Watercolour Patten Repeat

Why not create you own simple pattern by choosing an item like fruit or veg to repeat!

Tools and Materials:

- Paper
- Paintbrushes
- Black Fine-line Pen
- Water
- Watercolours

First of all think about what it is you want to create - we thought orange slices would be a fun thing to make a pattern out of, bold and colourful - full slices and half slices. Start by using a light orange for the inside of the orange and then when it dries add a darker orange for the skin

Once the darker orange is dry then you can go back in and add white for details like the pith in between segments

Once everything is dry take the Black Pen and add the details on top - segments and peel, you can be quite loose with your line making - it doesn’t need to be precise, see what suits you best

There you have it your very own
“Watercolour Pattern Repeat”!

Here is another we made to inspire you!
