Valentine's Creatures

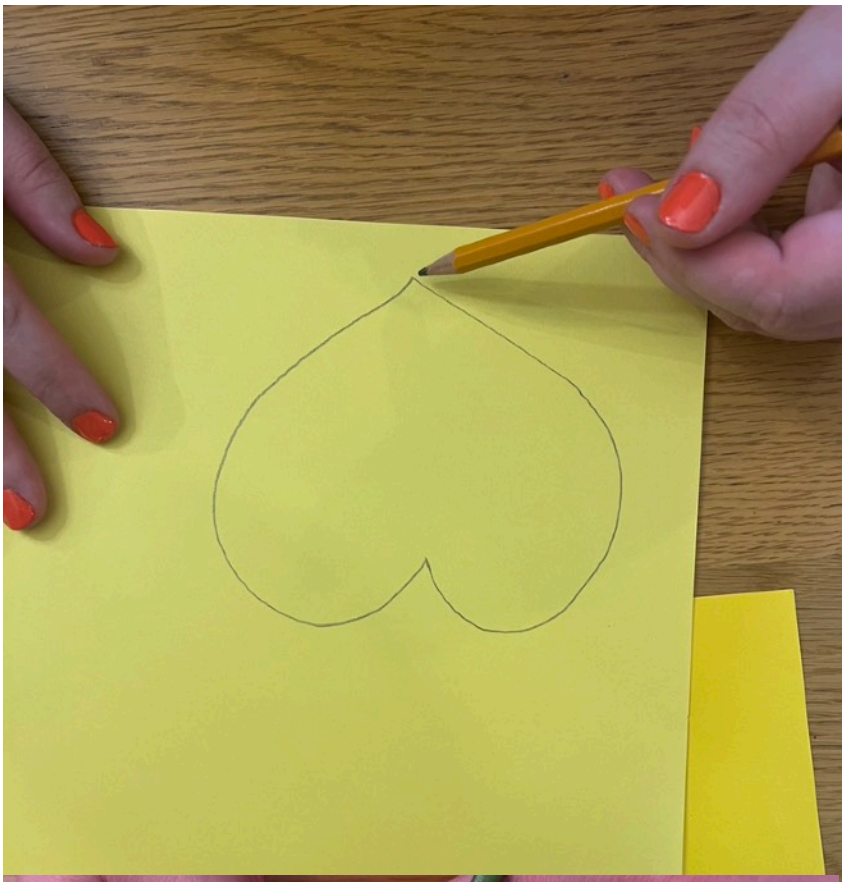

Celebrating Valentine's Day why not craft a friend or loved ones favourite creature to gift them as a token of the day!

