Paper Plate Masks

This is a great way to make masks for fancy dress and because it is so easy to do you can make one for every occasion!

Tools & Materials:

- Paper Plate
- Scissors
- Sellotape
- Pencil
- Felt Tips
- Ice Lolly Stick
- Feathers to decorate or you could use sequins or glitter if you have them at home

Think about what you want to draw on your mask, we chose a dragon, draw the outline but make sure the eyes are big enough for you to see through!

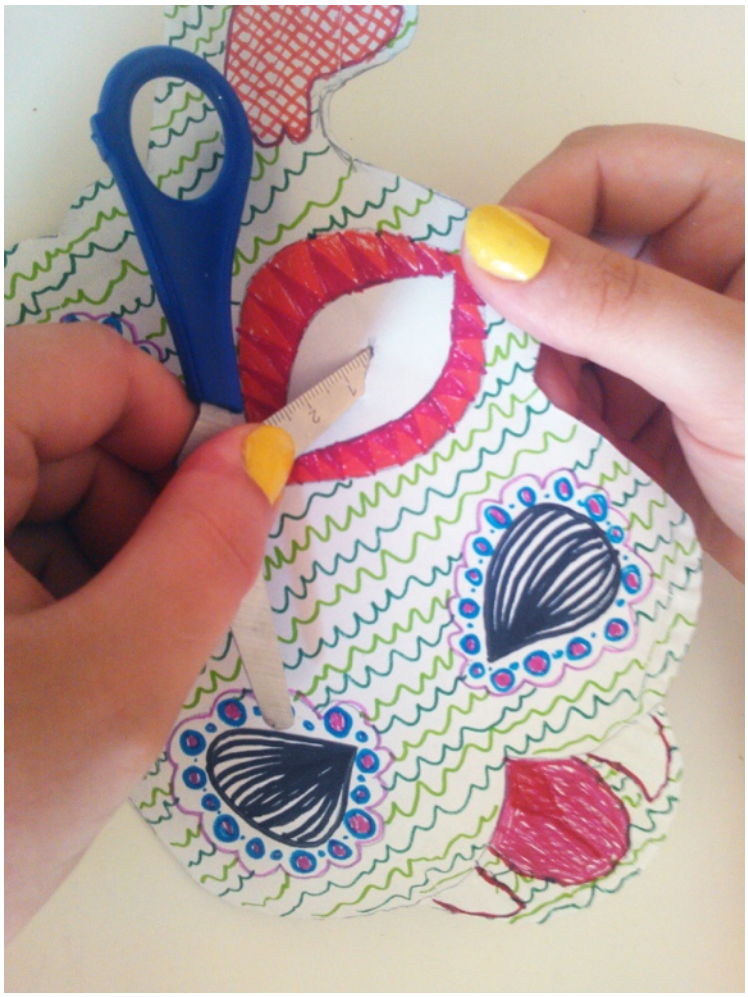

Once you are happy with your design you can start colouring it in

Now you have coloured the mask in you can cut it out, to cut out the eyes it is easier to pierce through the middle rather than bending it, you might want help with a parent for this to make sure you don't hurt yourself

Once it is all cut out you can go over the mask again adding more details or outlines to make look more bold

Now you can add the feathers (or any other stuff you might have at home to decorate it, tin foil and shiny sweet wrappers are also good). Turn your mask over to stick them to the back as it looks a bit neater like so

Finally add the ice lolly stick to hold your mask up

And there you have your finished mask

Here are some other masks we have made to give you inspiriation
