World Teachers Day Card

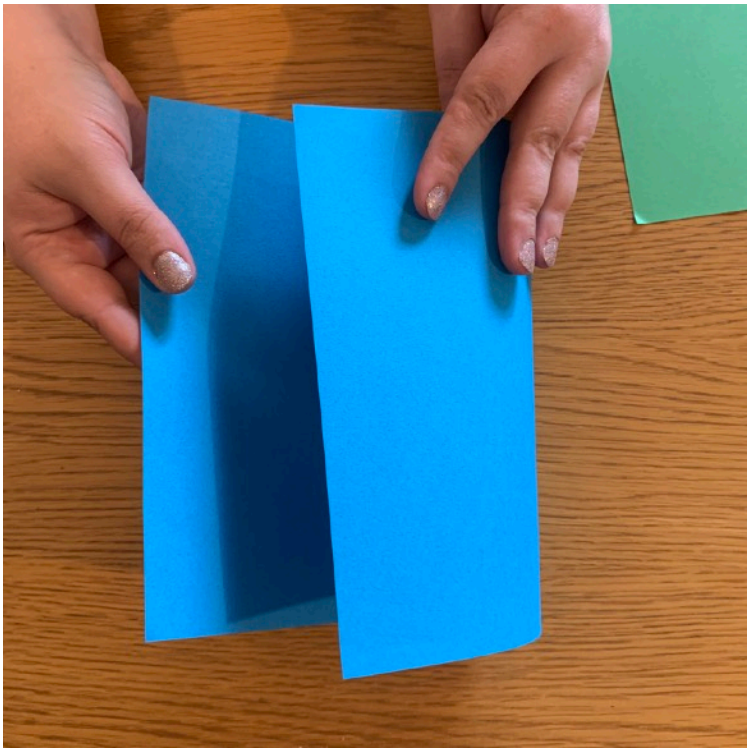

It's World Teachers' Day on the 5th October - why not create a card to give to your teachers to thank them!

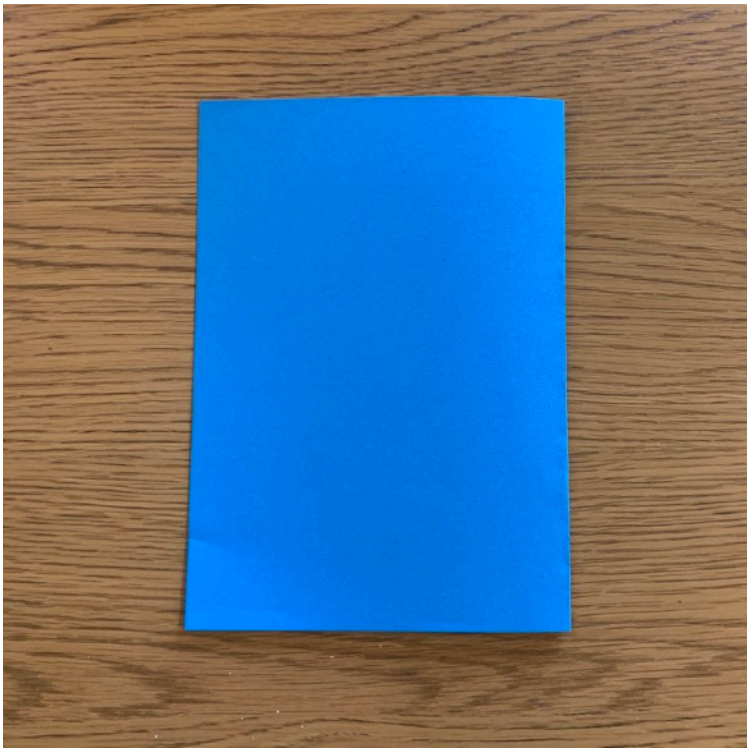

Tools and Materials:

- Coloured Paper
- Pencil
- Glue stick
- Scissors

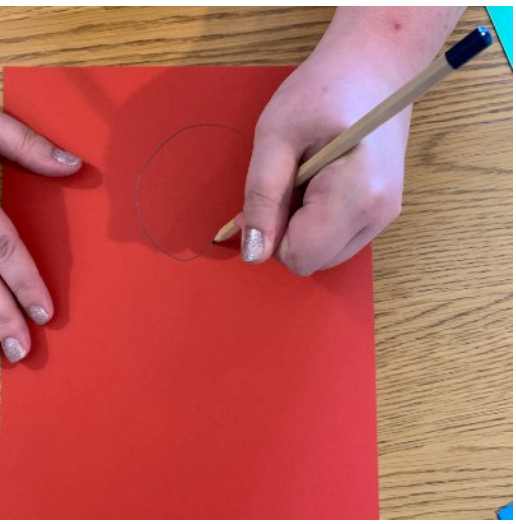

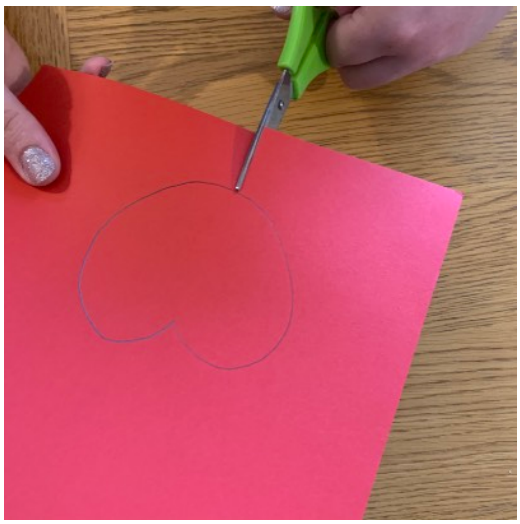

First of all what does your teacher like - you could make something themed around their favourite things. We thought it would be fun to do an apple for teacher as it used be a popular saying “an apple for teacher”. Choose the colour you want for the base of your card take it and fold it half like so

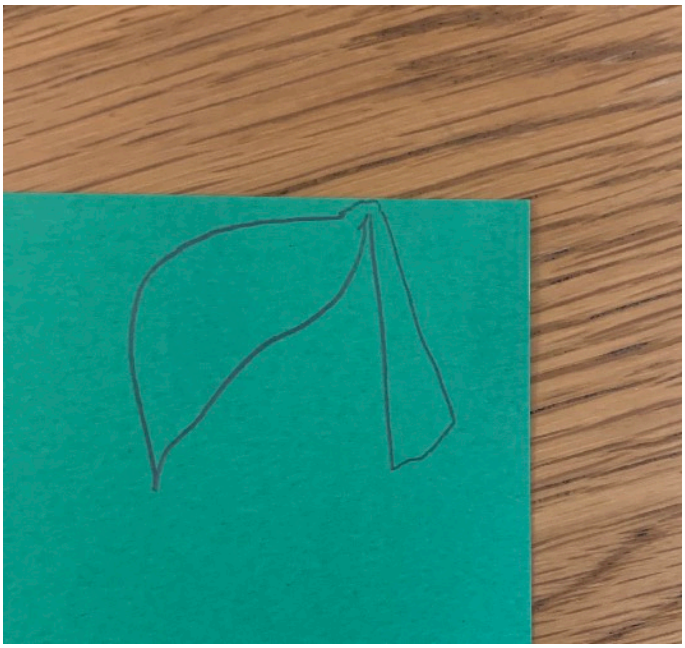

Then start to create your image for the front, we wanted to make a red apple - when you are happy with drawing cut it out

