

# Bubble Art

This is a fun way to make art outdoors if possible and play with bubbles!

## Tools and Materials:

- Bubbles (or washing up liquid mixed with water)
- Drawing Ink
- Paper
- Newspaper if indoors to protect table

So drop some ink into your bubbles to create the colour - not too much a few drops should be fine!

Then the fun bit! Blowing bubbles - blow them over your paper so they land on it and create colour when they explode!

You can mix in as many colours as you want - we had 4 colours but you can even mix those colours before you add them to the bubbles to create more colours!

You might need to blow quite a few bubbles and watch them burst to create a pattern on your paper but keep on at it and you should be pleasantly surprised with the results!

You could even use your bubble patterned paper to create gift tags, bookmarks or even a thank you card if you wanted it!

There you have it your very own Bubble Art!
