Suitcase with Postcards

Whether you are going away on holiday or having a staycation you can make your own stationary set housed in a suitcase to send to your friends and family

Tools and Materials:

- Coloured Paper
- Scissors
- Felt Tips
- Pritt Stick
- Empty Tissue Box
- Blank Postcards

Firstly you need to prepare the “body” of your suitcase, trim out the inner plastic lips of the tissue box so it makes it easier to get your postcards and hand in and out of!

It should end up looking like so - which is then ready to decorate

Start by glueing one of the side and cover it in paper like so

Once the side is secure you can fold the paper over to glue to another side, repeat this all over till it is covered - you can trim the excess off to make sure it fits snugly to the box

You should end up with the box looking like this

With the excess paper left over you can fashion a handle for your suitcase!

Now to decorate it to give the suitcase those little embellishments - what could you put on your suitcase? Travel stickers? Stitched edges? Travel stickers? Stitched edges?

Once you are done you can decorate your postcards to be house in the suitcase

And there you have it “Suitcase with Postcards” - happy holidays!
