Movie Poster Memories

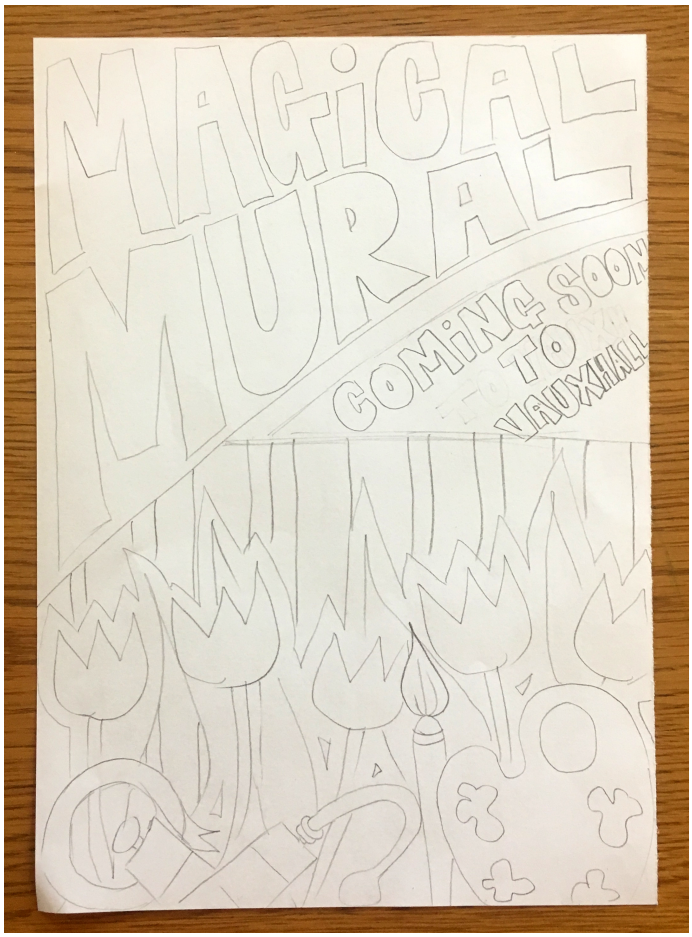

Why not create a movie poster to celebrate your favourite memory from the Summer holidays? Or any time of the year!

Tools and Materials:

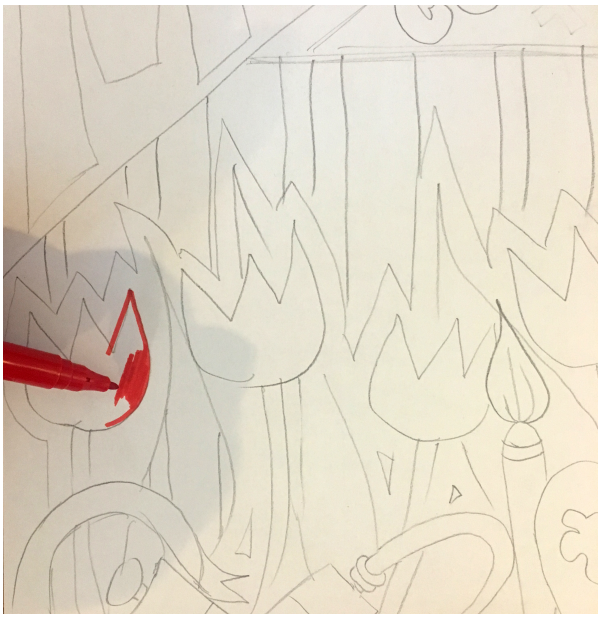

- Paper
- Felt Tips
- Pencil

First of all think of a memory you enjoyed - we launched a mural project in August at a community day which was really good fun so we wanted to represent that. Movie posters usually have bold text and snappy titles so think about how you want to word it and what image you want to show and then start drawing!

Then you can start colouring it in to make it vibrant!

There you have it - your own “Movie Poster Memory”

Here’s another we made to inspire you!
