Represent Yourself

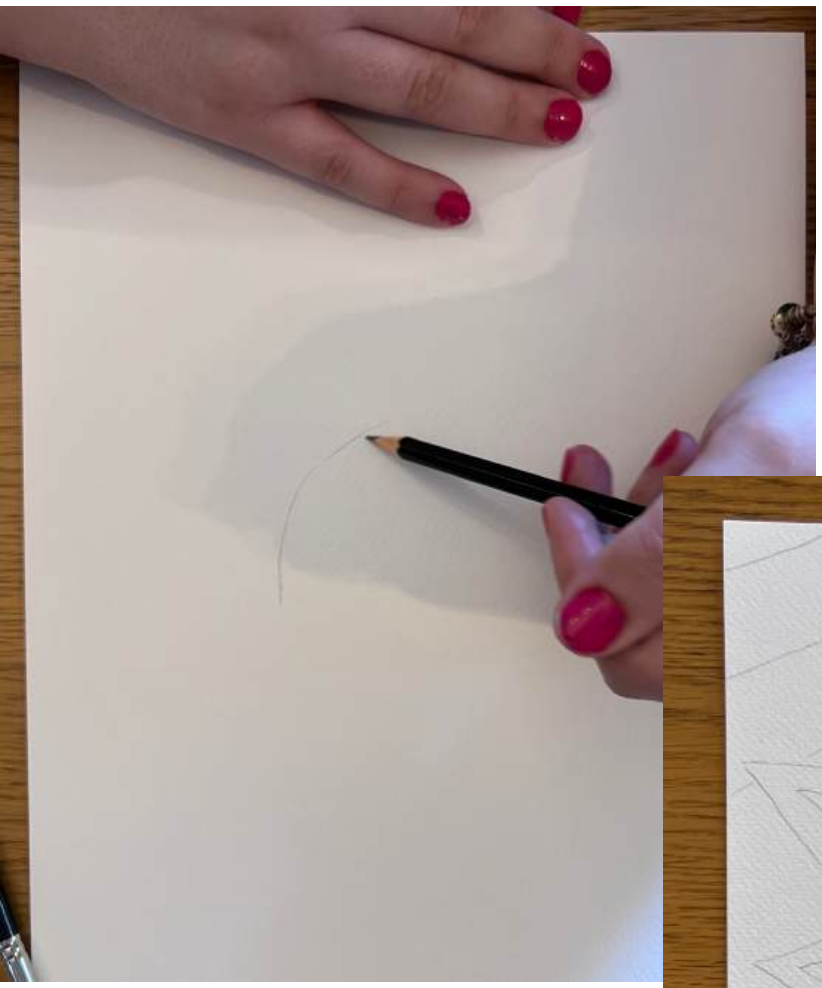

Thinking about your heritage and culture how can you represent yourself - you could even include other cultures that inspire you if you like!

