

## Collaged Landscape

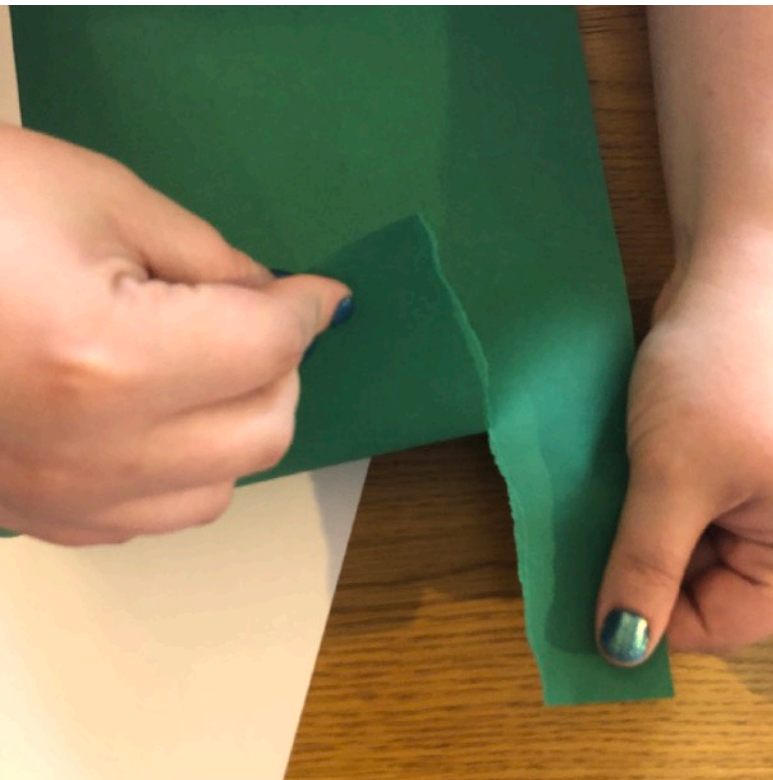

Using coloured paper or even magazines or any old flyers etc why not transform them into a landscape by ripping and cutting strips to layer to create your scene!

### Tools and Materials:

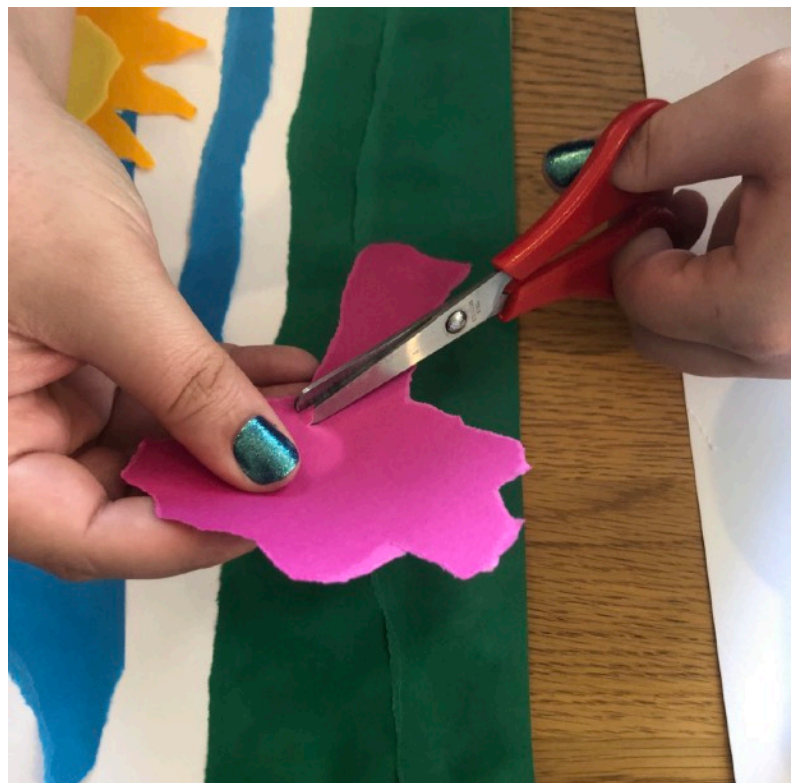

- Coloured Paper
- Paintbrush
- PVA Glue
- Scissors

First of all what do you want your landscape to have in it - where is it? Woodland, Desert, Countryside or even City? We thought it would be nice to do a simple countryside scene - start by creating the ground, we found it fun to rip strips of green to create the grass of the fields, rip and stick it to your background.

Continue with the other elements of your picture

There you have it your very own "Collaged Landscape"
