Klimt inspired Painting

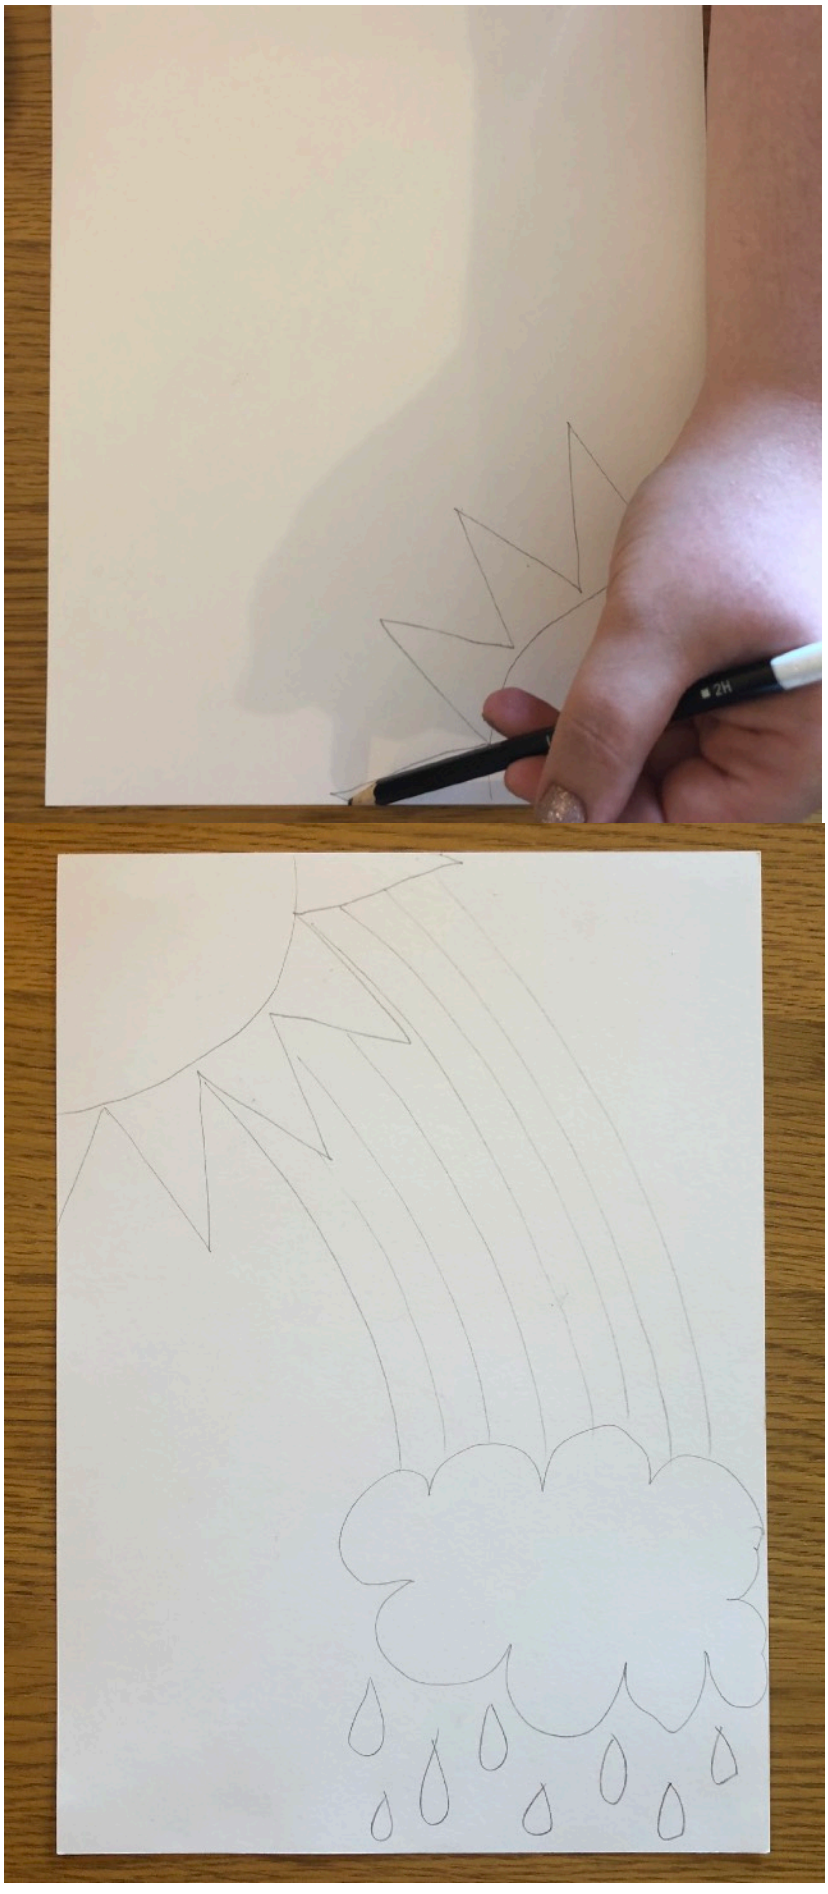

Gustav Klimt was a famous Austrian painter from the 19th Century who is famous for the use of pattern in his work - you can look up his work on the internet to get a better idea

