Lambeth

String Art

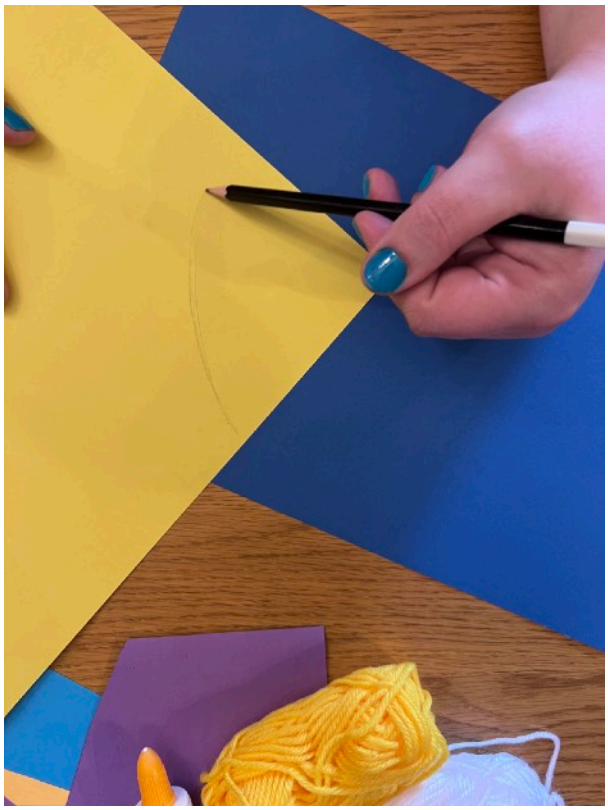

Combining Paper Collage & String you can create this fab textured piece of work!

Tools and Materials:

- Coloured Paper
- Pencil
- Glue
- Scissors
- Wool

First of all think what it is you want to create - you can create anything that inspires you - we thought a space scene would be fun with shooting stars, planets and a rocket for good measure! Start thinking about the paper elements you want for the picture and start to cut them out

Lay them out and then once you are happy with them you can glue them in place. Then you can start to add the string embellishments, some bits of string you'll want to cut if they are shorter - others you can leave whole and wind round the glue laid out. See what works best for you!

There you have it your very own “String Art”!
