FiRE Drawing

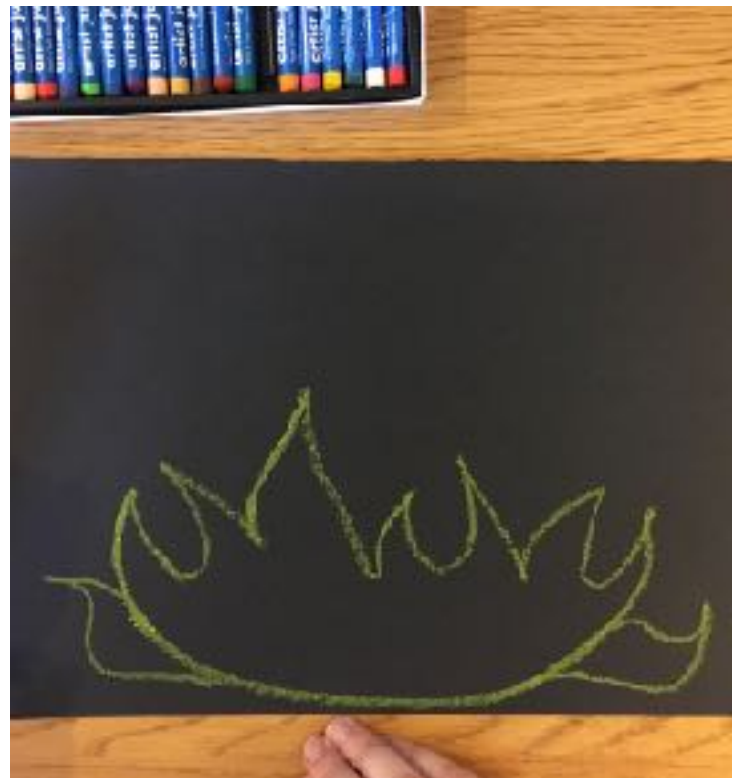

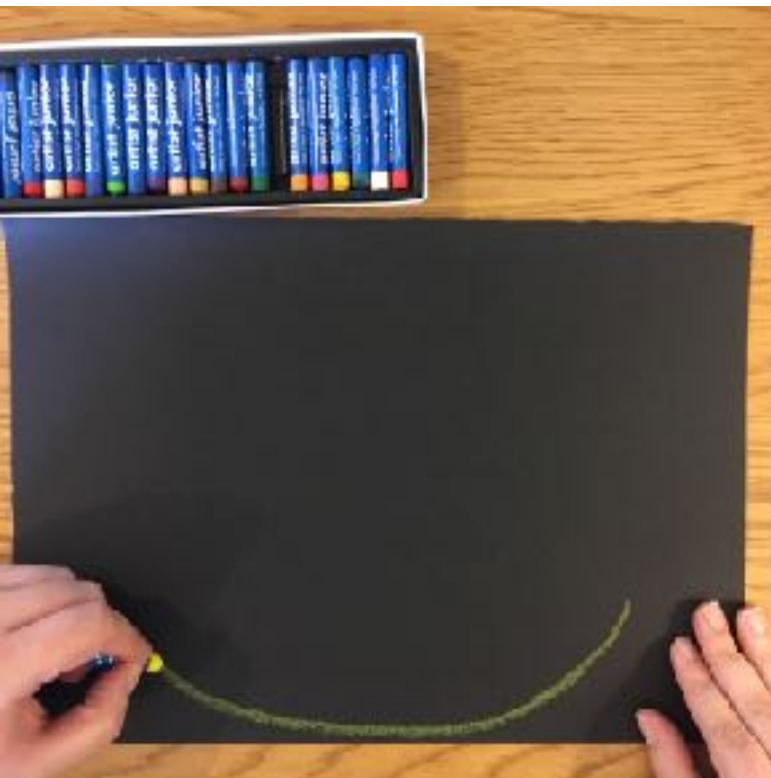

Taking inspiration from Bonfire night - why not explore the symbology of Fire? What does Fire mean to you?

Tools and Materials:

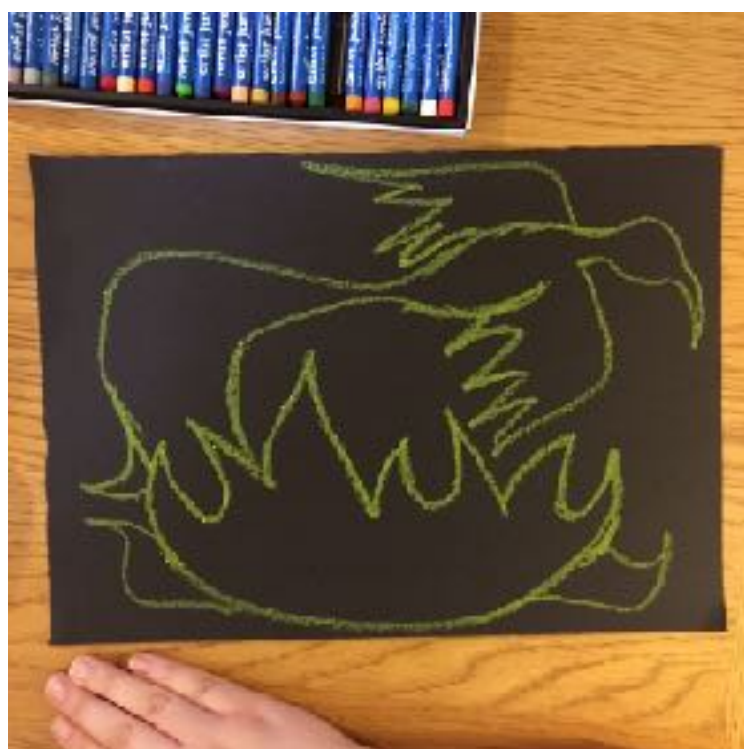

- Black Paper
- Oil Pastels

So we had a think about what we knew about fire; the Firebird also sometimes called a phoenix! So we thought it would be fun to make up our own Firebird. First start sketching out your drawing - we started with a fire as a base

Then we added our Firebird coming out of the flames

Then all you need to do is add colour and detailing like so

There you have it you own FiRE inspired drawing!

Here is another we created to inspire you!
