Pop Up Pals

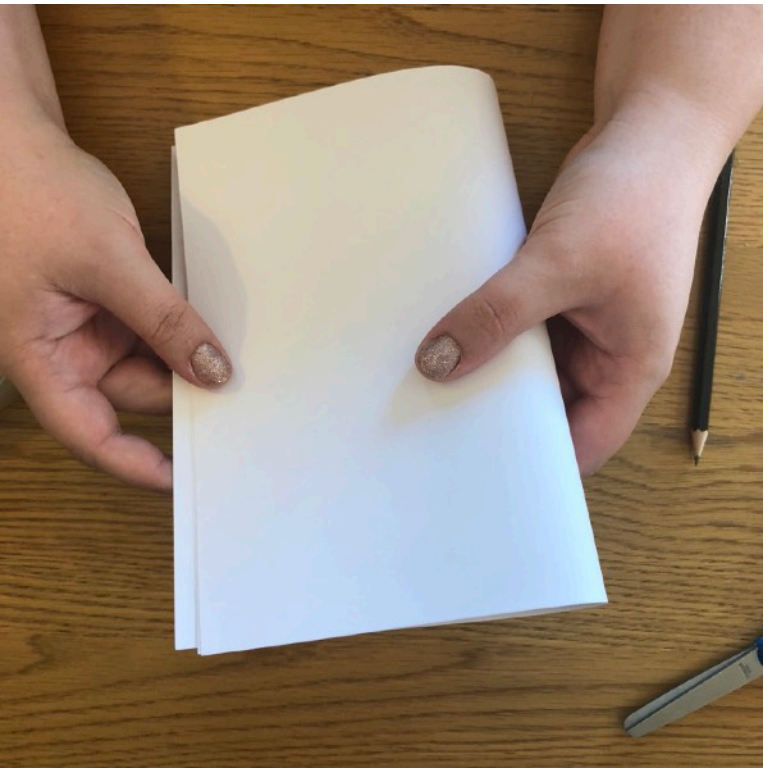

This is a fun way to create a 3D friend - you can even and a hanger so could be a great way to make your own Christmas decorations!

Tools and Materials:

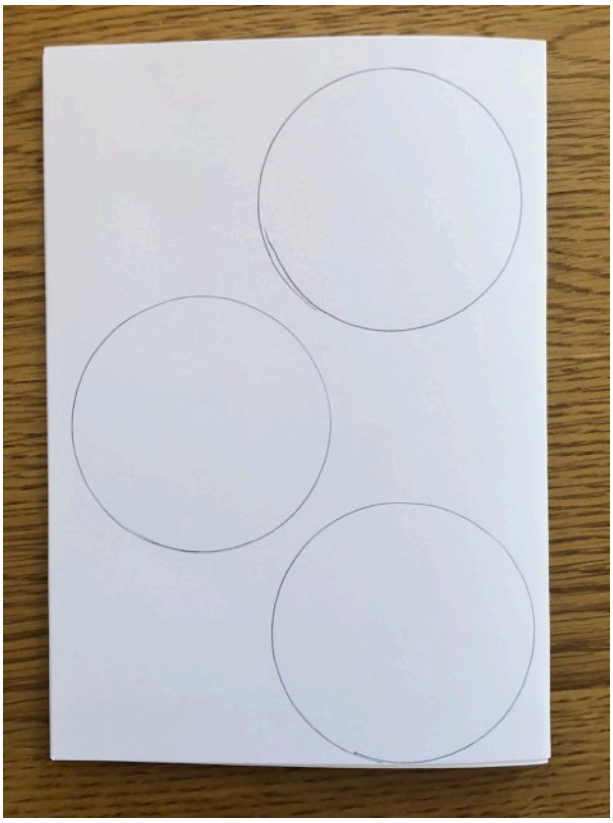

- Coloured Paper
- Pencil
- Glue
- Scissors
- Sellotape (or something circular to draw round)

