Homemade Slime

This is super fun and slimy - you can even add glitter and food colouring to jazz it up a bit!

Tools and Materials:

- Mixing Bowl
- Spoon
- PVA Glue
- Almat Gel from Aldi (this is the only laundry detergent that works!)

This is really nice and easy to make but so much fun to play with! Get your mixing bowl and spoon and add in 3-4 spoonfuls of the PVA and then add in 1 spoonful the Almat gel and mix together

It is fun to get your hands in to mix it up! Why not try?

And there you have it your very own Homemade Slime
