Shirt Cards

This is a really fun way to make a Father's Day card although you could use it for any celebration - or just to say "hello"!

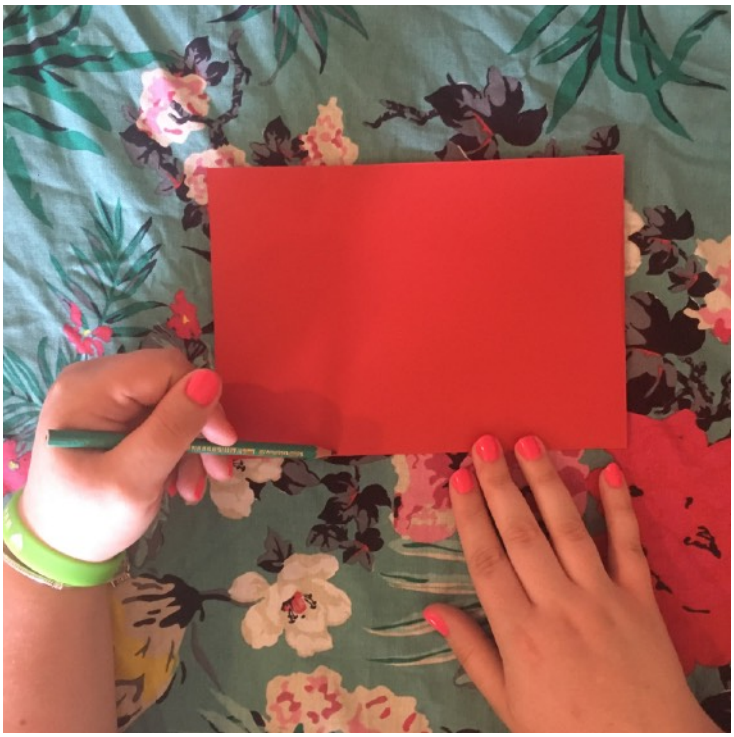

Tools and Materials:

- Paper
- Coloured Paper
- Scissors
- Glue stick
- Pencil
- Felt Tips

First of all take you piece of coloured paper and fold it in half like so - then draw the outline of your shirt with the hem at the bottom of the paper where the fold is then cut it out

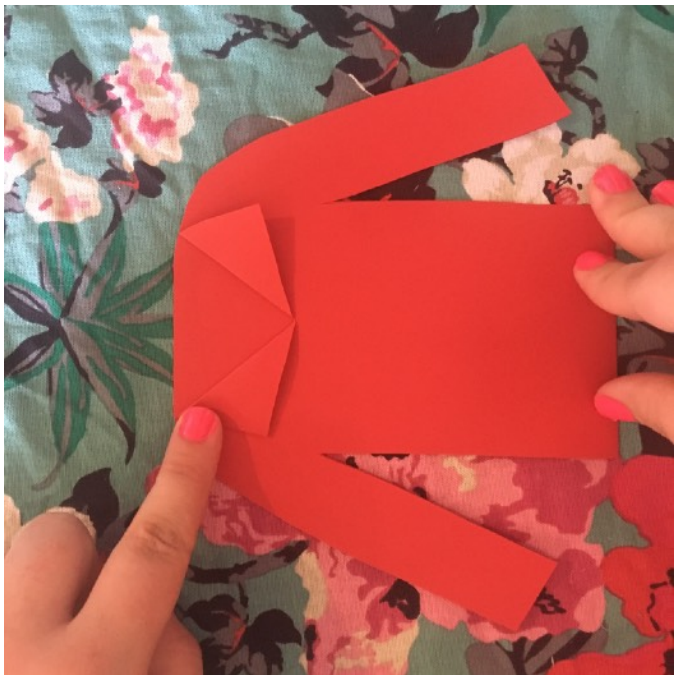

Once you have your outline - to add a collar make a small cut near the top of the shirt and fold the corners down

