Easter Origami

To celebrate Easter you can make an Easter Chick Bookmark and an Origami Bunny just for fun.

Tools and Materials:

- Paper
- Felt tips

First we will show you to make the Easter Chick Bookmark - taking an A4 piece of paper we need to make it square - fold the paper over to form a triangle like so

Fold the rectangle leftover from the triangle to make a line you can rip it off with

Now you have your square paper we are ready to start!

Fold the square in half to be a triangle then fold the corners of the triangle up to the top like so

Open the paper up again the bigger triangle and then taking the top point fold down one bit of paper towards the bottom of the triangle

This is slightly tricky but taking the corners you originally folded up tuck them behind the piece you have just folded down - to create a pocket.

You should end up with it looking like this

Then you can start decorating your Easter Chick

Ta-dah!

Now to make the Origami Bunny! You need to square off your paper like we did for the Easter Chick Bookmark.

We already have one line - so fold the paper the other way to make an X shape

Once you have the lines put in fold it back in half to make a triangle like so and then fold up the bottom bit so it looks a bit like a hat - or a boat

Now we need to make the ears take the folded up corners and bring to the middle like so

So you should end up with something looking like this

On the side without the gap tuck the top of the head behind to make the bunny face a better shape like so

Repeat with the bottom of the face like this

Now you can decorate it!

And there you have it your own "Easter Origami"
