Mad Hatter Day Place Setting

This teaching pack is dedicated to CreativeConnection who helped make another year possible!

To celebrate Mad Hatter Day and the 150th Anniversary of Alice in Wonderland, 6th October 2015, we created a place setting as if we were at the Mad Hatter's Tea Party!

Tools and Materials:

- Coloured Paper
- Scissors
- Pencil
- Glue Stick

So first of all we had a think about what characters and bits of the story that we know about - such as the Cheshire Cat! To begin we created our plate to stick the cat on like so.

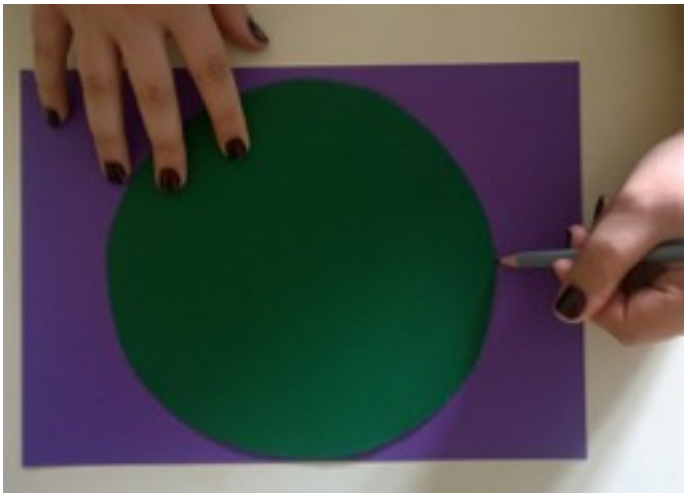

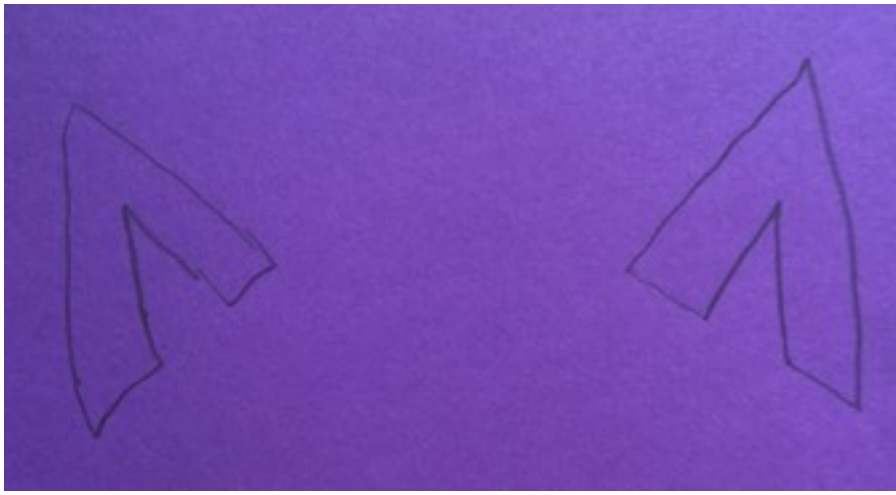

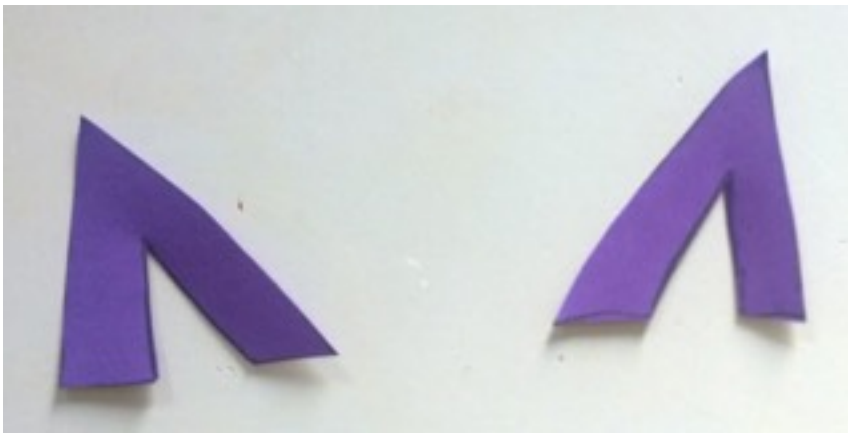

Use your plate to measure how big you can draw the different elements of your image

To make the ears stripey cut out the ears and cut out the same shape in another colour like we have done

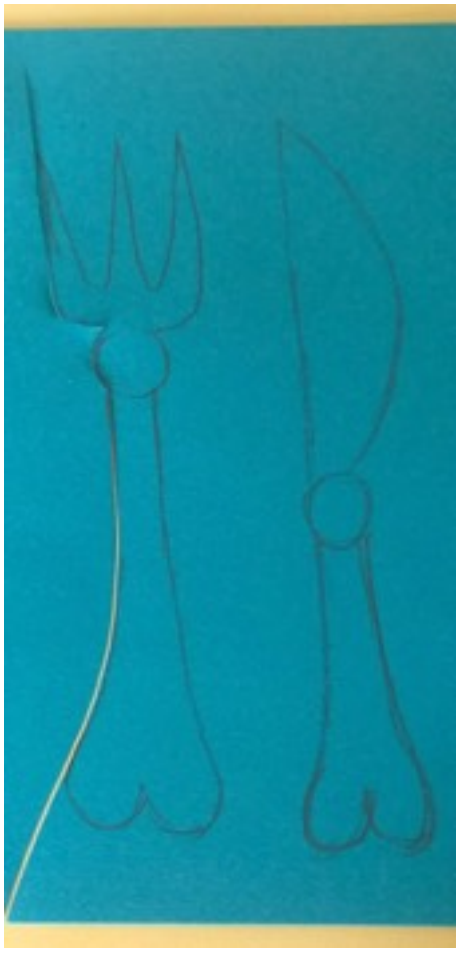

Once you are happy with the stripes you can stick them down and create the rest of the elements for the cat face like so - again don't stick anything till you are happy with it!

Then you can create some cutlery to go either side of your place setting - we chose to do ones with heart like tops at the bottom of them because of the Queen of Hearts!

And there you have it your own “Mad Hatter Place Setting”!

Here are some more we created to inspire you!
