Back to School Bulletin Boards

This teaching pack is dedicated to Christine Purdy who helped make another year possible!

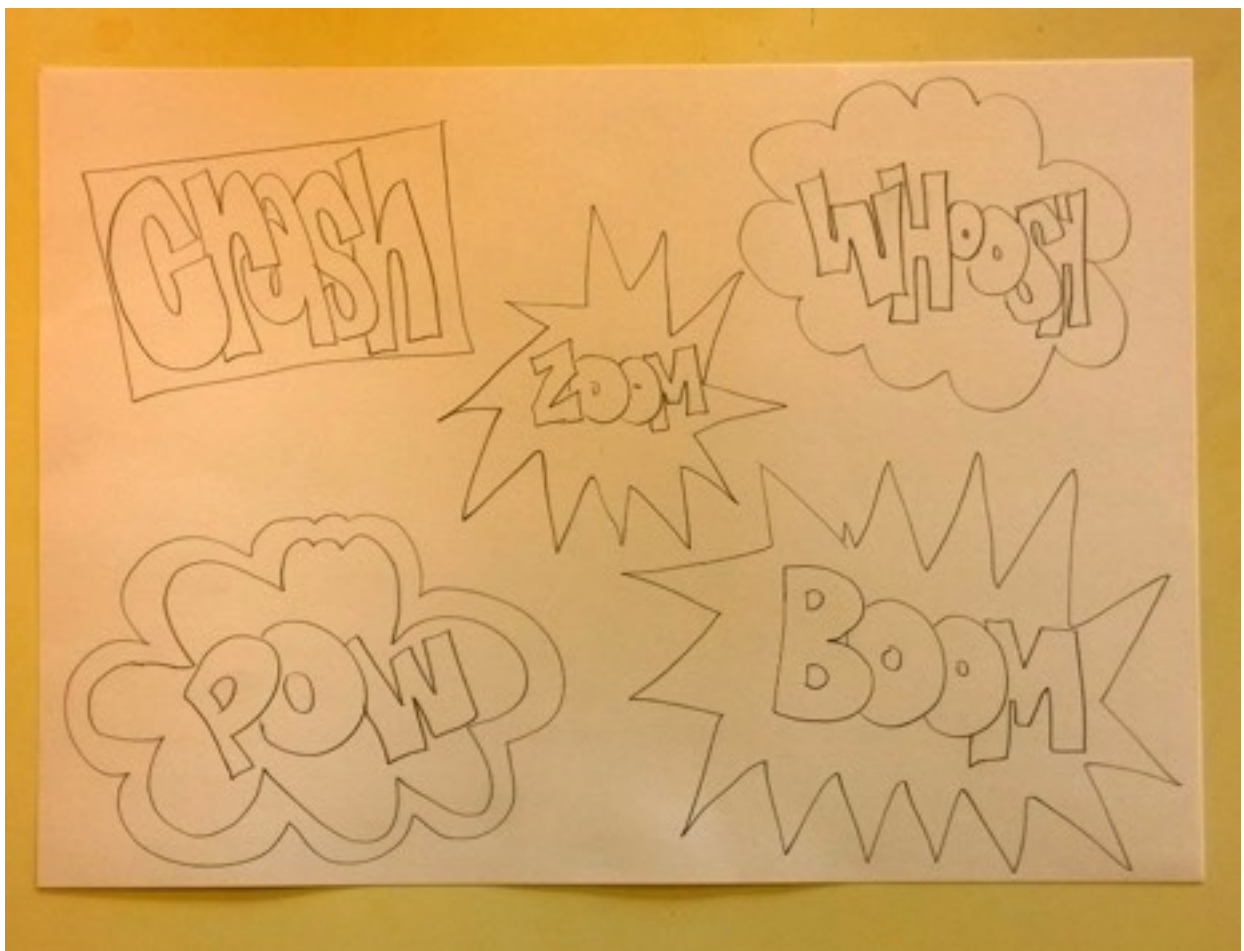

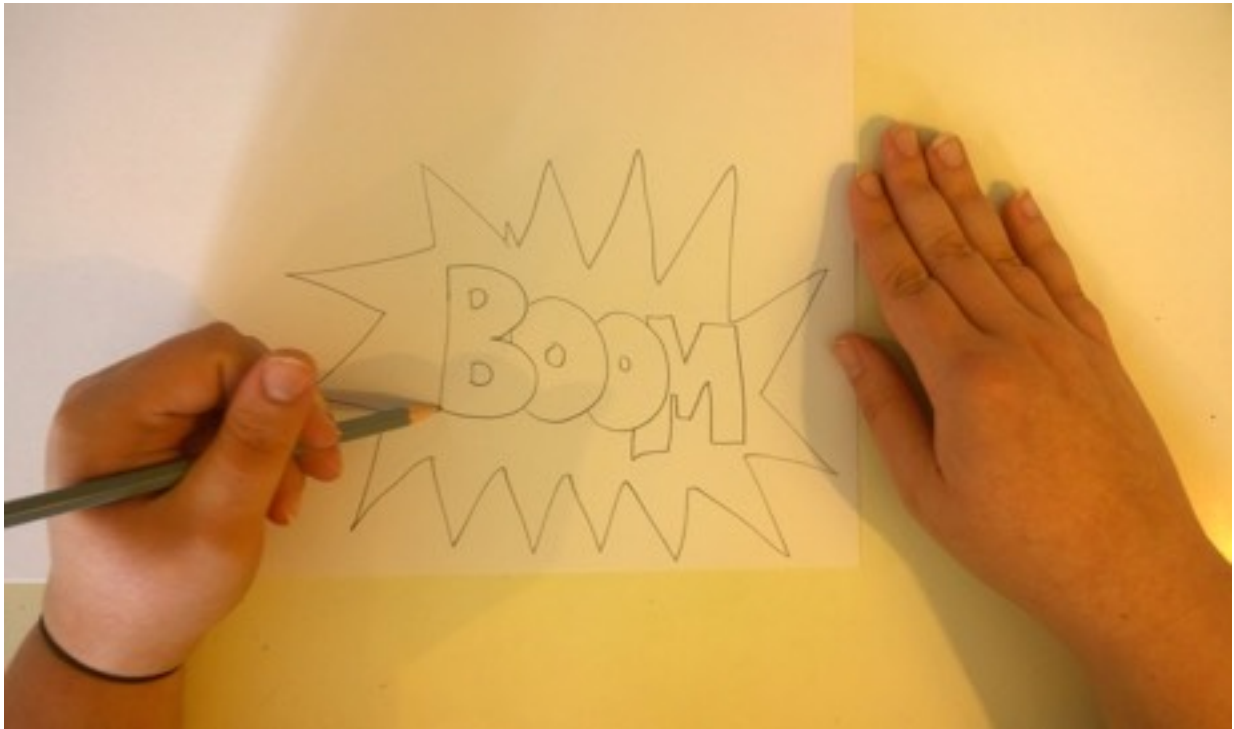

Thinking about the new academic year is a great time to think about getting organised - although any time is good! Why not create your own bulletin board to keep important things in - like letters for school trips!

Tools and Materials:

- Glue Stick
- Scissors
- Thick A3 paper
- Pencil
- Colouring Pencils

Most importantly you need to decide what you want to make as the images for your bulletin board - we took inspiration from superheroes and pop art! Using one piece of paper draw out where you would like your letter holders to be.

Once you are happy with your designs then you can colour them in and cut them out

All that is left to do is to glue them on - remember though you don't want to stick them down fully as they are supposed to be like pockets to put letters in so you want to glue in a "U" shape along the bottom and the sides but leaving the top free - and there you have it your own "Back to School bulletin board"

Here is another one we made to inspire you!