Tools and Materials:

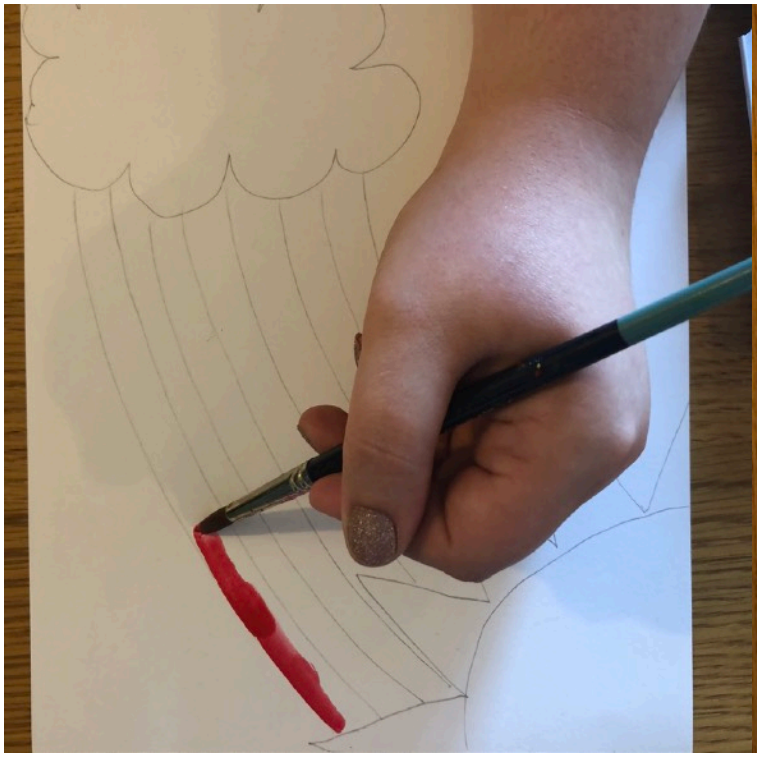

- Paper
- Pencil
- Watercolours
- Paintbrush
- Water for the watercolours

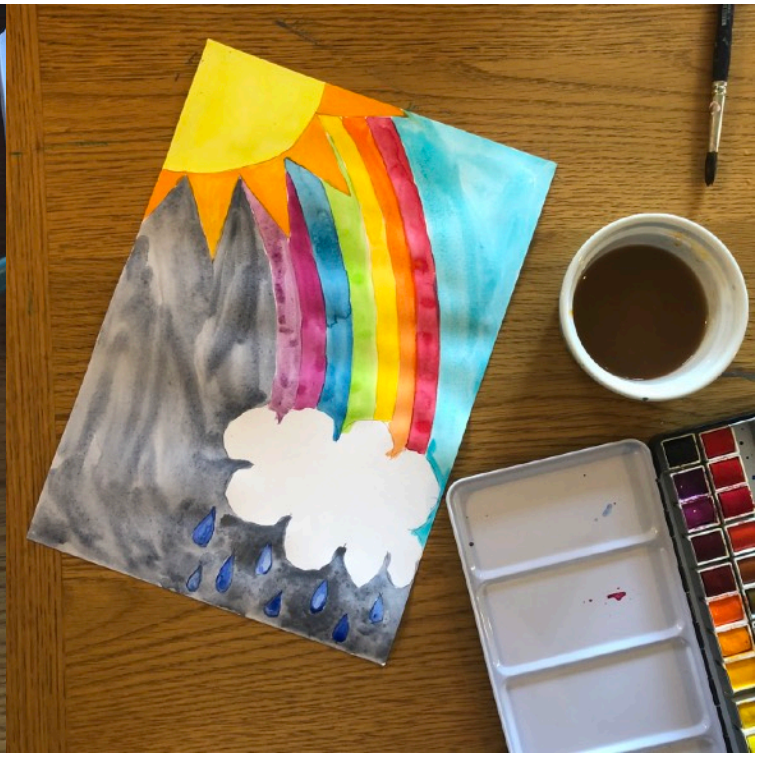

First of all think about what you might want to draw - we thought a rainbow would be a fun picture to add pattern to

When you are happy with your image you can start painting it - you can use the paint to add the pattern rather than the pencil so it doesn’t show through the paint

And there you have it your Klimt inspired Painting

Heres another we made to inspire you!