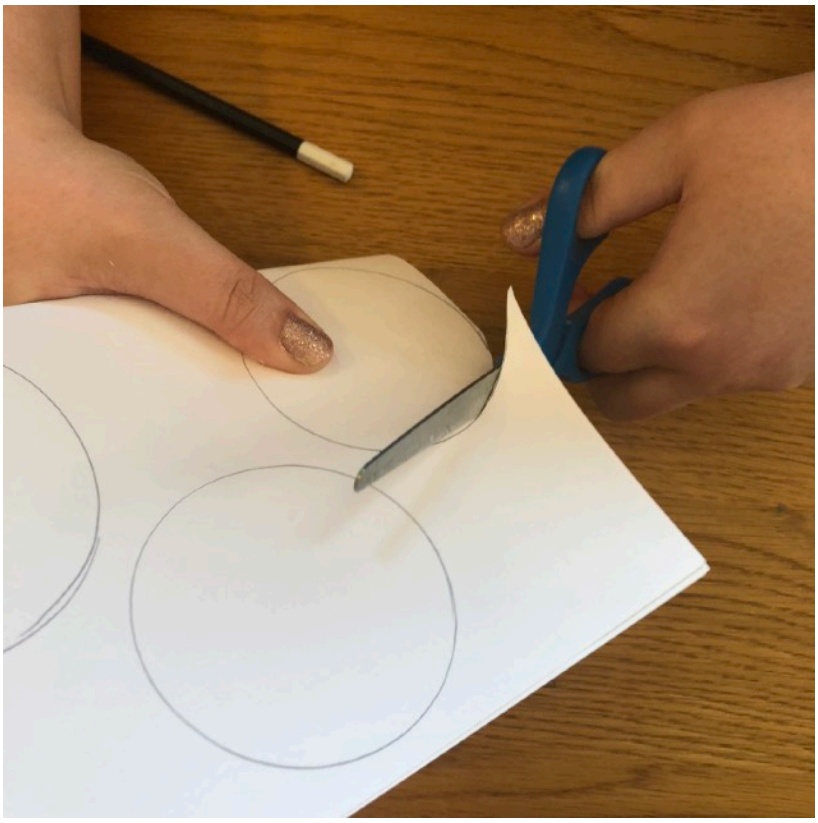

First of all we need to create some circles for the body of our pop up pal - take a piece of paper and fold it in half and then draw three circles on top and cut them out - we cut out a lot more but you only need 6 circles in total

