Learn about Butterflies Day Drawing

14th of March is “Learn about Butterflies Day” taking inspiration from this why not draw a butterfly and learn some facts?

Tools and Materials:

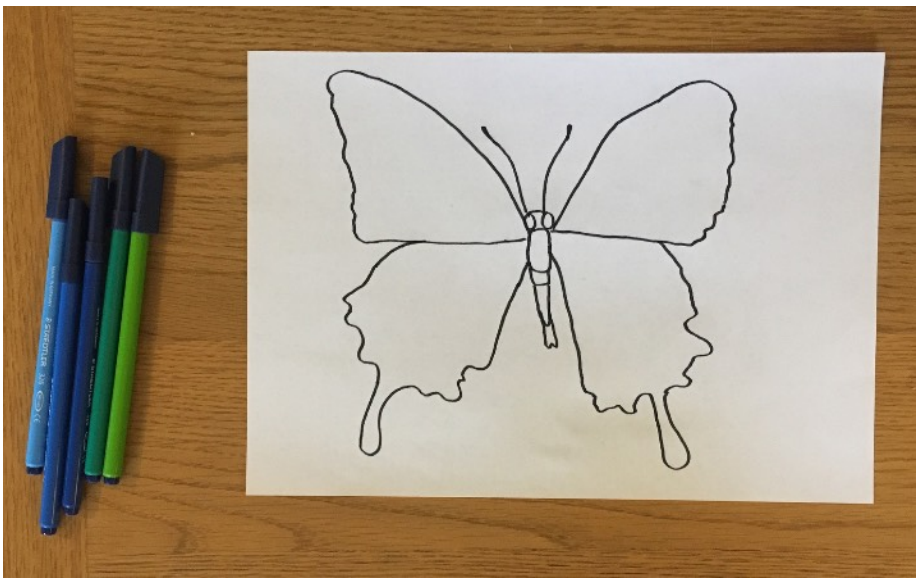

- Paper
- Felt Tips
- Butterfly example could be a picture or a specimen if you are lucky!

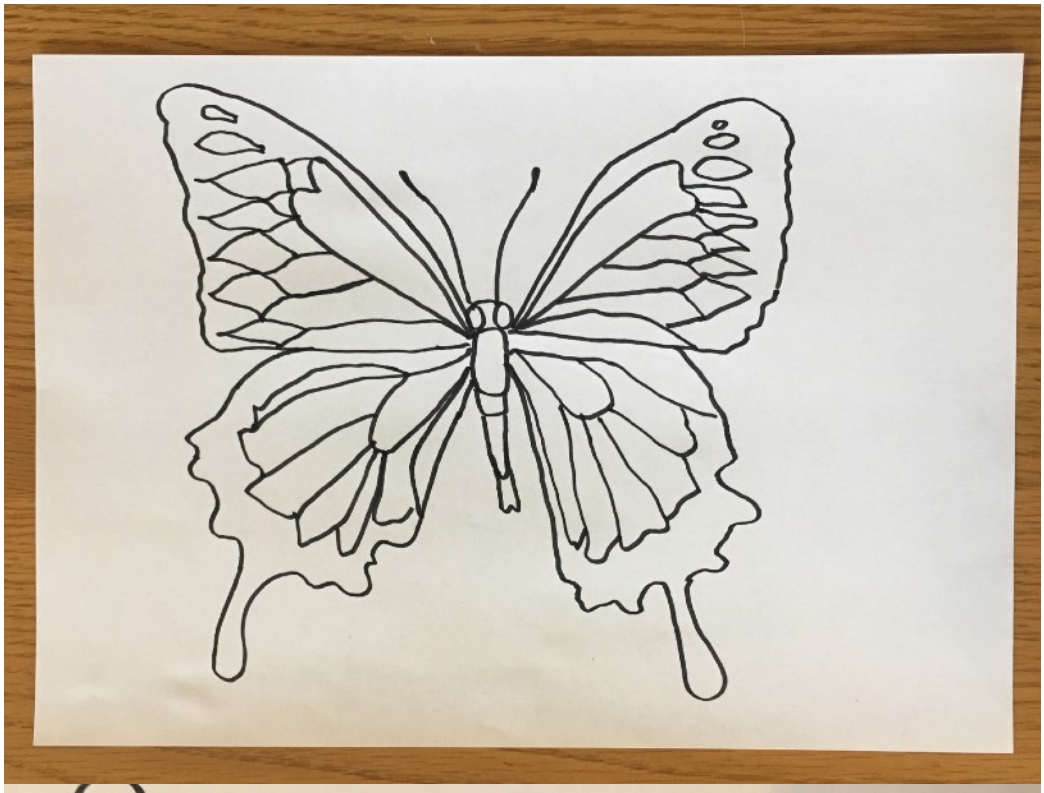

So looking at your example be it a picture or a specimen start looking at the shape your butterfly is, butterflies have 4 wings but different butterflies have different shapes - which one did you chose? Start sketching like so

