Puzzle Books

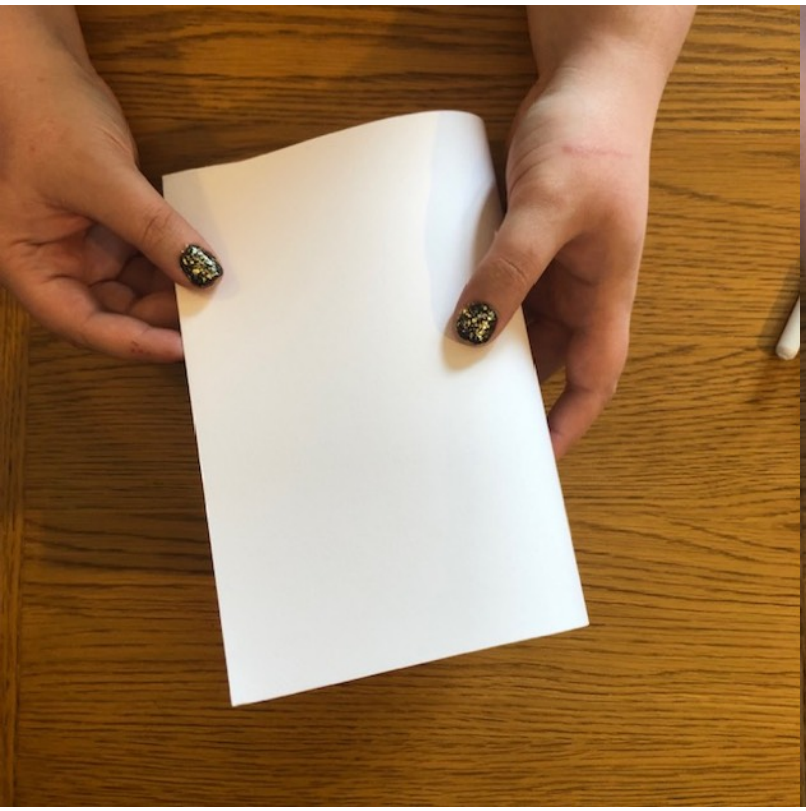

This is a super fun way to create your own puzzle book to keep yourself entertained or even create one for your friends to keep them entertained!

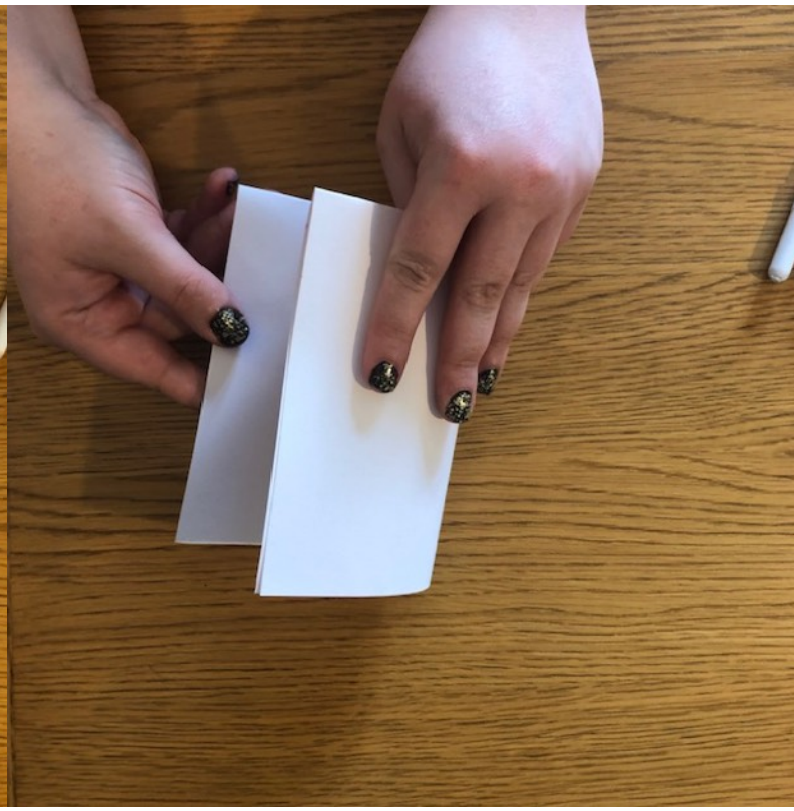

Tools and Materials:

