## Mother's Day Card

This is just to give you some ideas for a Mother's Day card!

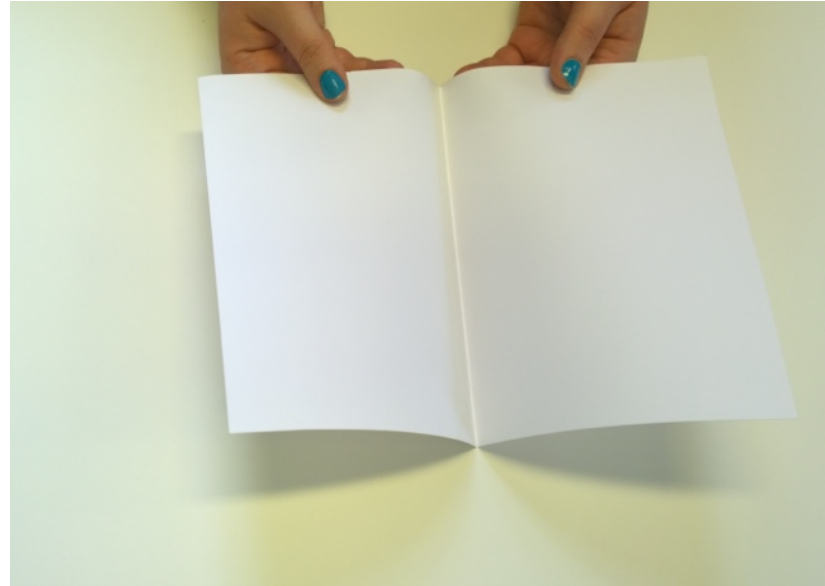

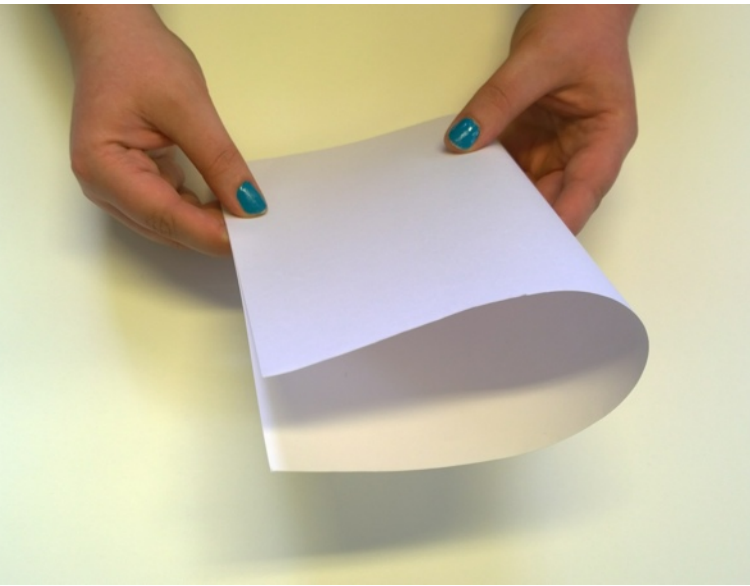

Tools and Materials:

- Card
- Colouring Pencils

You could also use sequins and glitter we were just keeping it old skool!

Start by folding the card in half so you know what you are working with

Now the best bit - the drawing what does your mum like? Flowers, chocolates, animals? Does she have a favourite colour that you could use - I did daffodils as the are very happy looking flowers

Once you have finished the outside of your card you can write your message inside!

Here is another card we made to give you some ideas
