No Sew Sock Pet

This is a really fun and easy way to create your own cuddly toy - no sewing involved! What animal can you think of that you can create?

Tools and Materials:

- Old Odd Sock (preferably stripey!)
- Scissors
- Stuffing (old pillows work well)
- Elastic Bands
- Googly Eyes

First to make the body put quite a large amount of stuffing into the sock pushing it all the way down to the toes

Now to create the feet try and form balls at the bottom you can always add more stuffing in if it isn't the right shape! Use the rubber bands to loop round to form the feet

Repeat for the arms like so and section off the head

Stuff the head to get it to the shape you want it, we are aiming for a rabbit so they have pointier faces, see how you get on! It's your creation there is no right or wrong

Once you have finished the head put another band round the top and then cut down the middle to create ears

We chose to fold our ears around but you could cut them into three strips per ear and plait them, bend into a shape you are happy with and then fix in place with an elastic band - last thing to do is add googly eyes!

And there you have it your very own “No Sew Sock Pet”

Here are some others we created to inspire you!