- A4 Paper
- Felt Tips

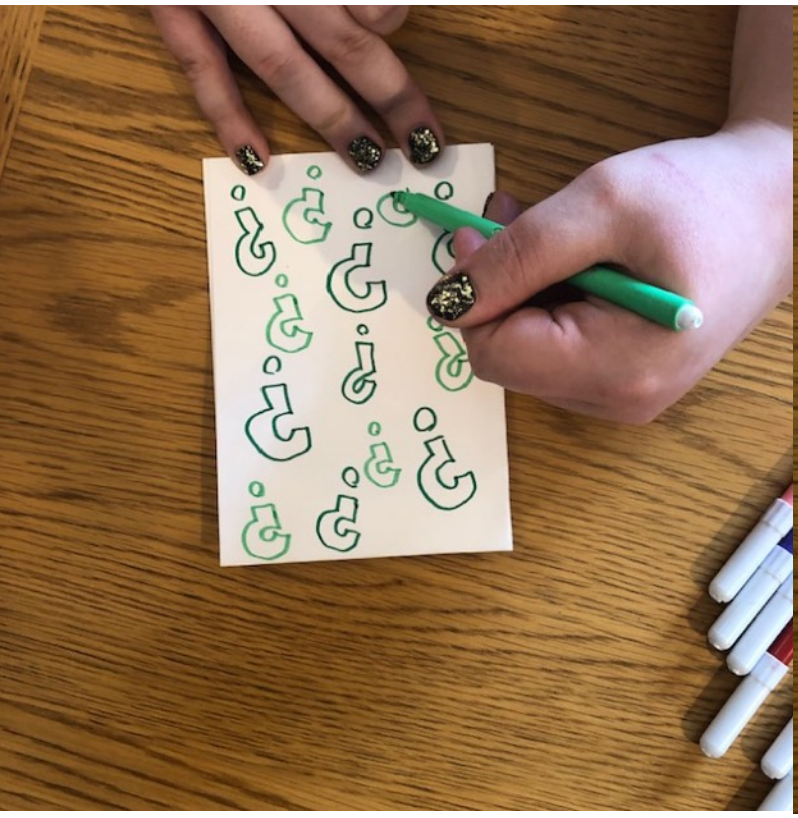

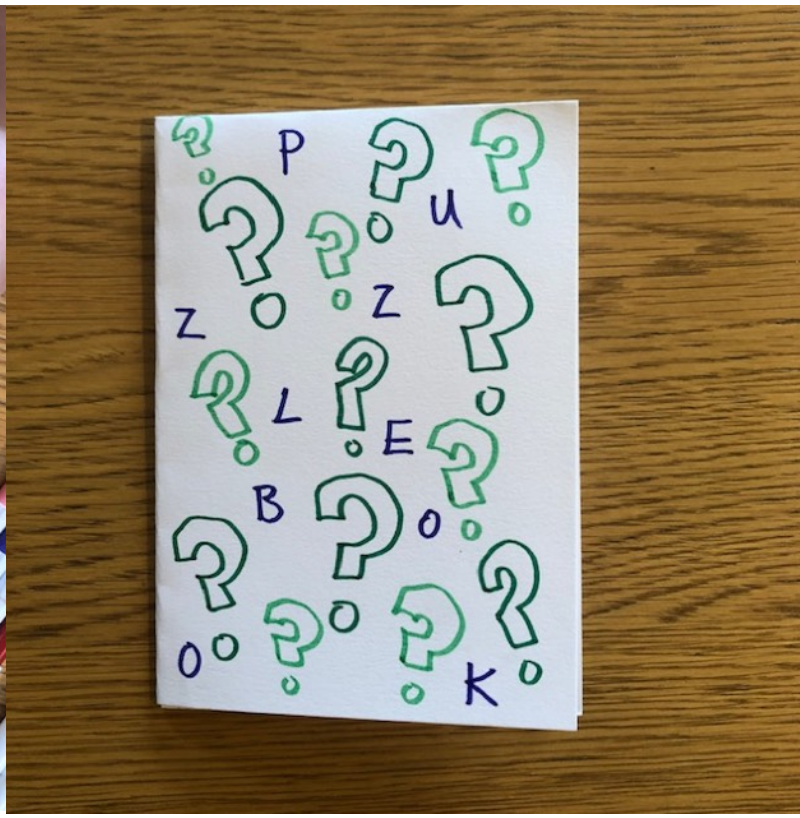

Take your paper and fold it in half and then half again the other way to form like a greetings card