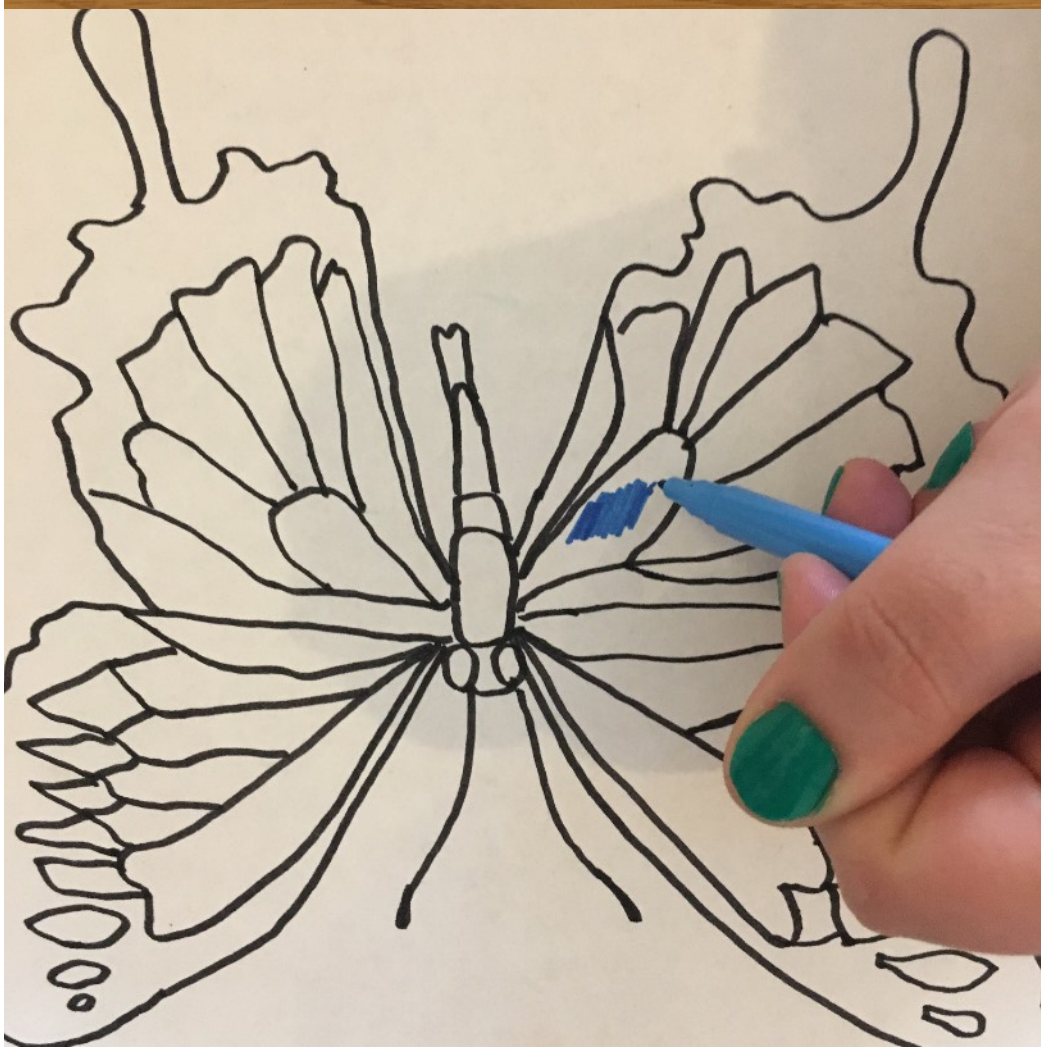

You should end up with an outline of your butterfly

Now you can start to add in the detail - looking carefully at the shapes that make up the wings, the different patterns and colours so start adding it in as a guide for when you colour your butterfly in

And there you have it your very own Butterfly Drawing for Learn about Butterflies Day!

Here is another we created to inspire you!

Inspired by butterflies - why not take part in the big butterfly count and see what butterflies you can see!