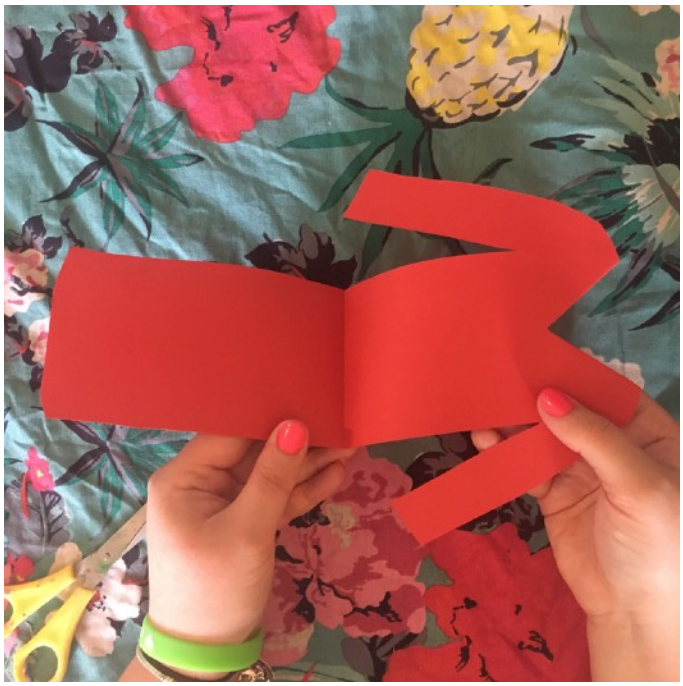

Now to make the shirt into a pocket - cut the arms off at the back and put a thin line of glue around the edges of the shirt/rectangle at the back

