

Autumn Harvest Portraits

This teaching pack is dedicated to Ana Gomes who helped make another year possible!

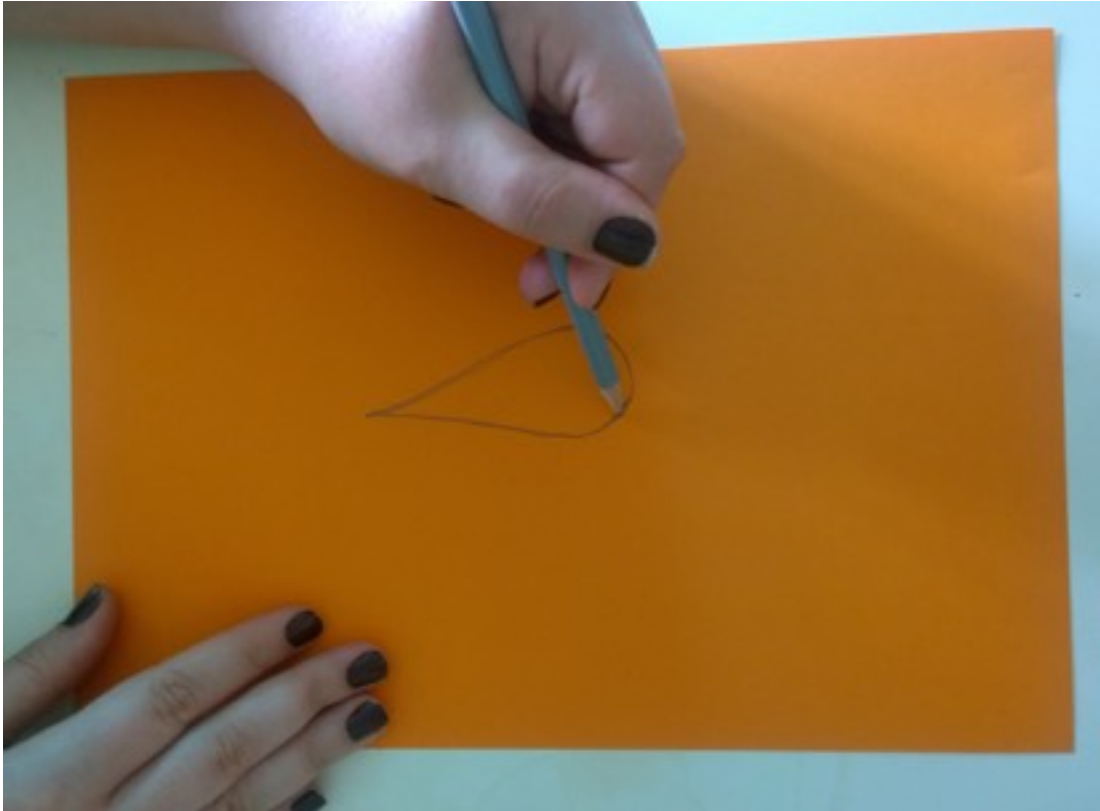

To celebrate Autumn Harvest and taking inspiration from Giuseppe Arcimboldo we thought it was fun to create fruit & vegetable portraits

Tools and Materials:

- Coloured Paper
- Scissors
- Pencil
- Glue Stick

First you need to think what fruit and vegetables you already know about - and which of them could look like your facial features - the rest is up to your imagination! Start drawing them out - using different coloured paper to create the details like so and then glue to another piece of paper

And there you have it your own “Autumn Harvest Portrait”

Here is another we created to inspire you