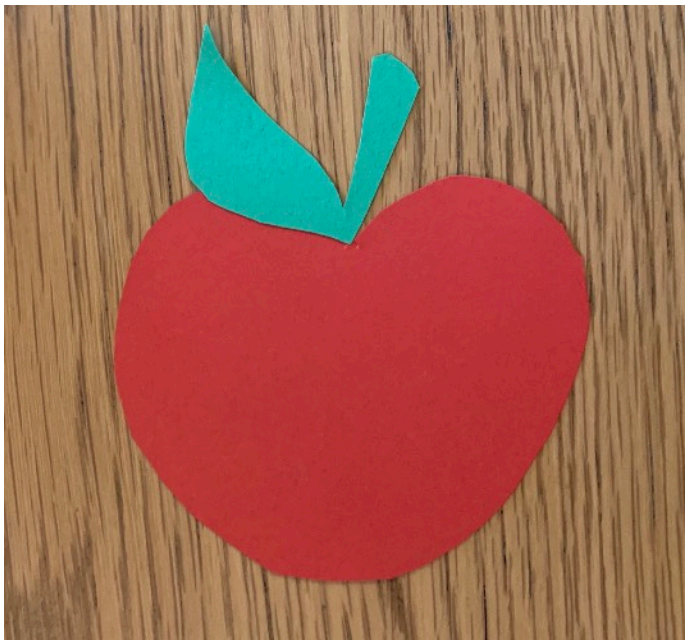

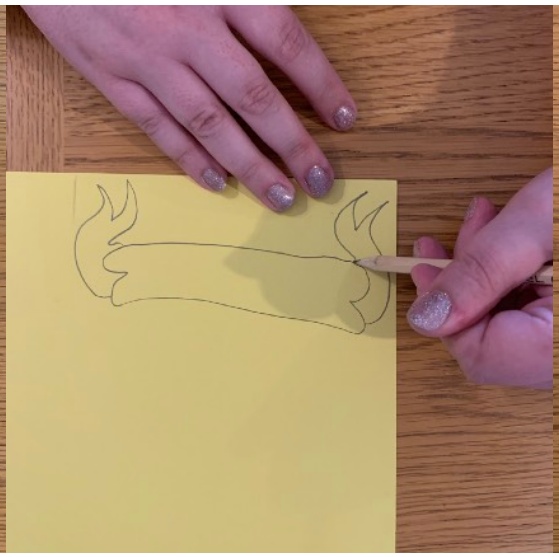

Now to add more detail to it creating a stalk and leaf

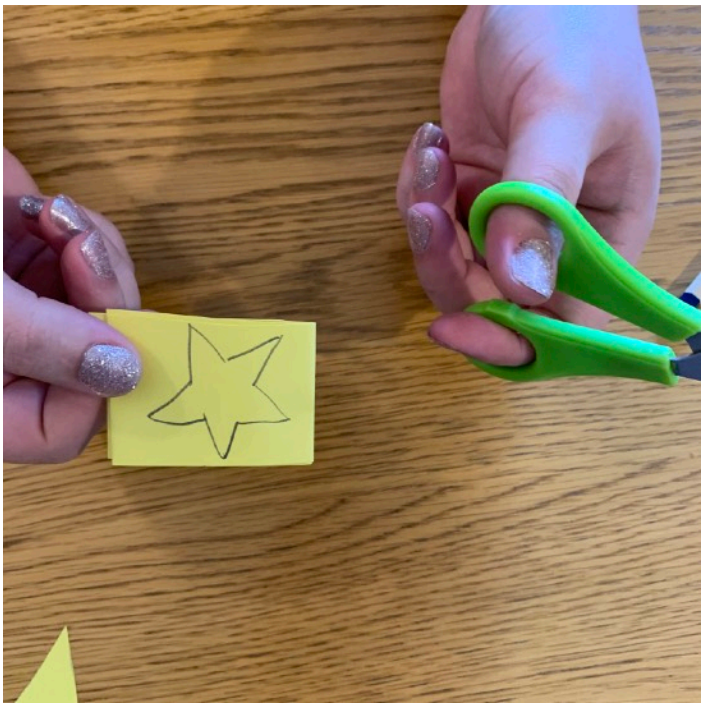

You can stick it on your card and then decide what else you might want to add to decorate the card. We thought a text banner to write thank you on would look good