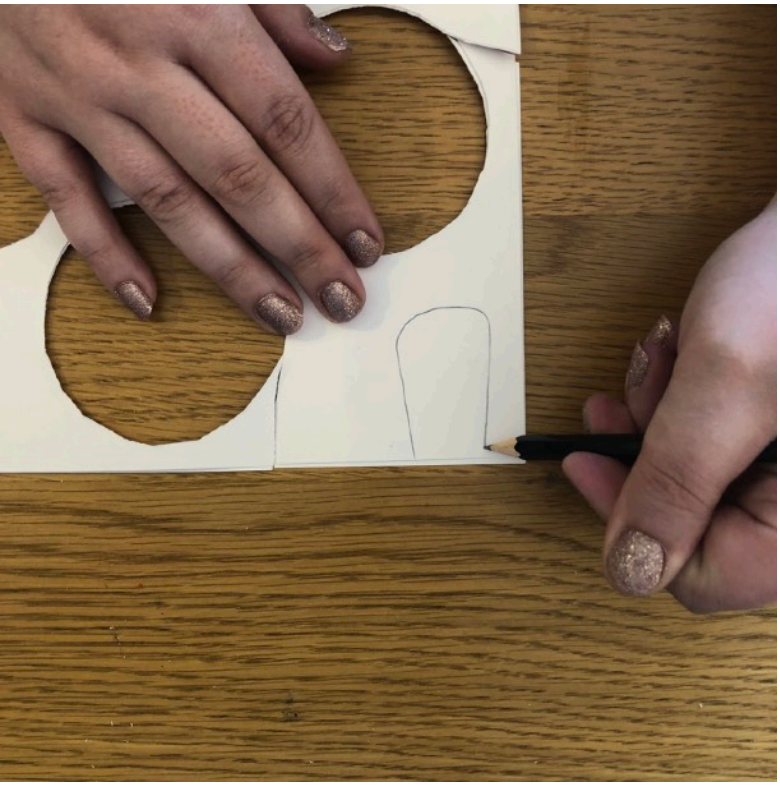

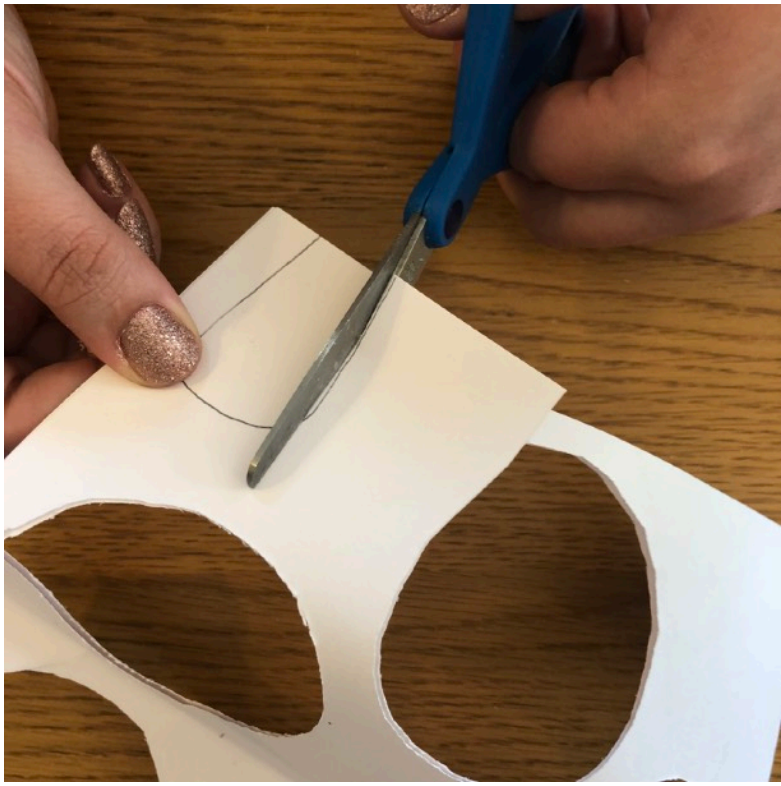

Once they are cut out fold your circles in half like so

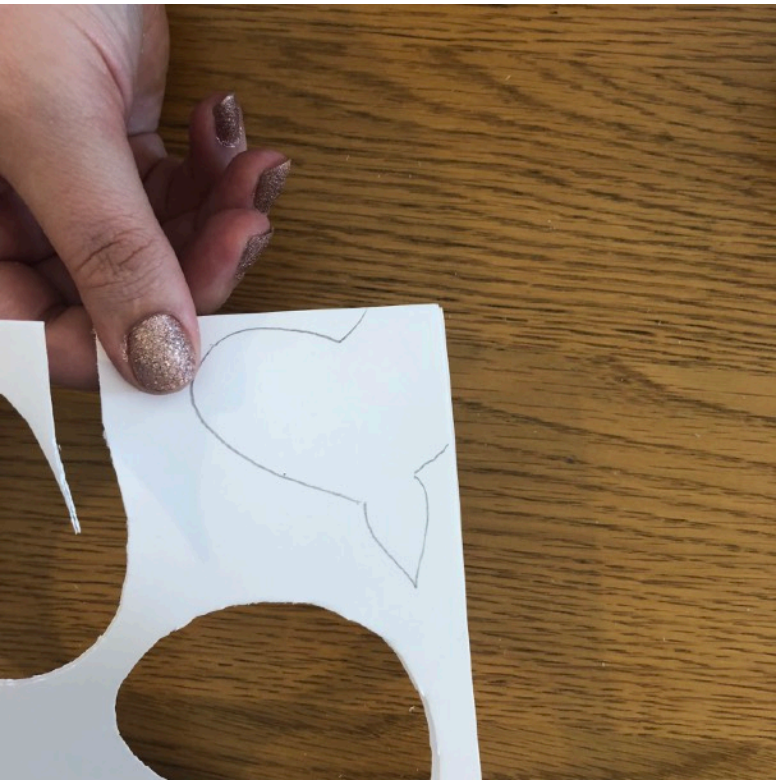

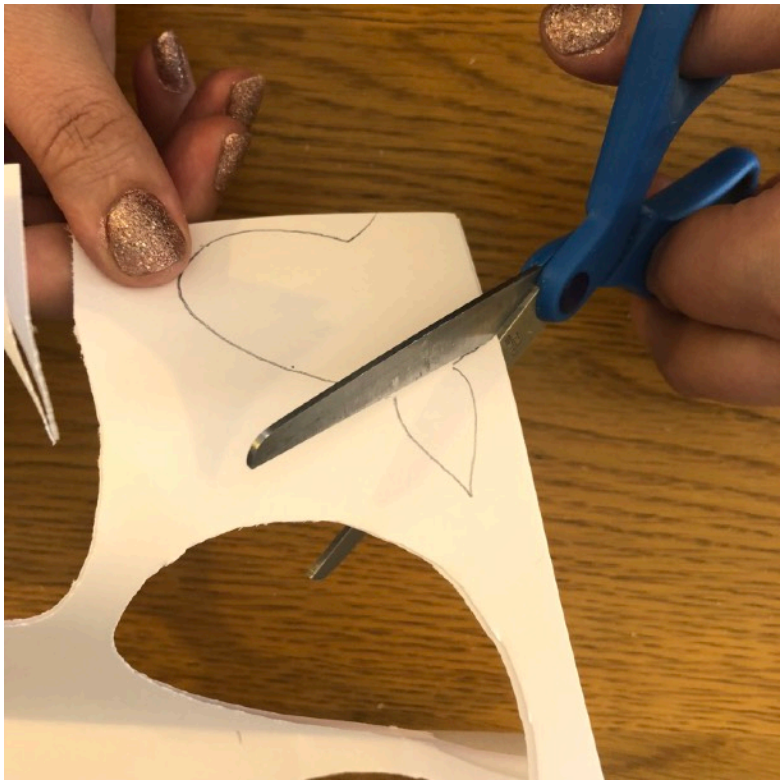

What are you creating - we want to do a unicorn because we love unicorns! So a unicorn needs legs and a head. Because you can see all the way around the pop up pal you can choose if 2 or 4 legs look better - even if it is 4 legged animal it could have its legs behind one another so 2 is fine!