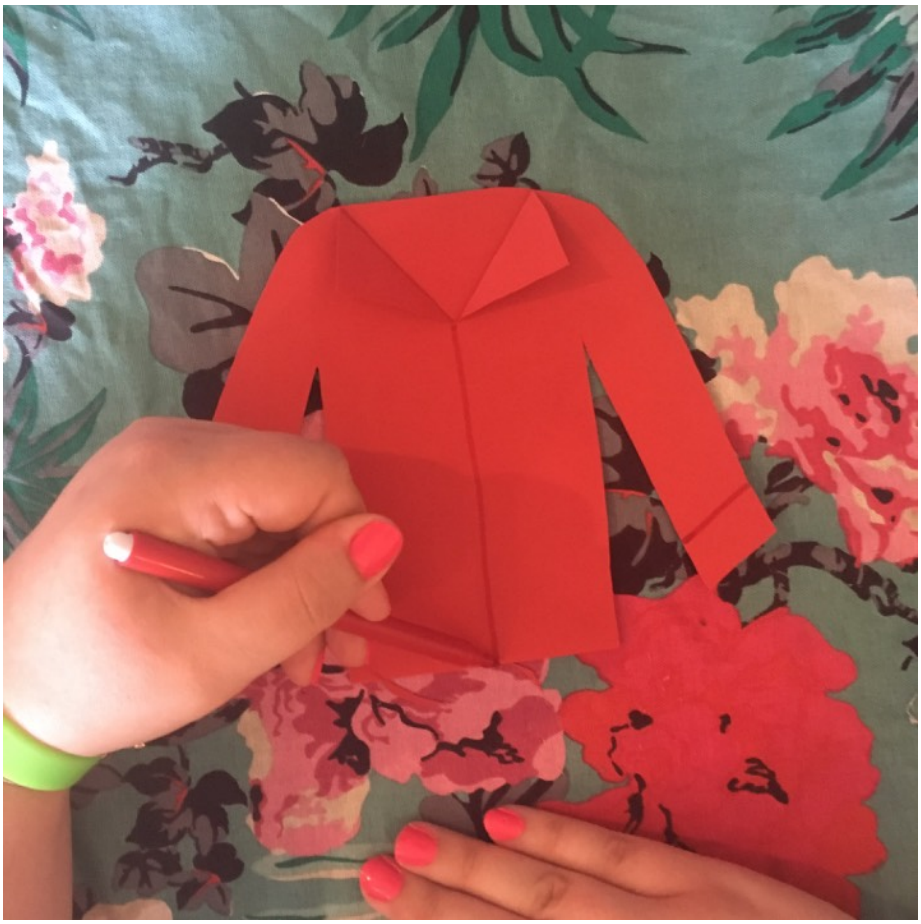

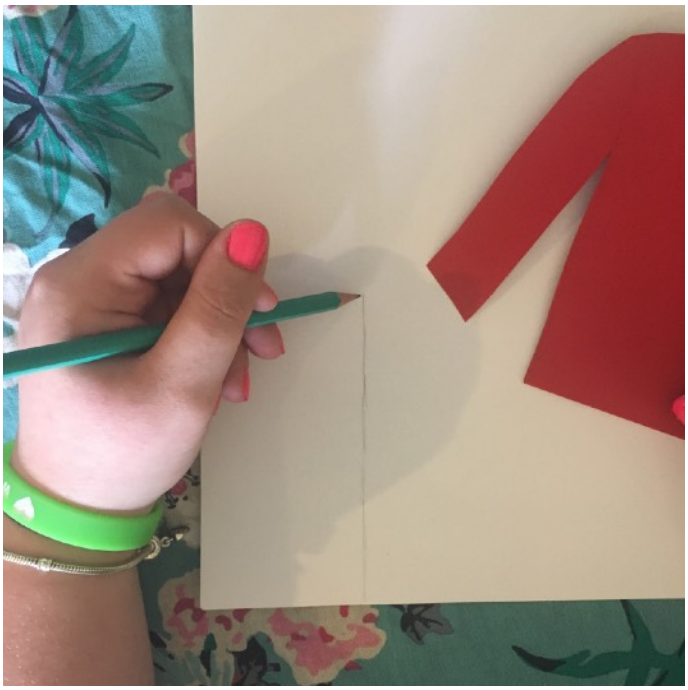

Now you can decorate your shirt adding in extra details

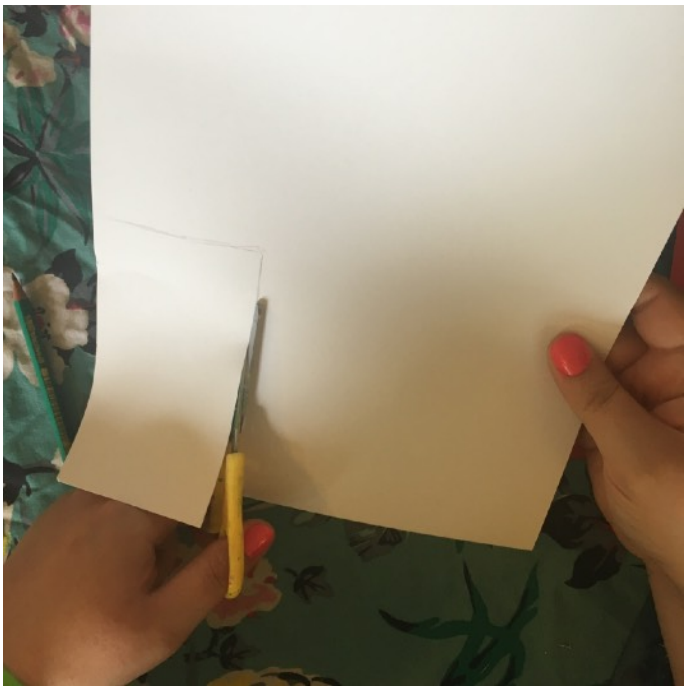

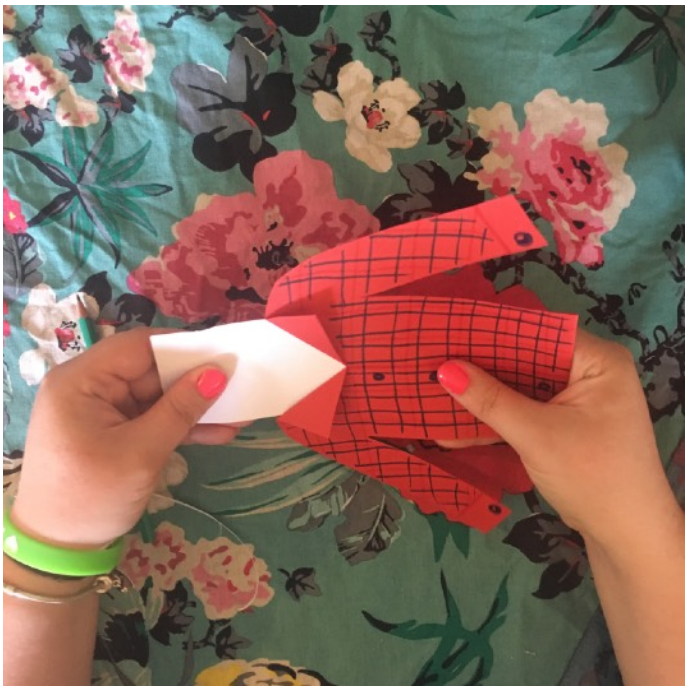

Now to make the message part of your card - taking your other piece of paper measure how much you need to be able to fit inside the pocket

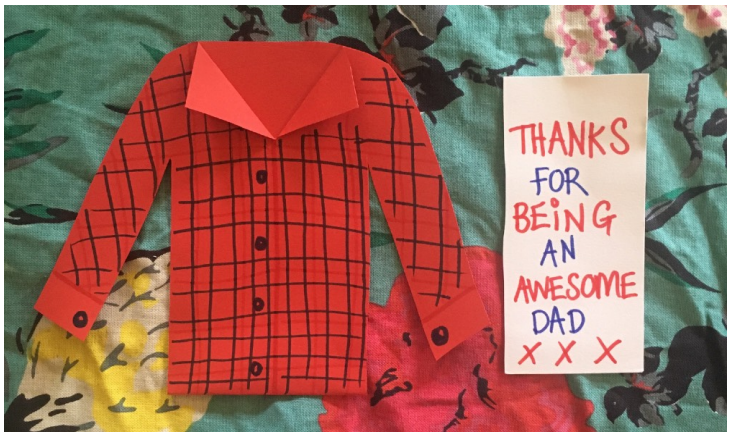

Write your message and then you can give it to whoever you would like!

And there you have it your very own “Shirt Card”

Here’s some more we made to inspire you!
