Mandalas

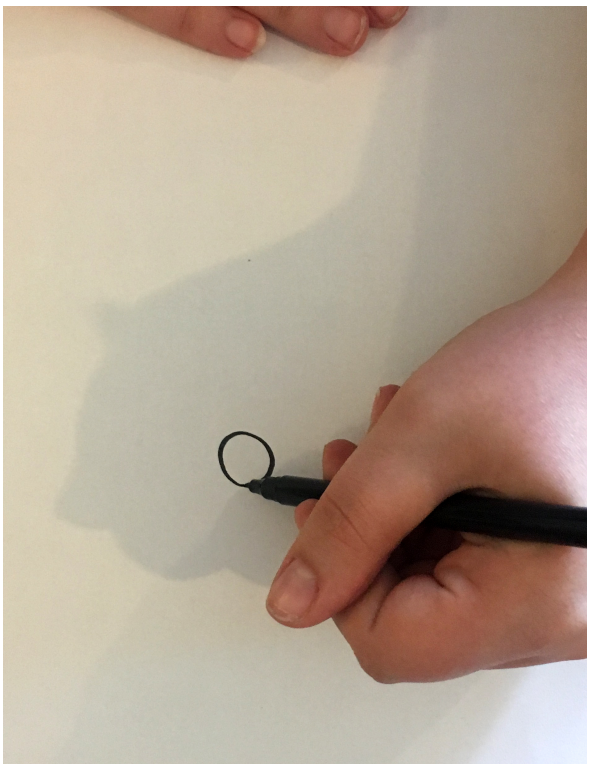

Taking inspiration from Buddhist Mandalas why not create your own to enjoy colouring in!

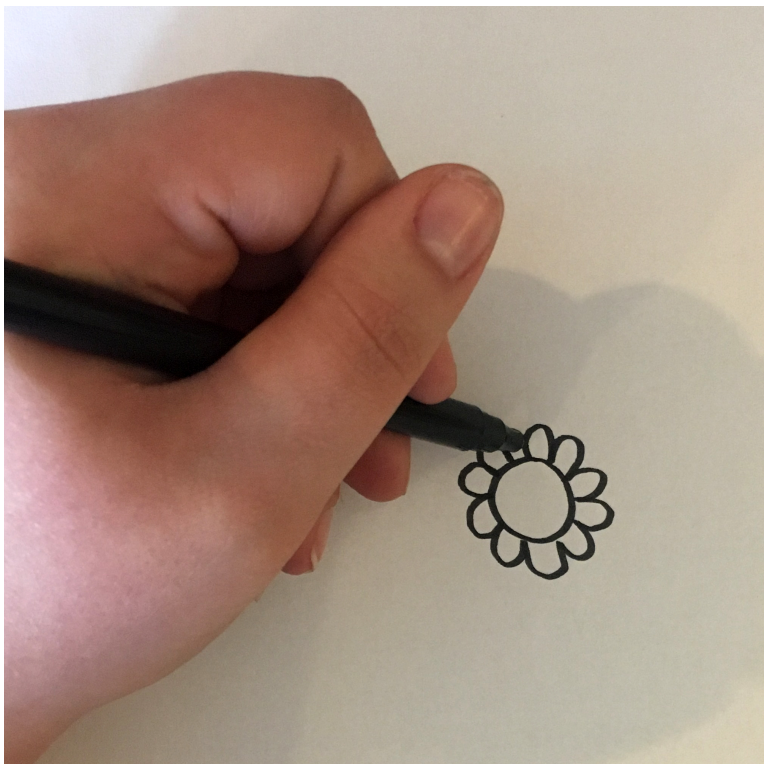

Tools and Materials:

- Paper
- Felt Tips

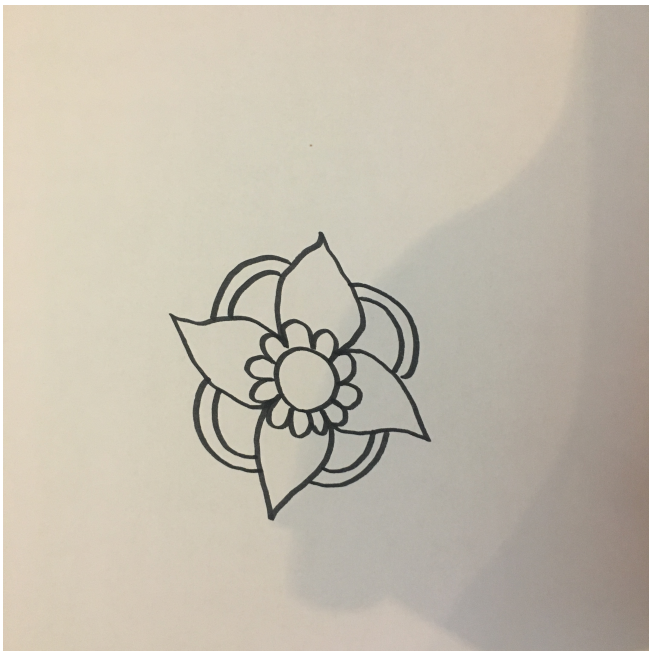

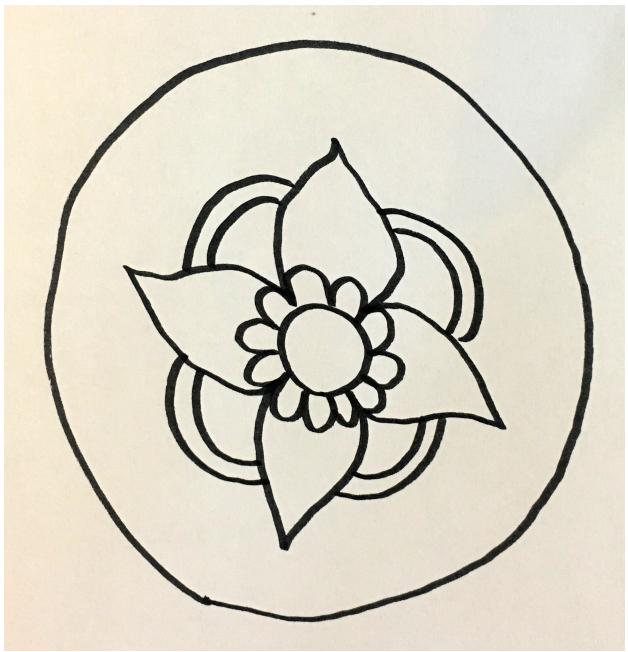

The great thing about Mandalas is they focus on geometric patterns and repetition - plus they can look really striking with different line work and they are great fun to colour in! First decide what shape you want to start with? We chose a circle - then start adding more shapes to create the pattern