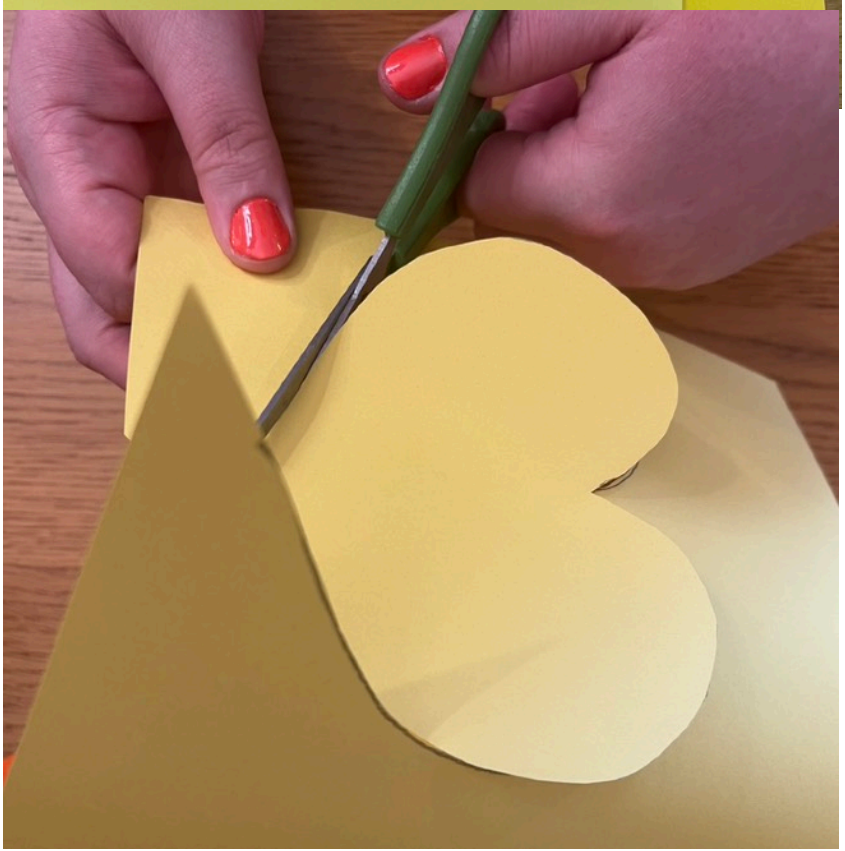

Tools and Materials:

- Coloured Paper
- Pencil
- Gluestick
- Scissors

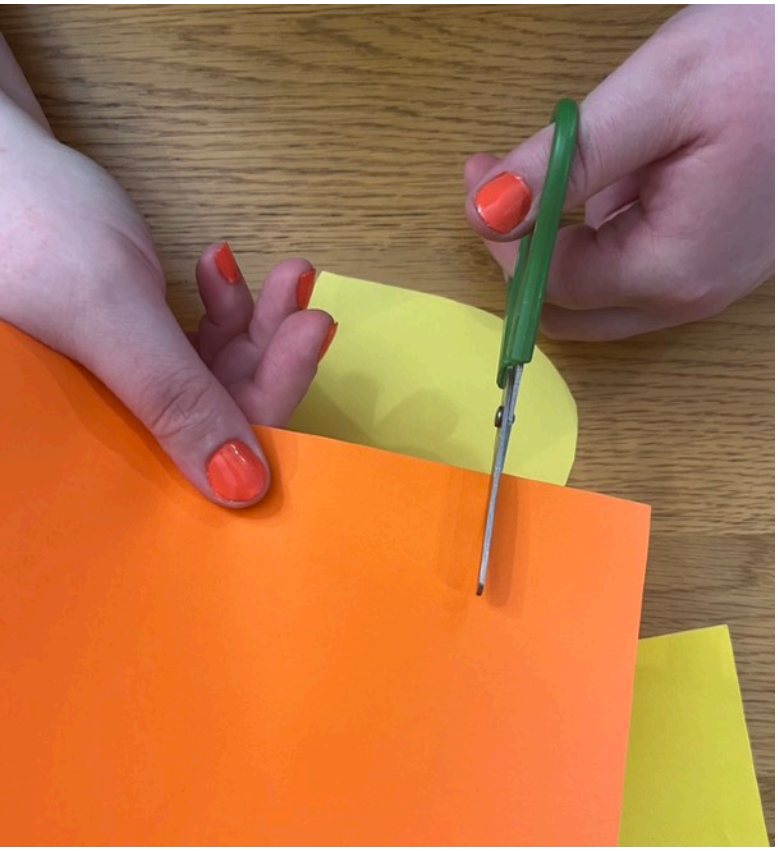

First think what animal you want to create - because it is to celebrate Valentine's day we thought it would be fun to make them from hearts! We chose to create a lion, choose the colour you want for the face then draw and cut a heart from that, not too small as you want to be able to fit all the details on!