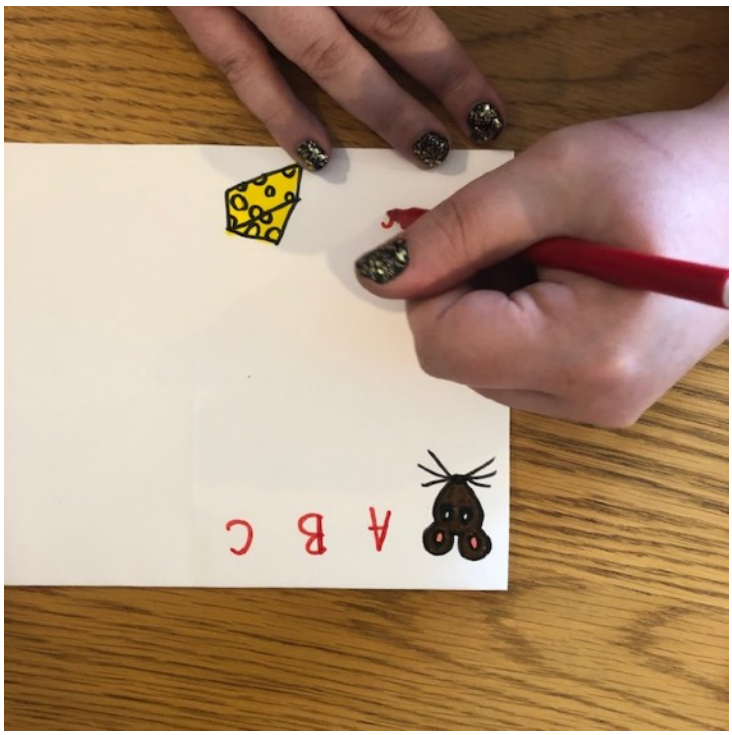

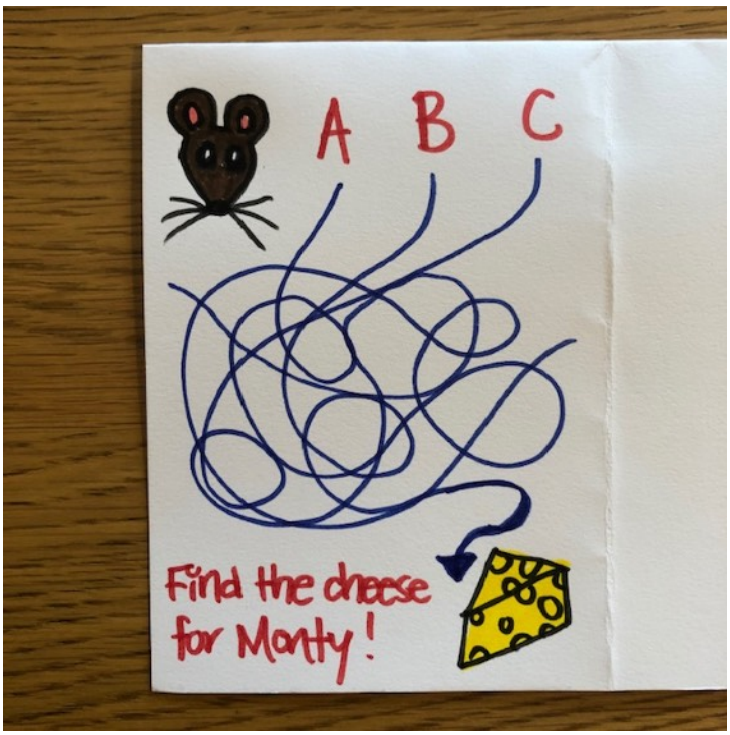

So now you can create your cover - what do you want your puzzle book to look like?

