World Environment Day Poster

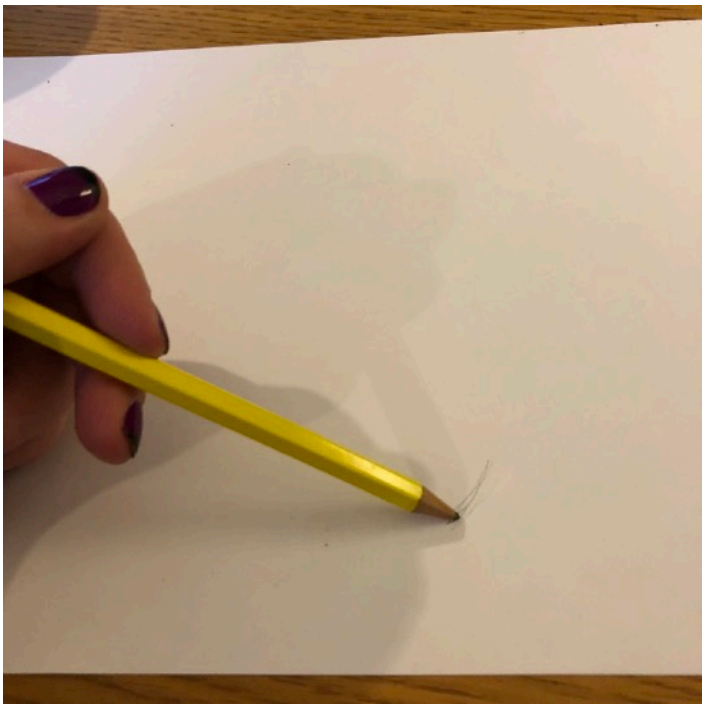

World Environment Day is the 5th June - why not take the opportunity to create your own poster with an environmental message that is important to you?