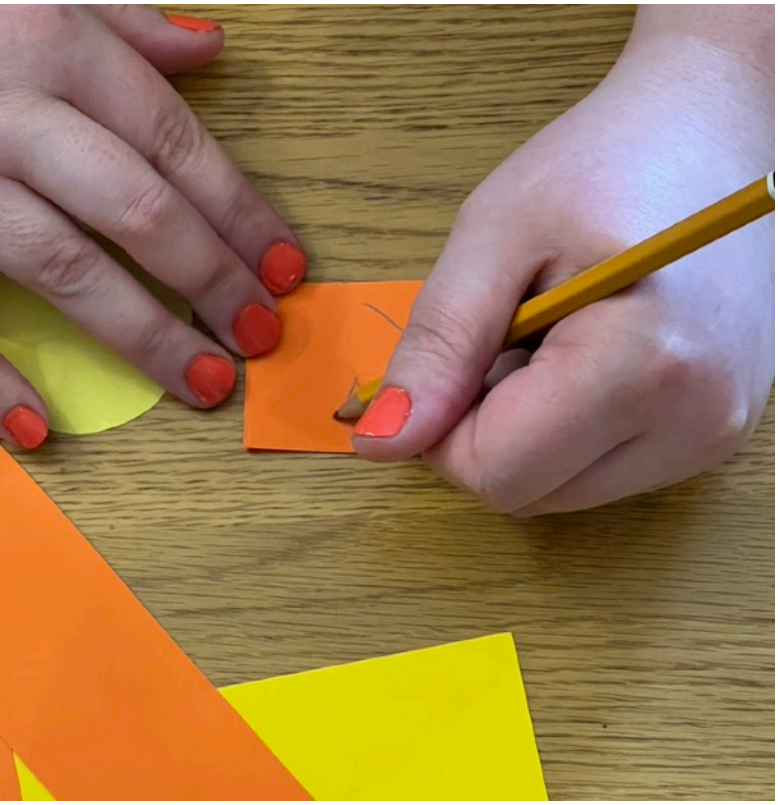

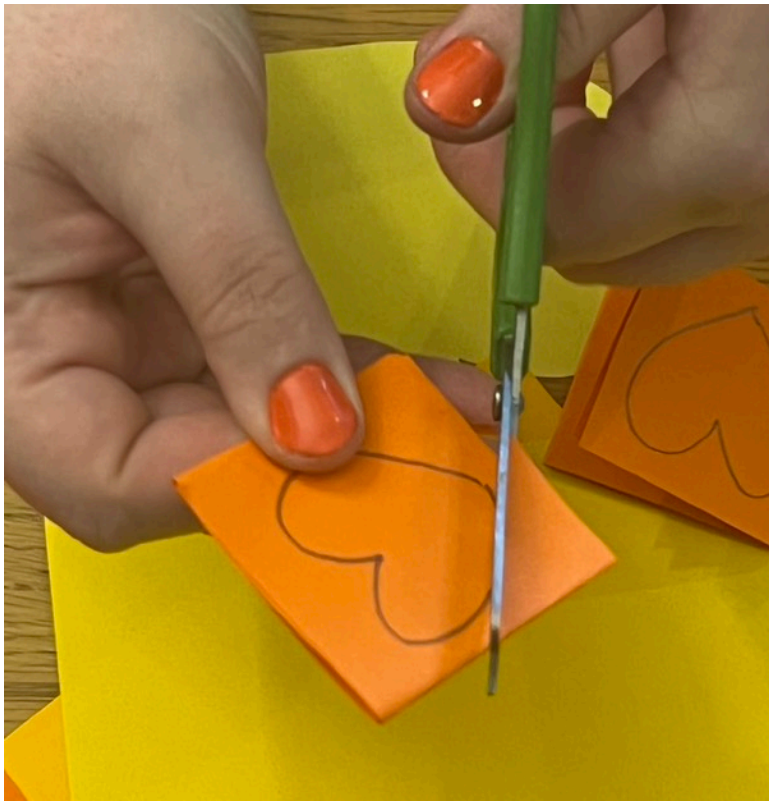

Now to create the lion’s mane, take a contrasting colour and cut several strips to cut smaller hearts out of to collage to create the mane like so, folding them over means you can get multiple hearts at the same time

