Paper Plate Tree Garland

Celebrating the festive season you can create this simple but bold decoration to bring some Christmas cheer!

Tools and Materials:

- Coloured Paper
- Pencil
- Gluestick
- Scissors
- String
- Green Paper Plates (you can always use white ones painted or coloured in)

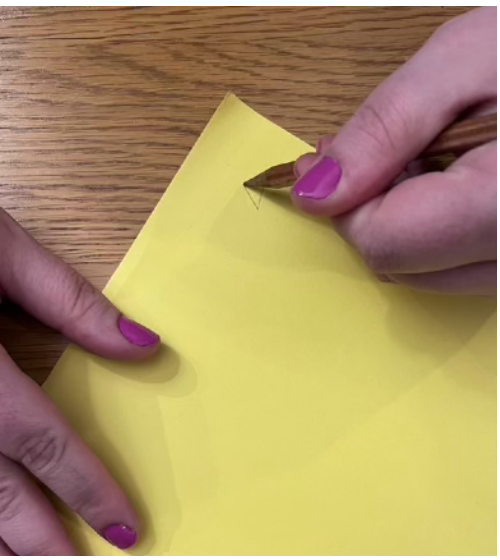

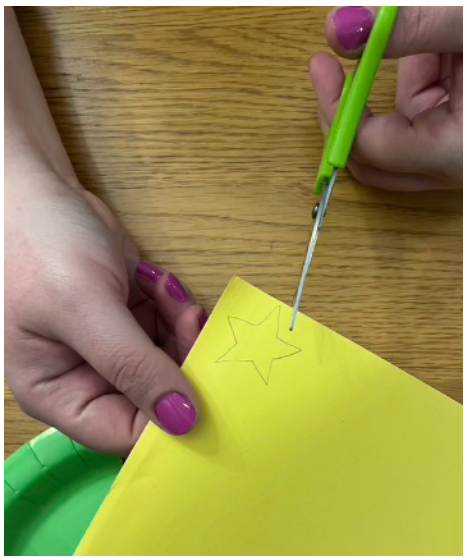

For this we have used one paper plate but you can use as many as you want, each plate creates 4 trees. Cut your plate in half and the half again (quarters) like so

Once you have the base for your trees you can start decorating with collage - drawing and cutting out stars, hearts, circles, tinsel or snow - whatever you fancy to decorate each tree!

Your trees can be the same or different - heres ours to give you some inspiration

Now to get them ready to thread, you can use scissors to make a hole, or a sharp pencil or even a hole punch if you have one!

Now to thread, cut the length of string you want we kept our thread behind the decoration so going in from the front on the left - going behind and coming through to the front on the right like so

There you have it your very own “Paper Plate Tree Garland”!