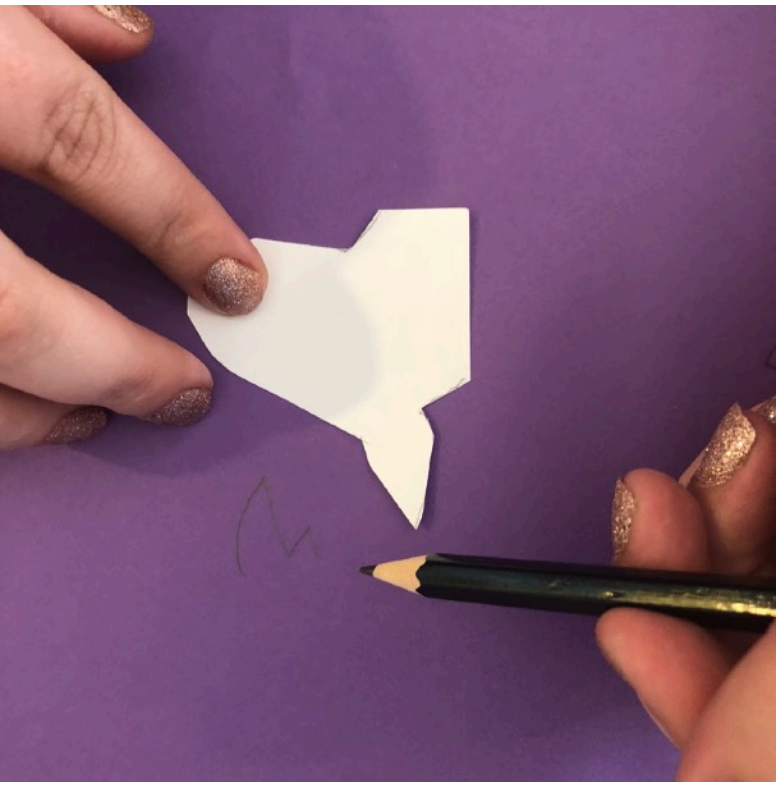

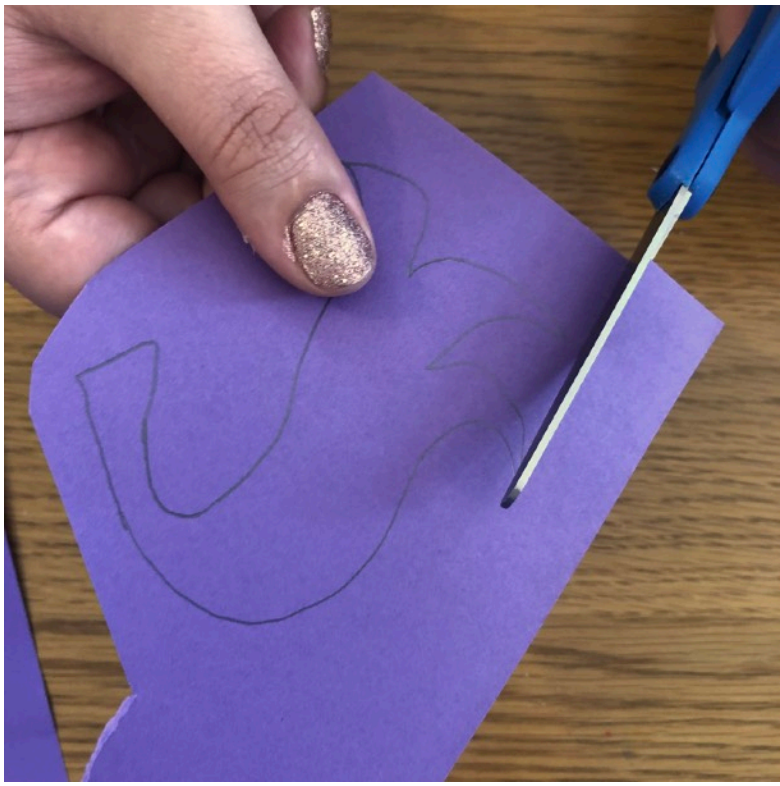

Once you have cut out a head a unicorn needs a mane so use it to figure out how big you need to draw it (plus a tail for later too!)

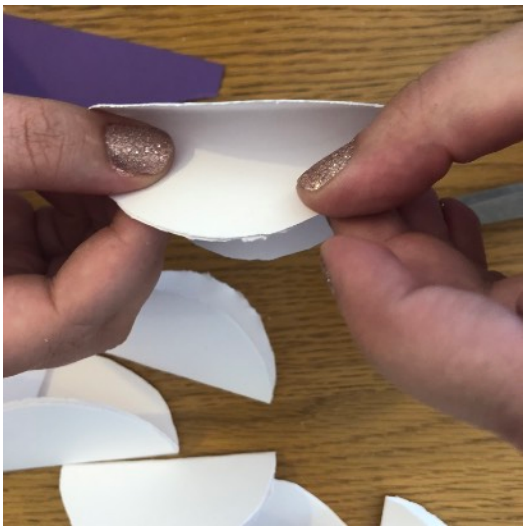

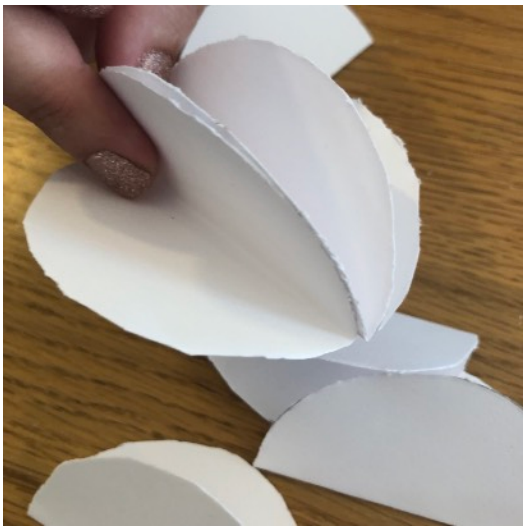

Use the glue to stick the mane to the head like so

Now to start putting the body together, take your folded circles putting glue on the outside and sticking them together until it looks a little like an orange, bear in mind you need to add the head and legs in.

There you have it your very own Pop Up Pal!

You can also add a hanger by cutting a strip of paper and adding it to the top (before the glue dries!)