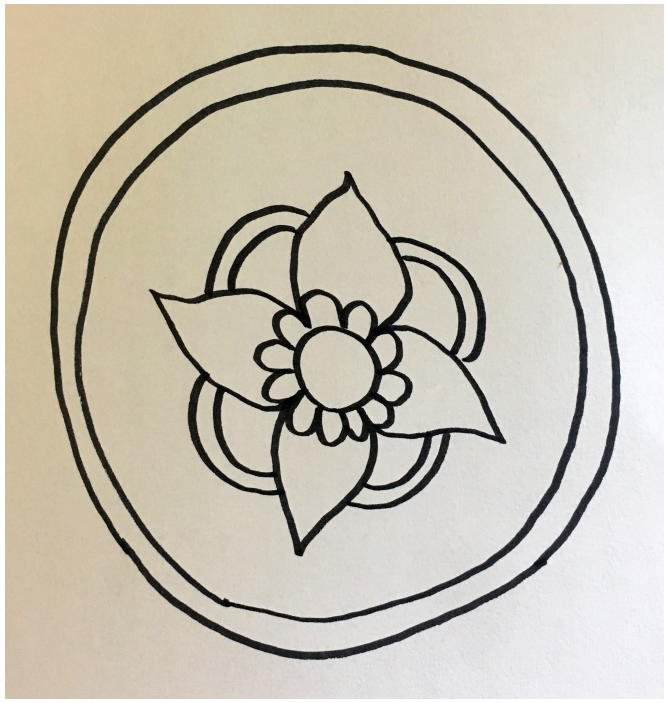

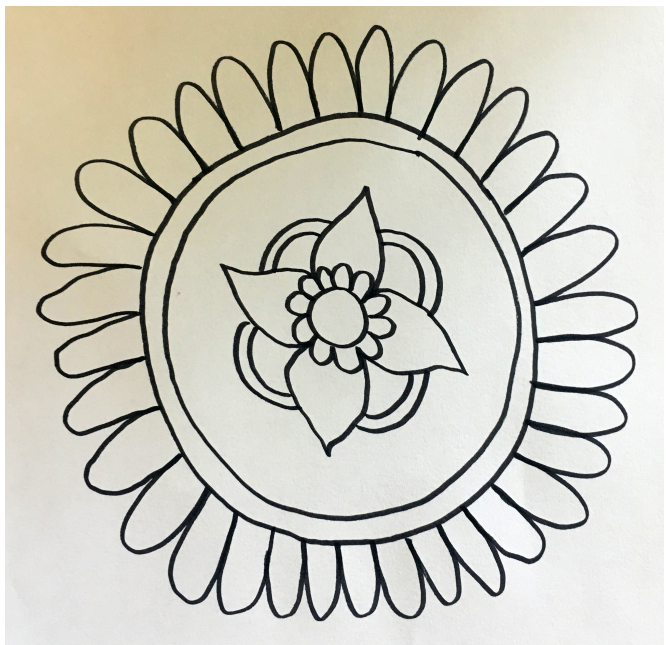

Then start adding some arcs to make large shapes like so - although there is no right or wrong with this - you just want to keep adding sections to make the pattern bigger

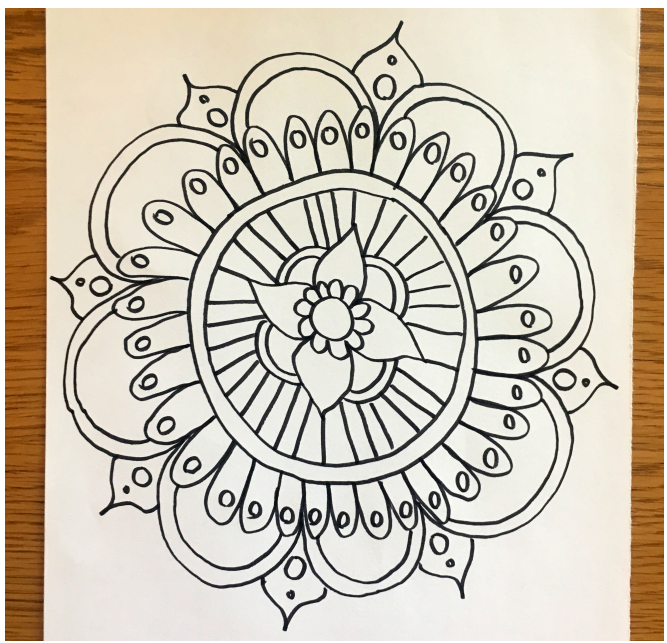

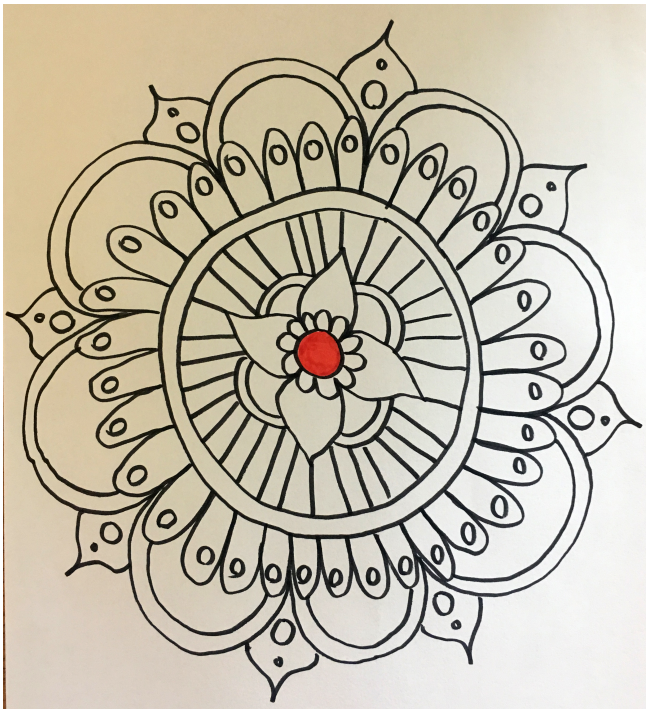

Keep on adding more shapes till you are happy with it

Once you are happy with your design then you can enjoy colouring it in - colouring in is a great way to relax - you could even make some to give friends & family to colour in!

There you have it your own Mandala!

Here is another we created to inspire you!