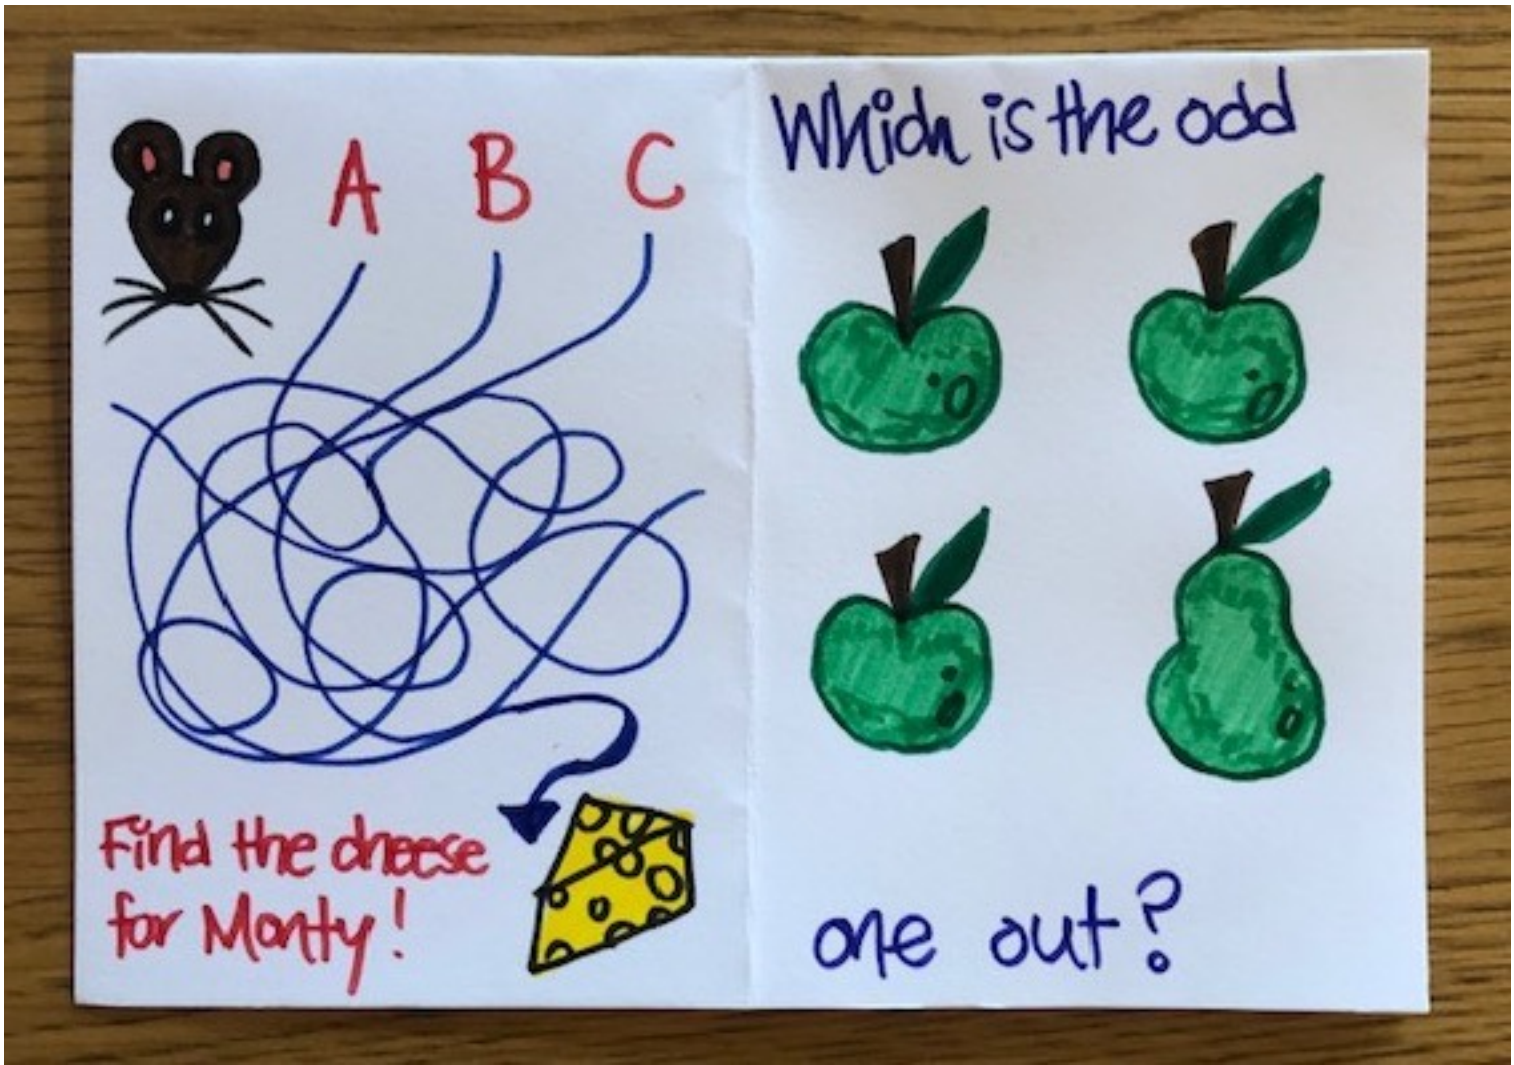

Now you can start adding your puzzles - what puzzles can you think of? Riddles, mazes or even some maths questions can be fun! You can sketch them out on rough paper first if you prefer to make sure they work!

Here is another puzzle book we've made to inspire you!