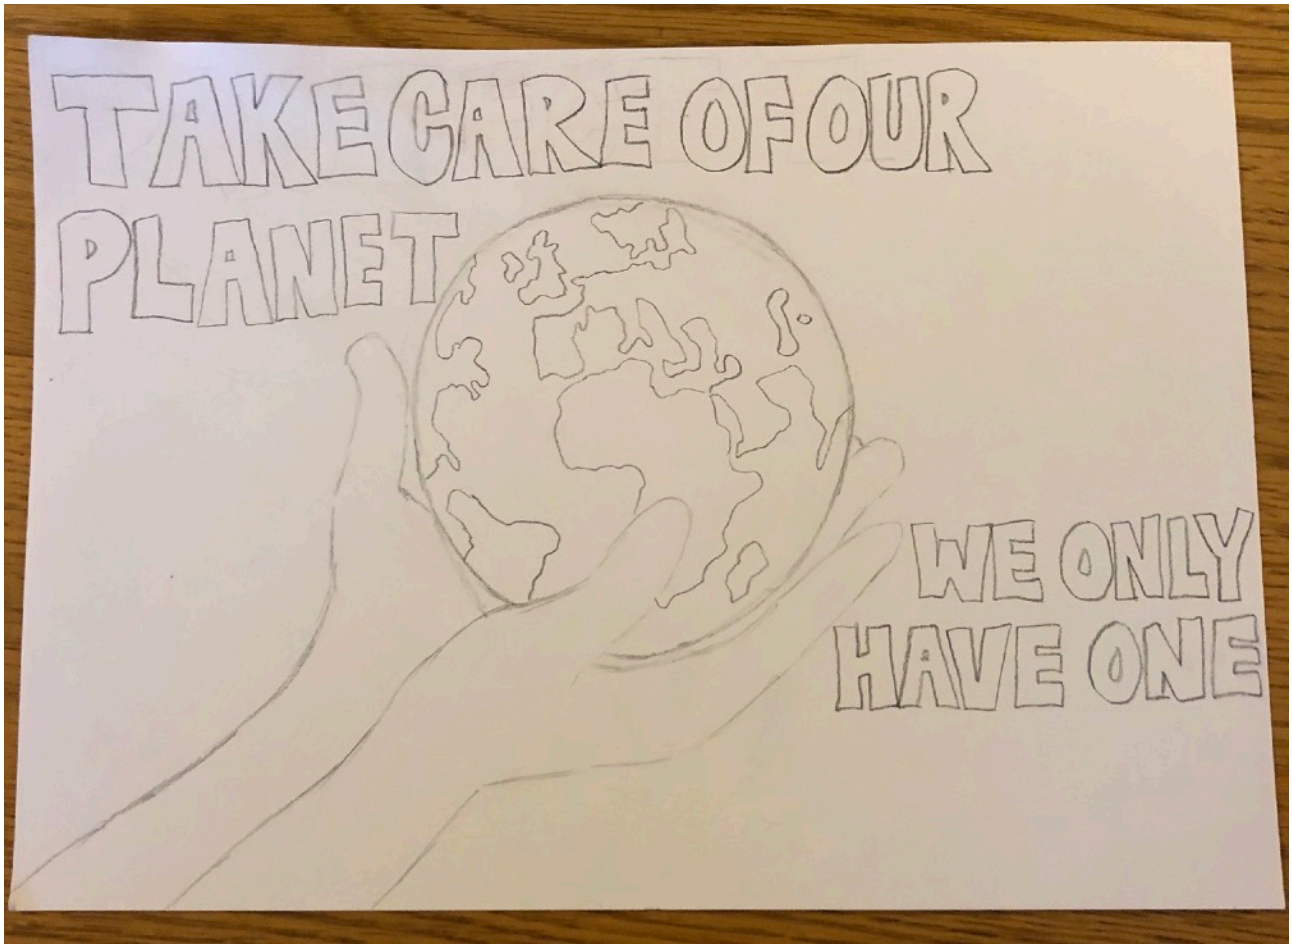

Tools and Materials:

- Paper
- Pencil
- Watercolour
- Paintbrush
- Water

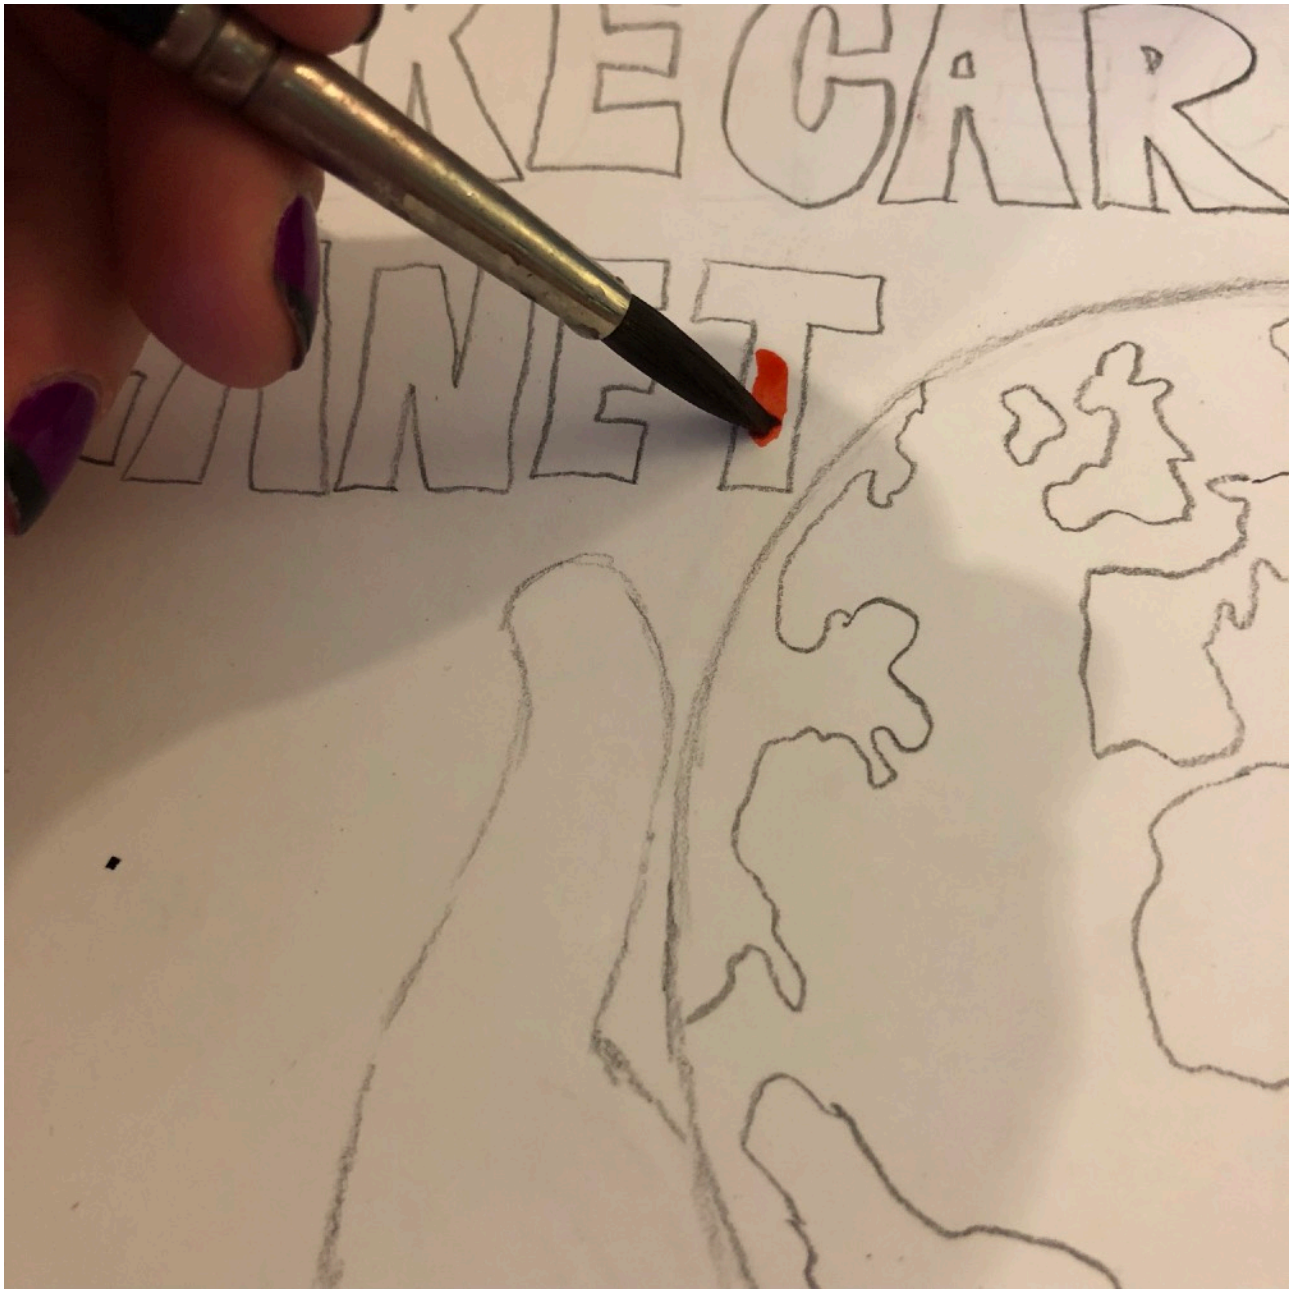

First of all think what message do you want to get across? Is it about pollution, reducing your carbon footprint, eating sustainably or something else important to you? Could it be a more general message? Once you are happy with your message you can start to illustrate it!

Once you are happy with your design you can start to add the colour

There you have it your very own “World Environment Day” Poster

Here is another we made to inspire you!
