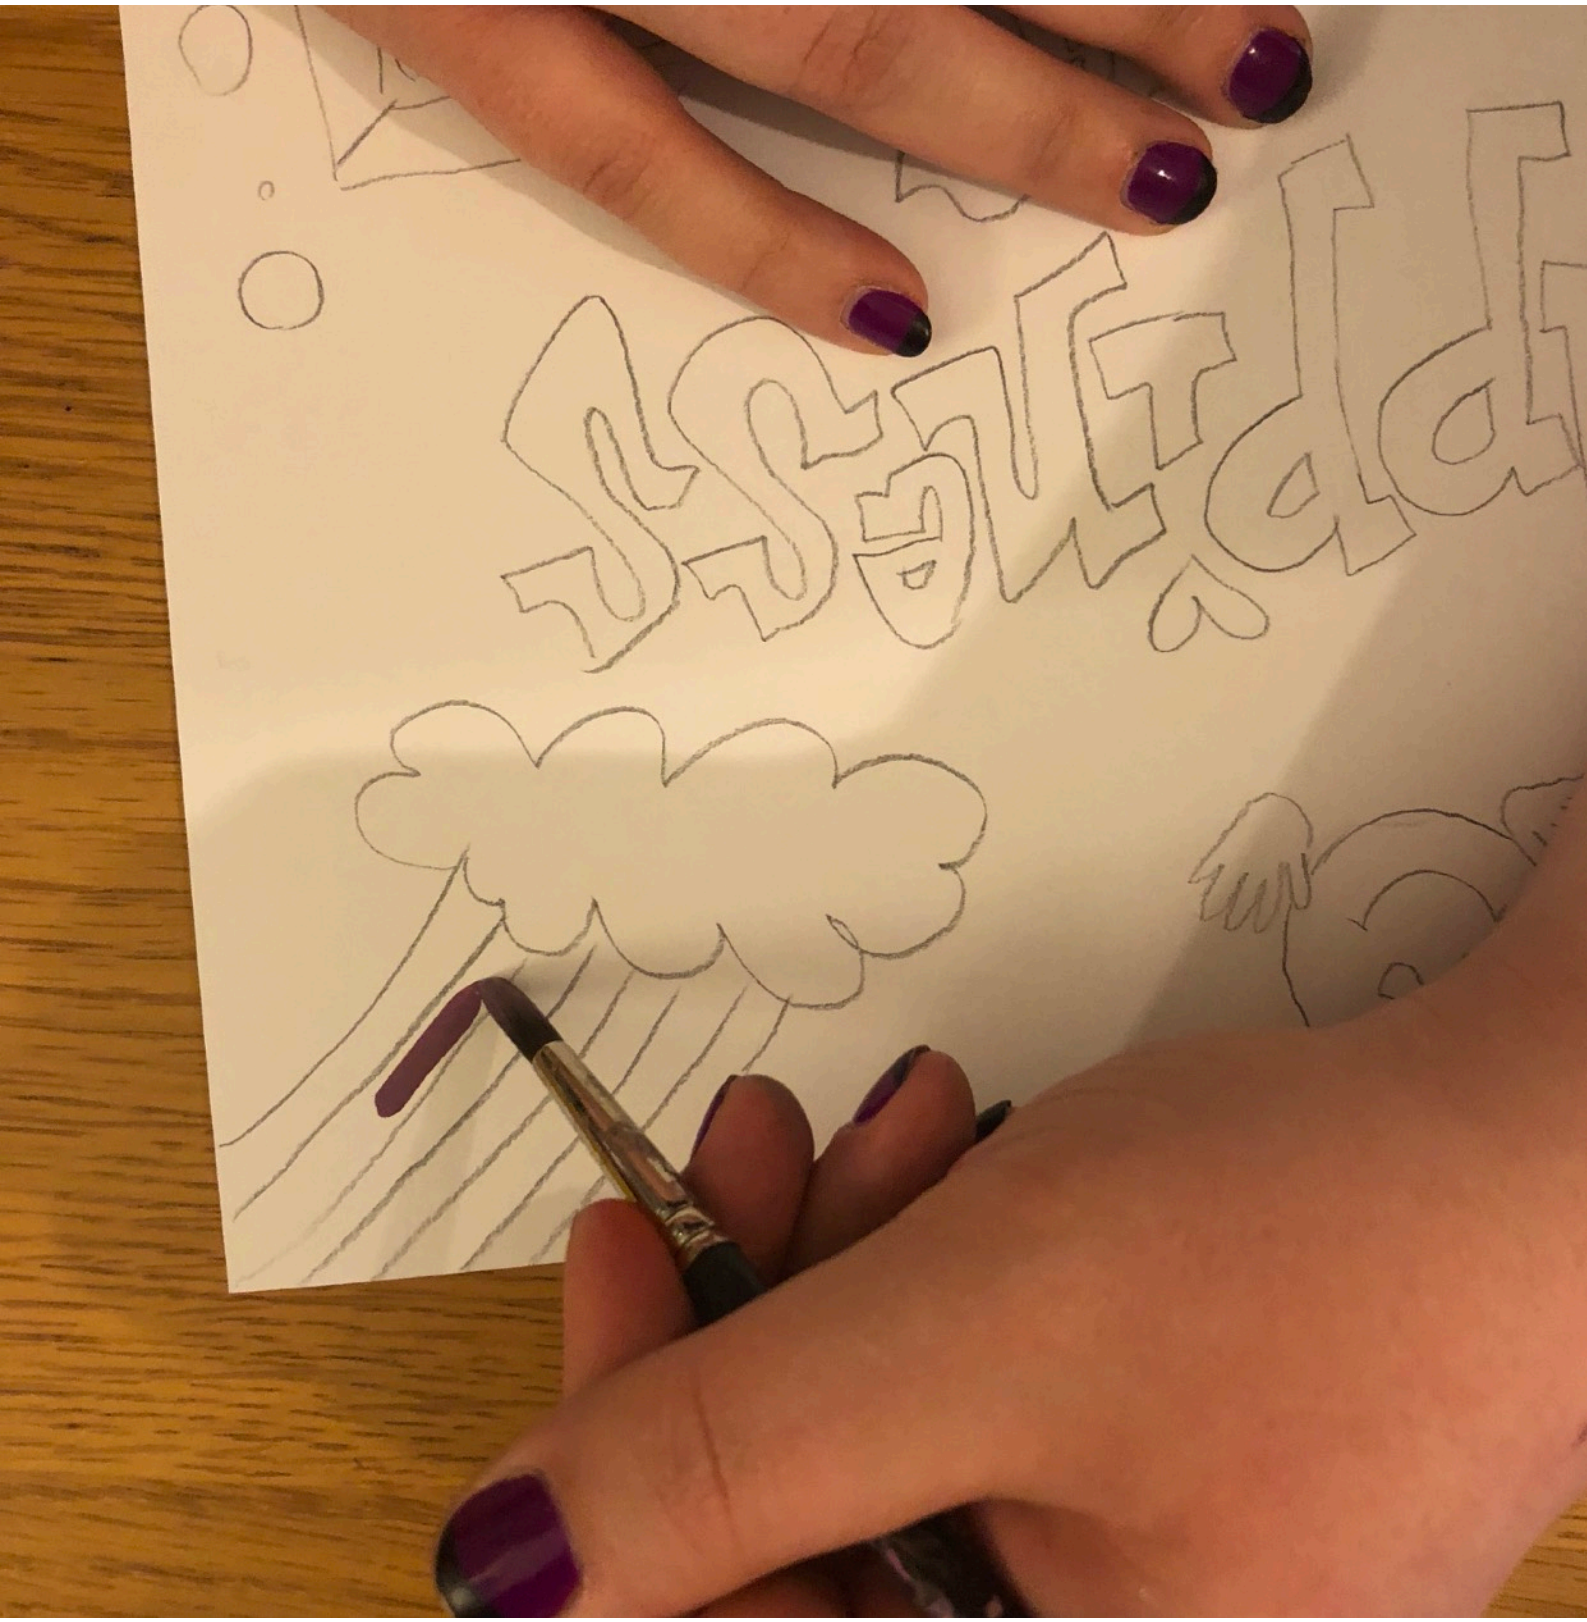

Start by sketching out what you want on your board!

Then you can start to paint it! If you are going to outline it with a black pen wait until the paint is dry so it doesn't smudge as it would be a shame after all the effort!

There you have it your very own “Happiness Board”

Here are some more we made to inspire you!
