Super Snowy Spot Paintings

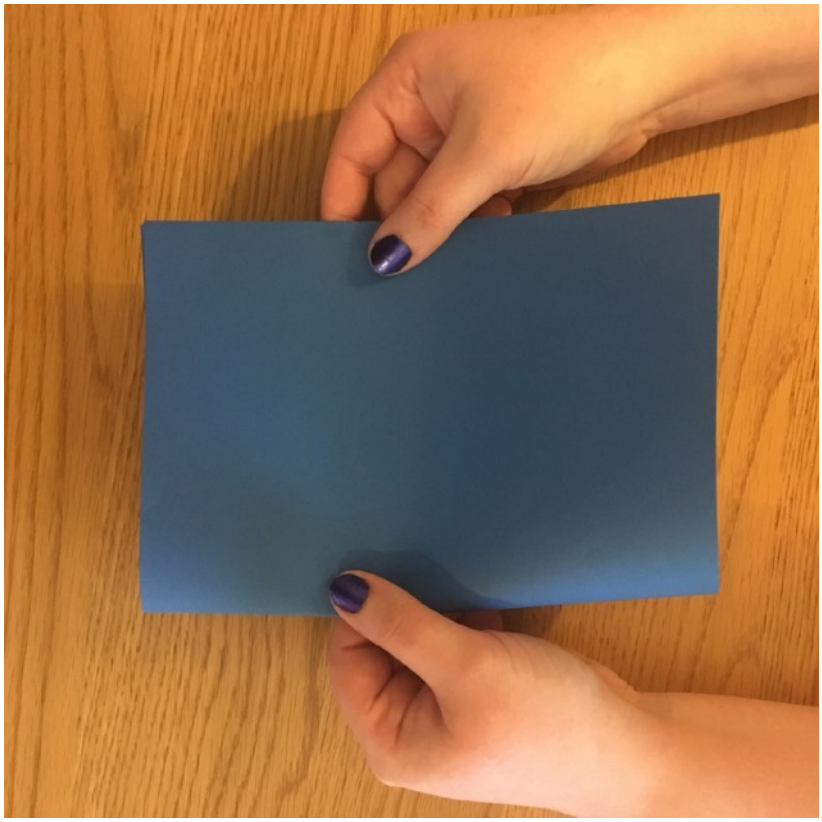

Getting into the festive season why not create your own Super Snowy Spot painting to create a card or winter scene

Tools and Materials:

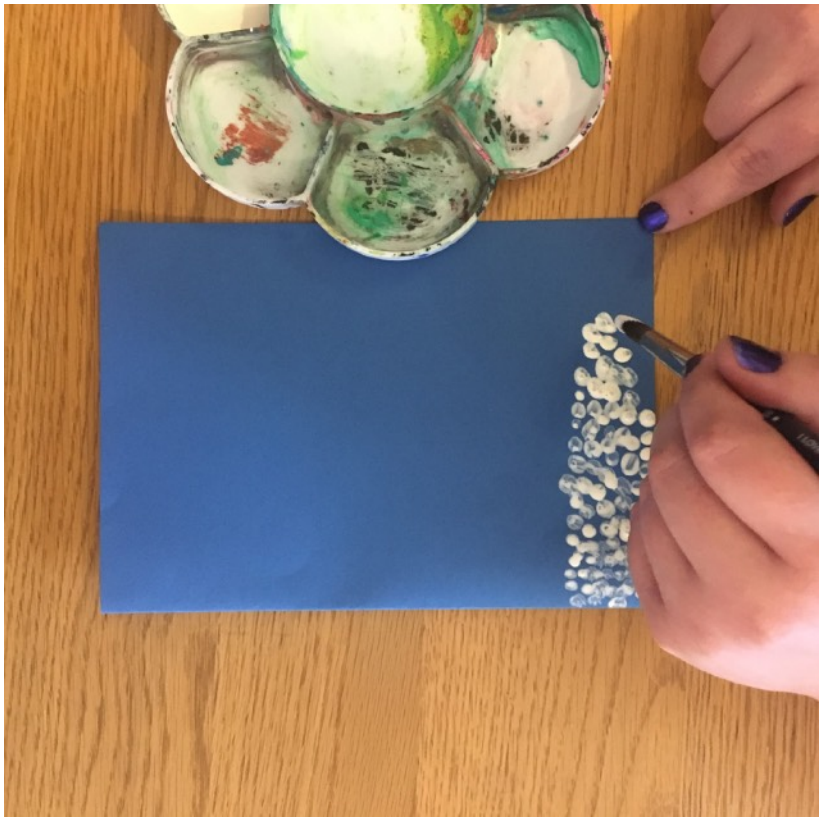

- Coloured Paper
- Felt Tips
- Paintbrush
- White Paint

We thought it would be fun to craft a card - so take you paper and fold it in half

Using your paintbrush start dotting spots around - we started by putting in a snowy ground as a base to work from

We thought it would be fun to create a snowman so dotted a body and head

Once the paint is dry you can add detail on like so

There you have it your very own Super Spotty Snow Painting!
