

Back to School Bookmarks

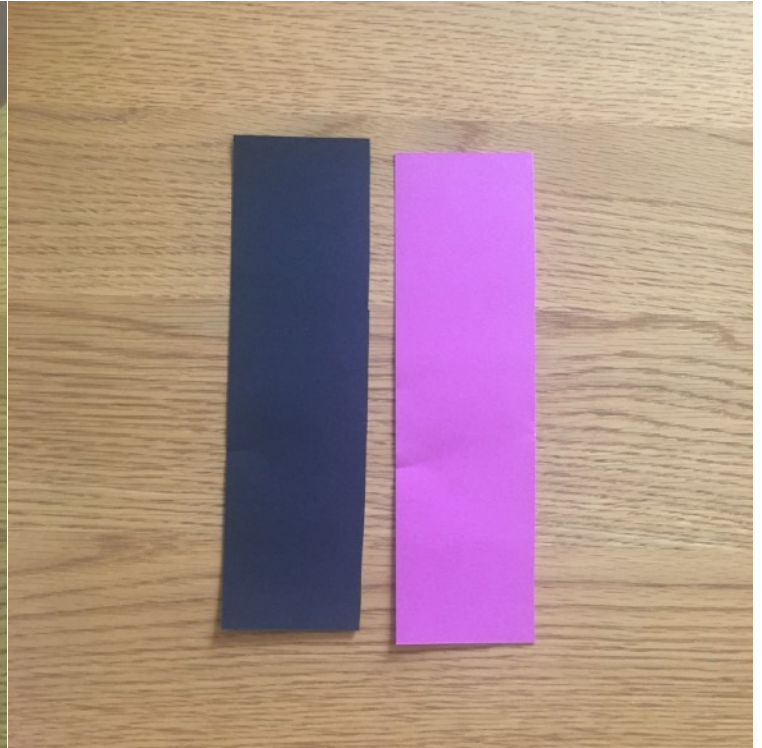

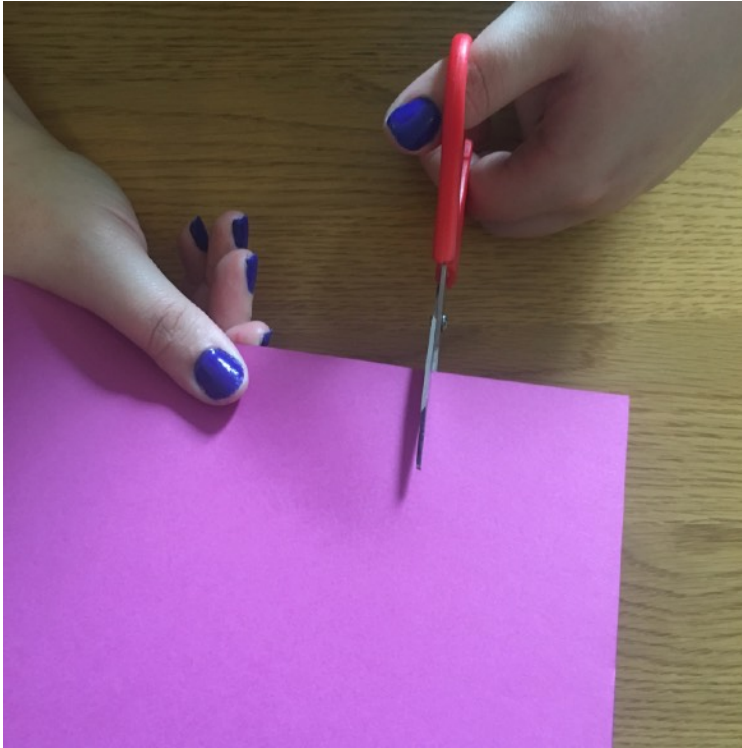

Celebrating another school year and thinking about our favourite books why not craft your own bookmark for yourself or your friends!

