

Mark Making

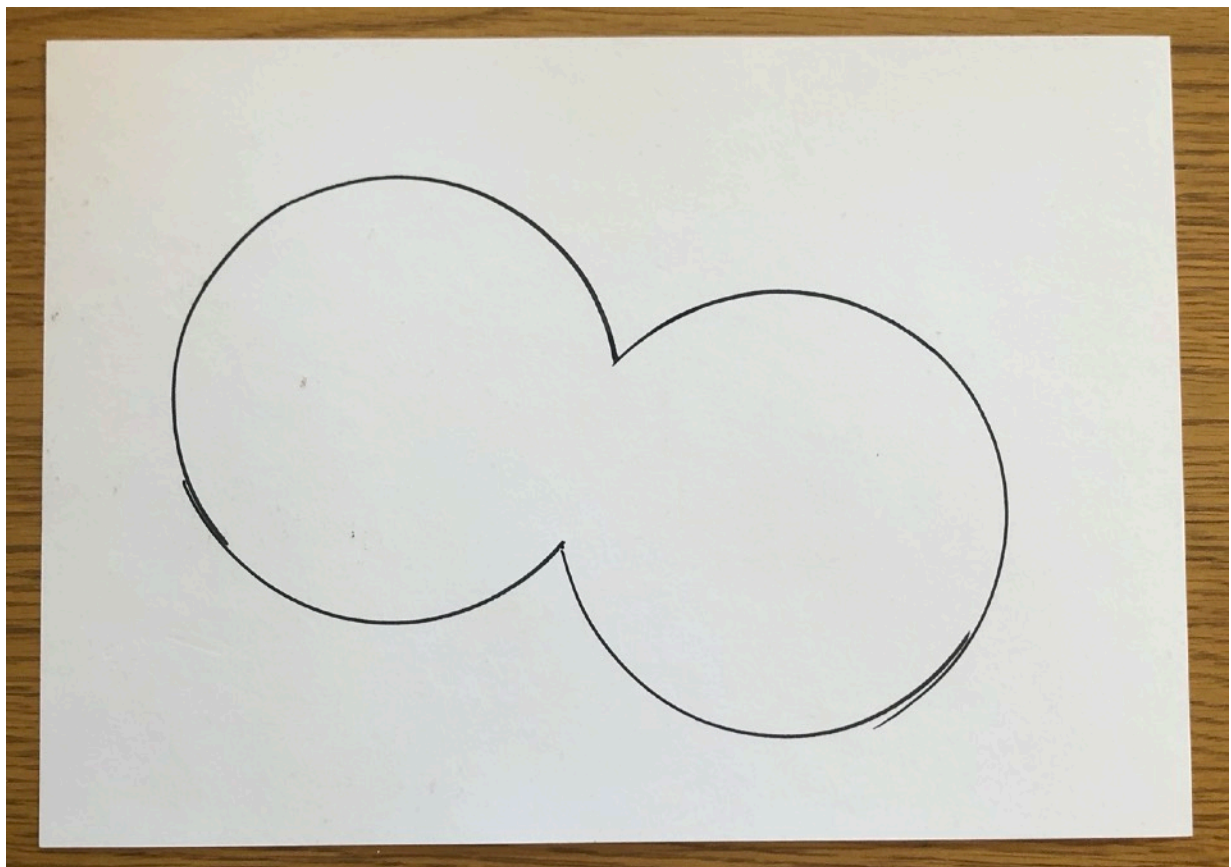

This is a great way if you don't have many materials with you to create an interesting work with different marks to define texture or colour rather than a linear drawing with just lines

Tools and Materials:

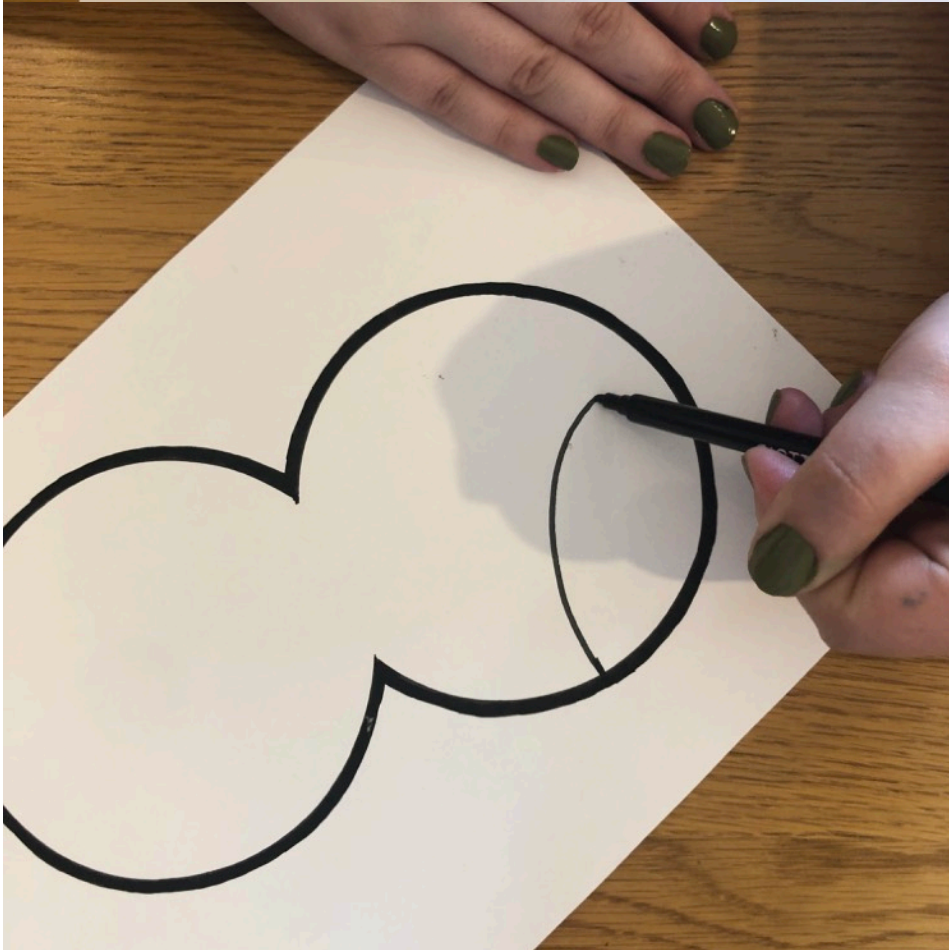

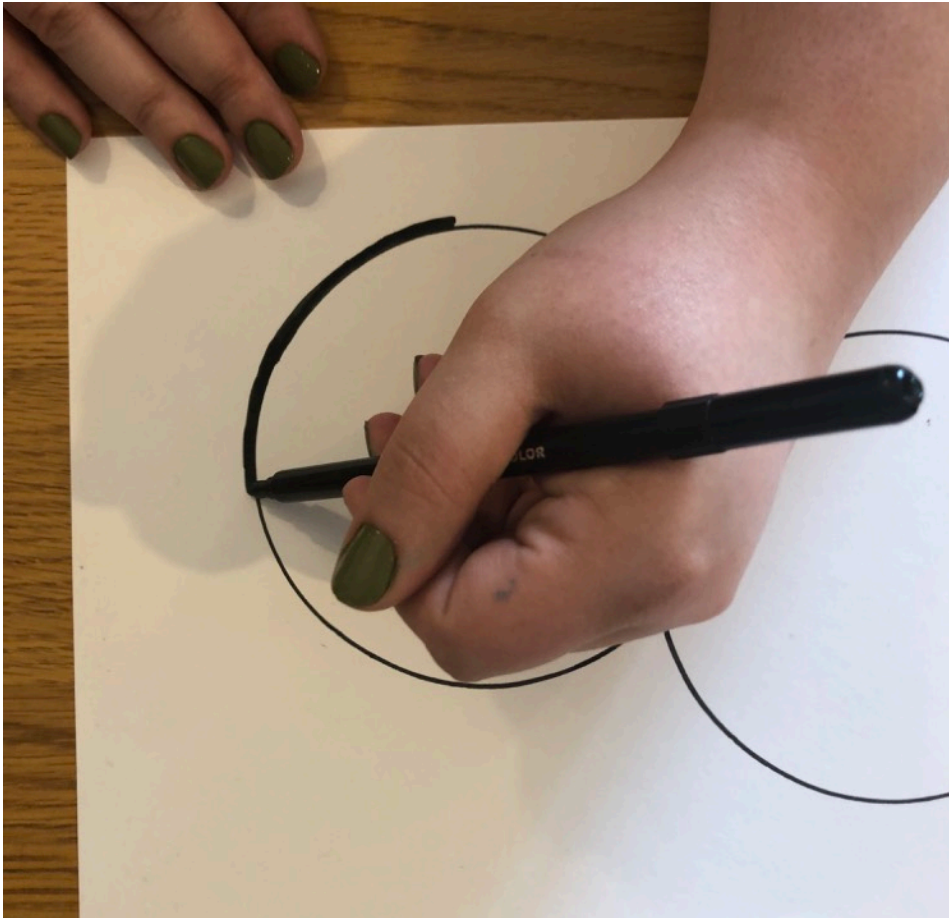

- Paper
- Black Pen

So we decided to create an artwork that almost looks like a view through binoculars and happened to have a lid of a pot to draw round - if you want to do a circle you could use sellotape or a cup!

So what to draw? We thought a space scene would be fun
try and avoid colouring in try and show colour through
pattern like we have - it looks more effective!

There you have it your very own "Mark Making" artwork!
