“Selfies”

For a bit of fun why not draw a self-portrait a.k.a “Selfie”, you could use a mirror but try doing it from memory to see how close you get!

Tools and Materials:

- Colouring Pencils
- Paper

Start out by sketching a face shape, think about where your eyes, nose and mouth are on your face - don't worry too much at this point how the drawing looks it is only a sketch!

Once you are happy with the basic shape then you can add more details like hair

And there you have it - your own Selfie

We have created some more Selfies to inspire you!