Tools and Materials:

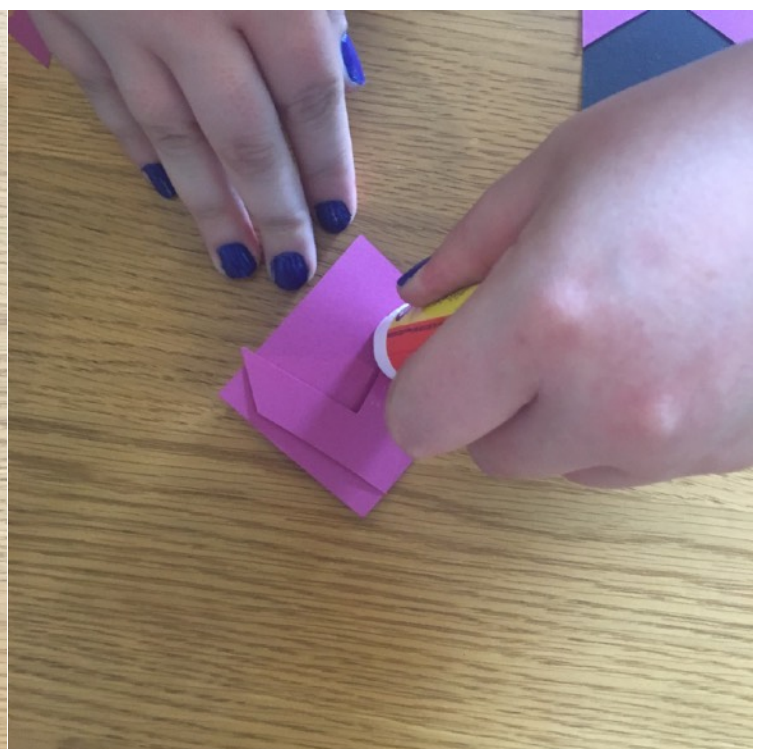

- Coloured Paper
- Scissors
- Glue stick

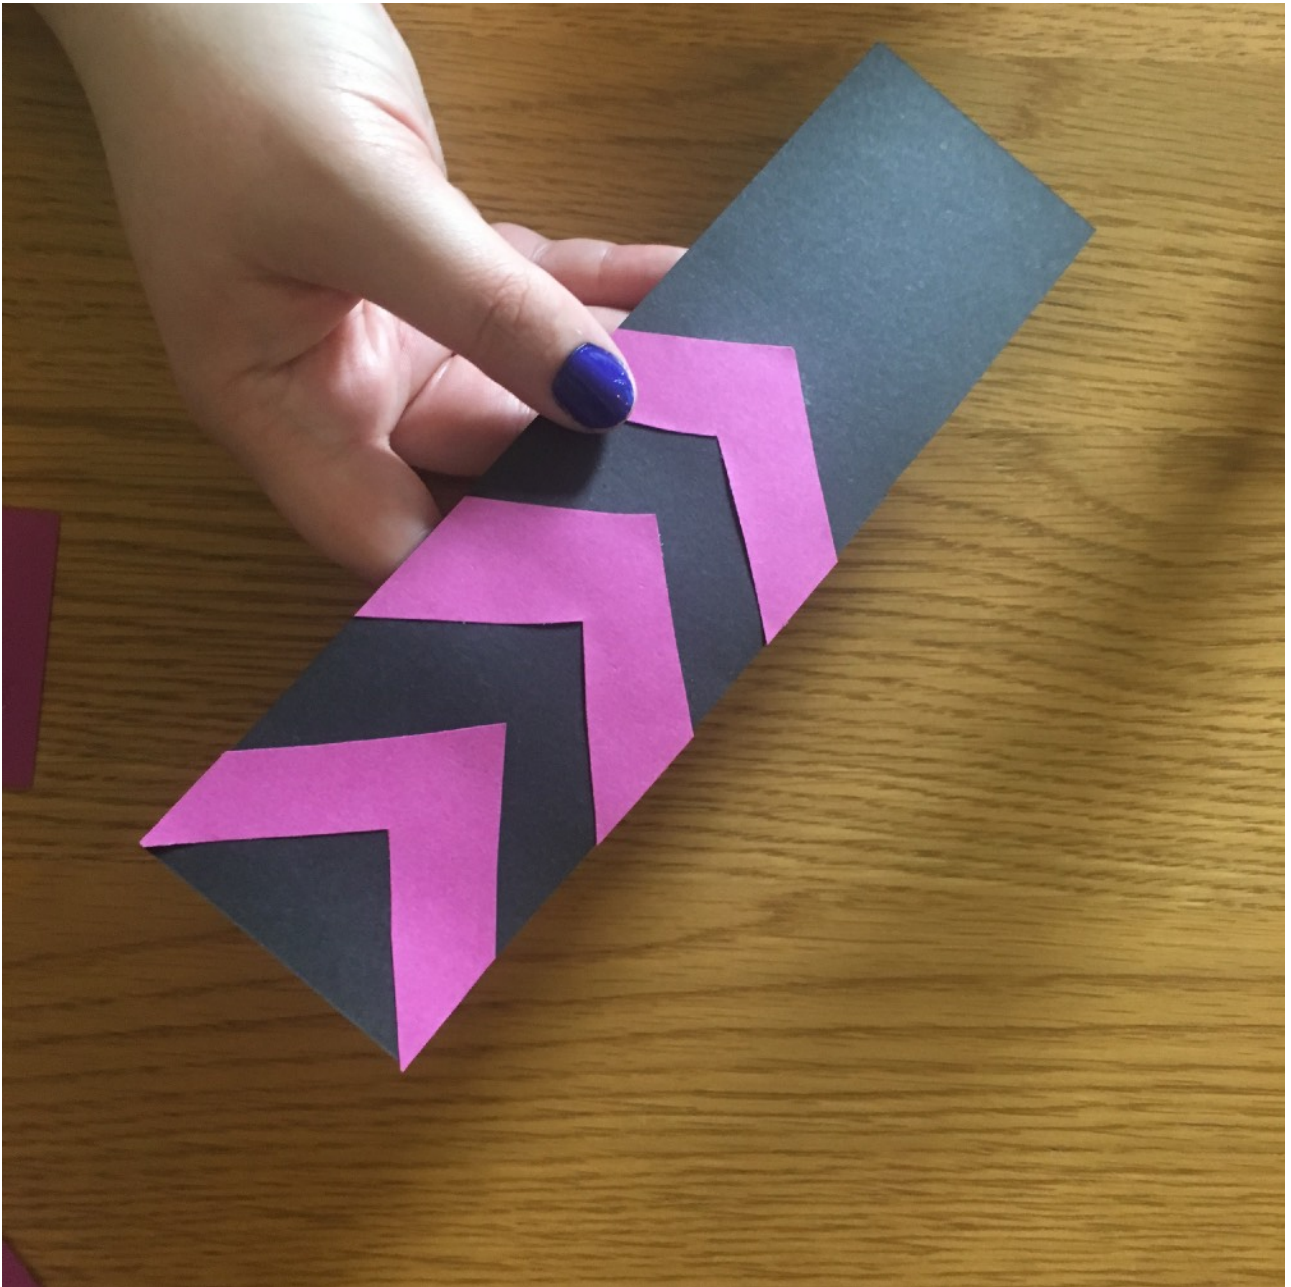

First of all decide how you want to decorate your bookmark - we thought a bright and simple chevron pattern would be fun! Cut out 2 rectangles the same size like so

For chevrons cut out some V shapes like so and stick them on

Once they are stuck on you can think about cutting the bottom of your bookmark to make some fringing

And there you have it your very own “Back to School Bookmark”

Here are some more we made to inspire you!