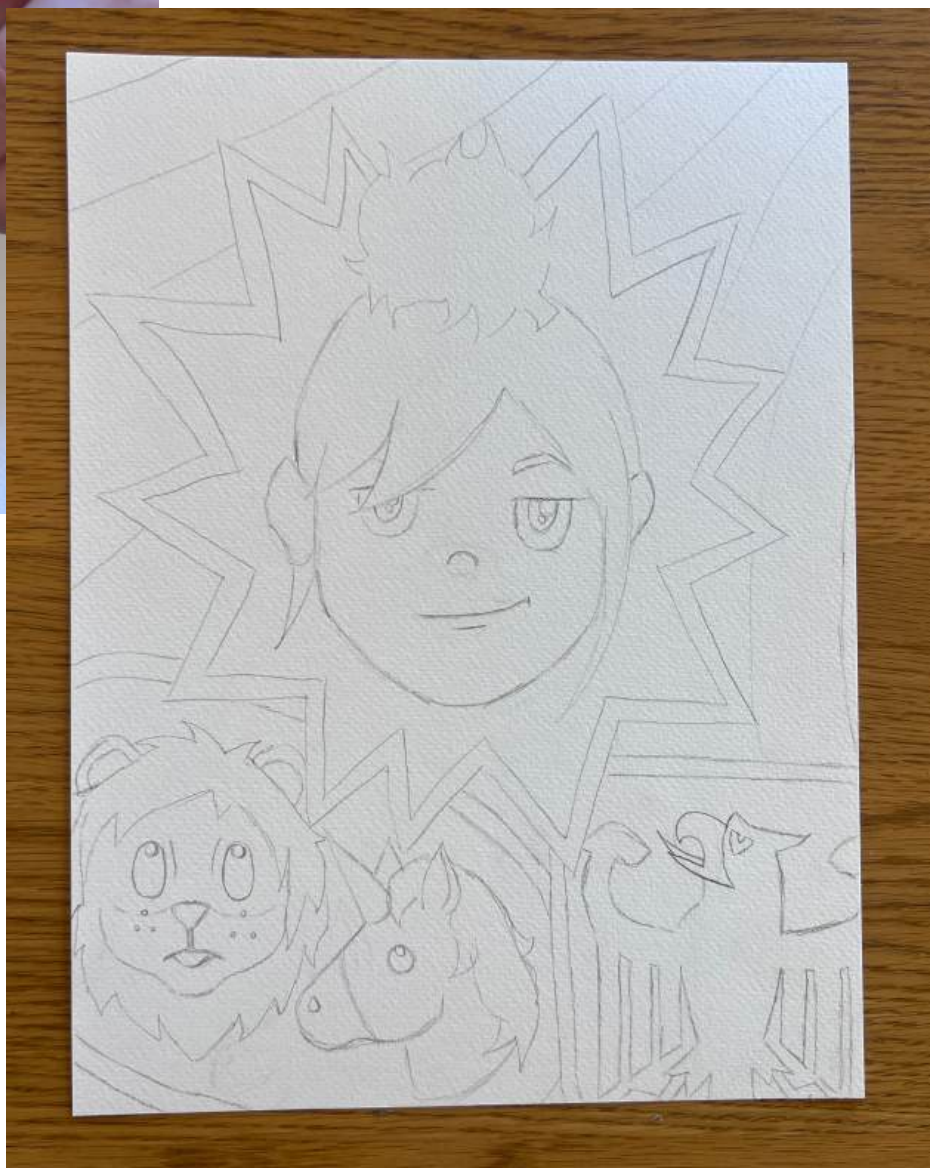

Tools and Materials:

- Paper
- Pencil
- Paintbrushes
- Water
- Watercolours

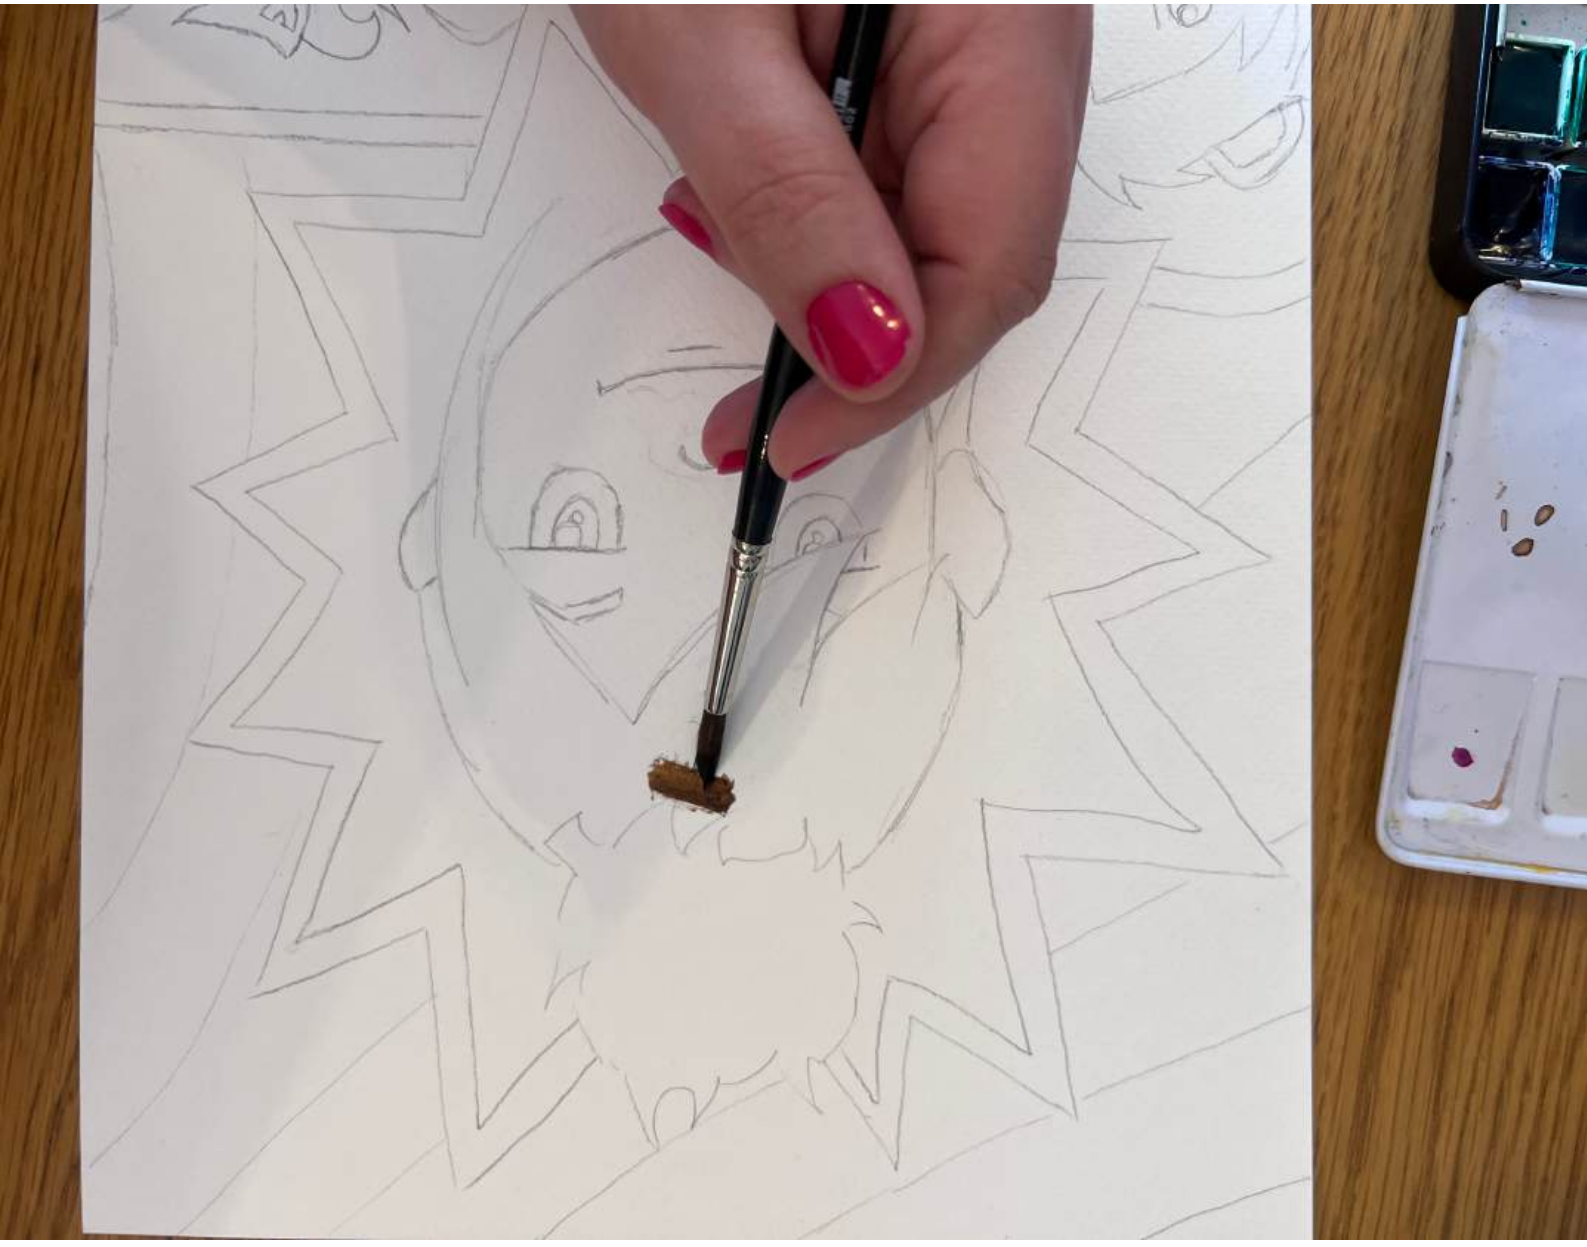

For this we thought it is a fun way to show what makes us us, thinking about culture and heritage - where our families come from through flags or food or even fashion. There are some many different things that can illustrate different places - we even took inspiration from the animals of different countries! Start sketching your drawing out - you can include yourself if you like!

When you are happy with your sketch you can add colour! The colours of the flags could be good as a background or however you would like to represent it!

Make sure to leave gaps in time between painting colours so the watercolour doesn’t bleed into other colours

There you have it your very own
“Represent Yourself” artwork!

Here are others we made to inspire you!