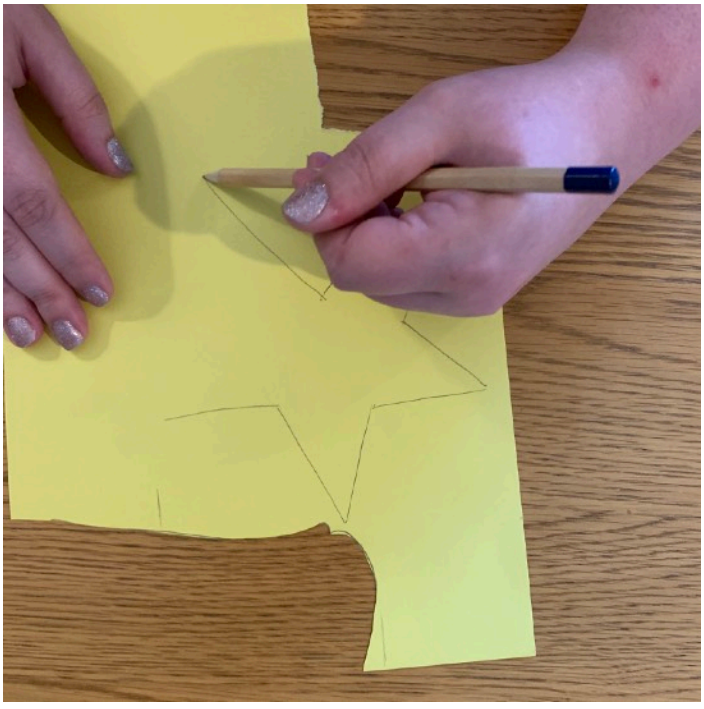

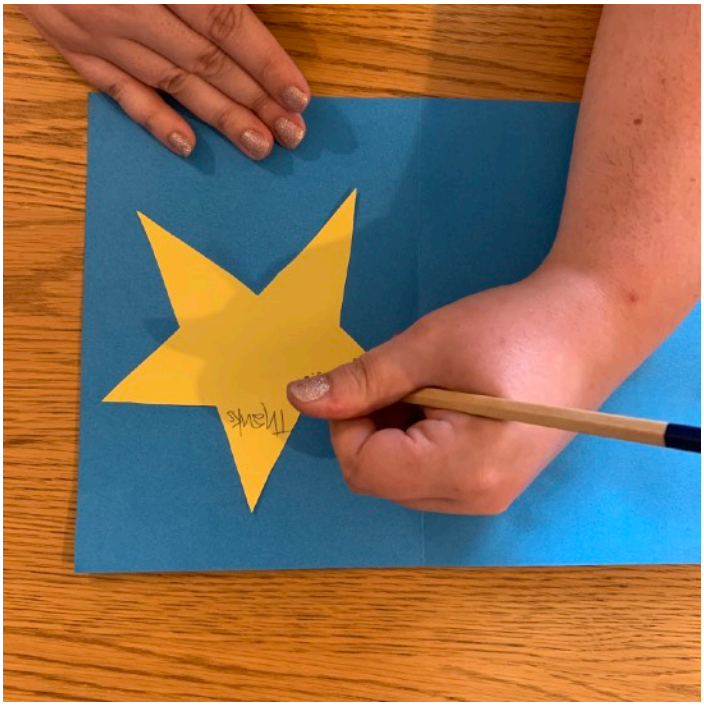

If you think the card is looking a bit empty what else could you add? We like stars so decided to add a few of those

Carrying on with the star theme we created a massive star to stick inside the card to write on

There you have it your very own “World Teachers Day” card