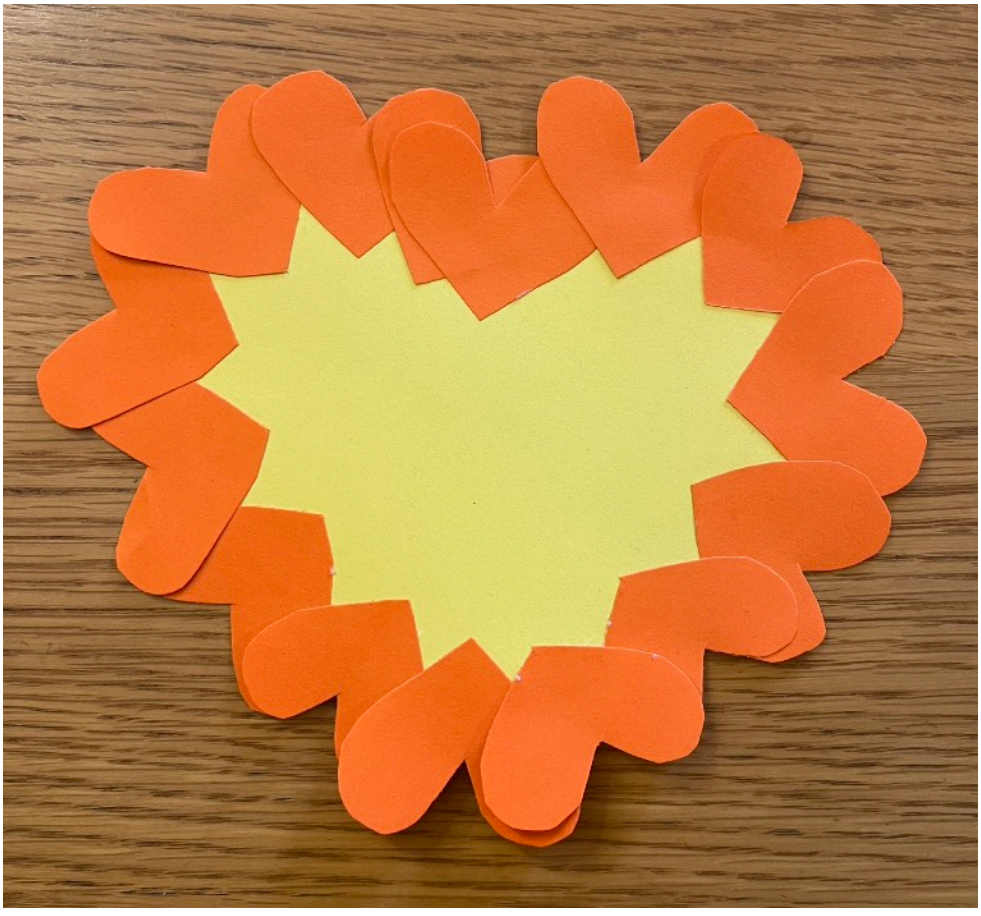

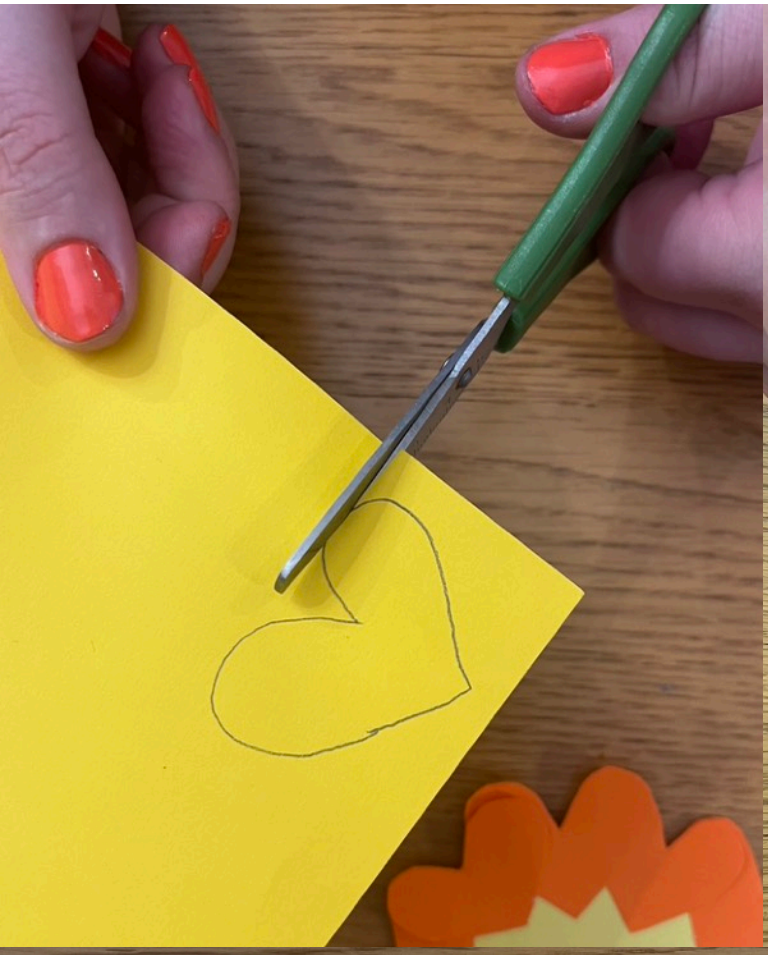

Once you have all your hearts you can start to glue them on

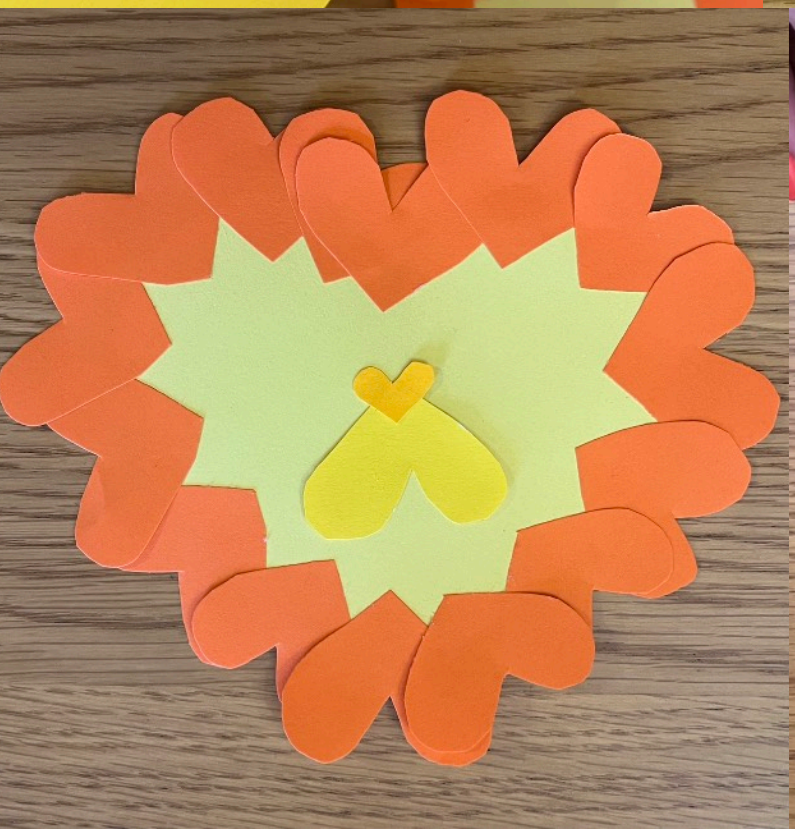

Now to create the facial features - we can craft a snout, nose, and some eye details to draw on top of, sketch then cut out and glue on

There you have it your very own “Valentine’s Creature”!

Here is another we made to inspire you!
