Art:Focus Monet's Waterlilies

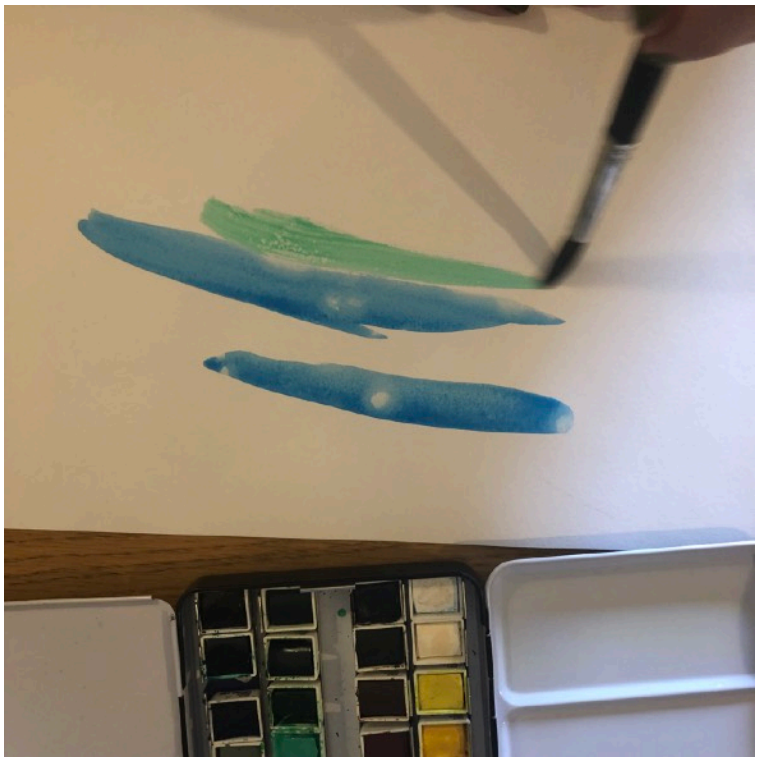

Sometimes its great to take inspiration from other artists - for this we wanted to look at Monet's Waterlilies

Tools and Materials:

- Paper
- Water
- Watercolours
- Paintbrushes

Monet was an impressionist painter and what is particularly striking about their work is the use of so many colour put together to create an overall image - bearing that in mind we started by creating a background of water for the waterlilies to sit on. Water isn't just one colour - what colours can you think of in water?

Once you are happy with your background you can add the lilies and lily pads

And there you have it your own “Monet’s Waterlilies” inspired watercolour work

Here is another we made to inspire you
