Oil Pastels

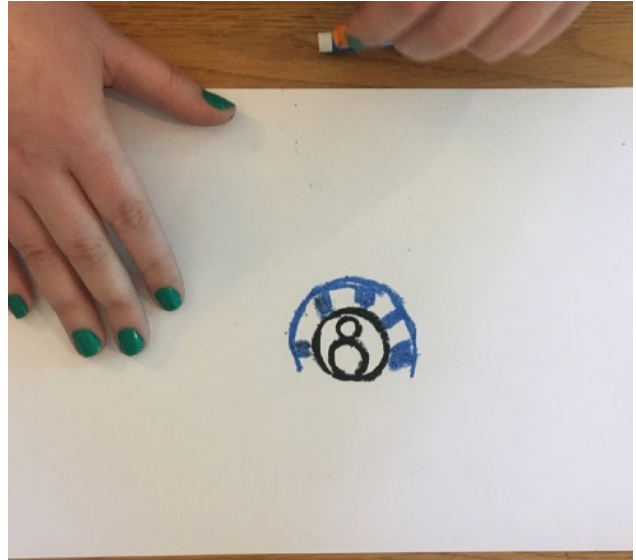

We like to explore and play around with different materials - not all art has to be expensive - we got our oil pastels from the Junior Artists range at [GreatArt](#) for under £5 but the cheapest set are only £1.95 for 12 colours!

Tools and Materials:

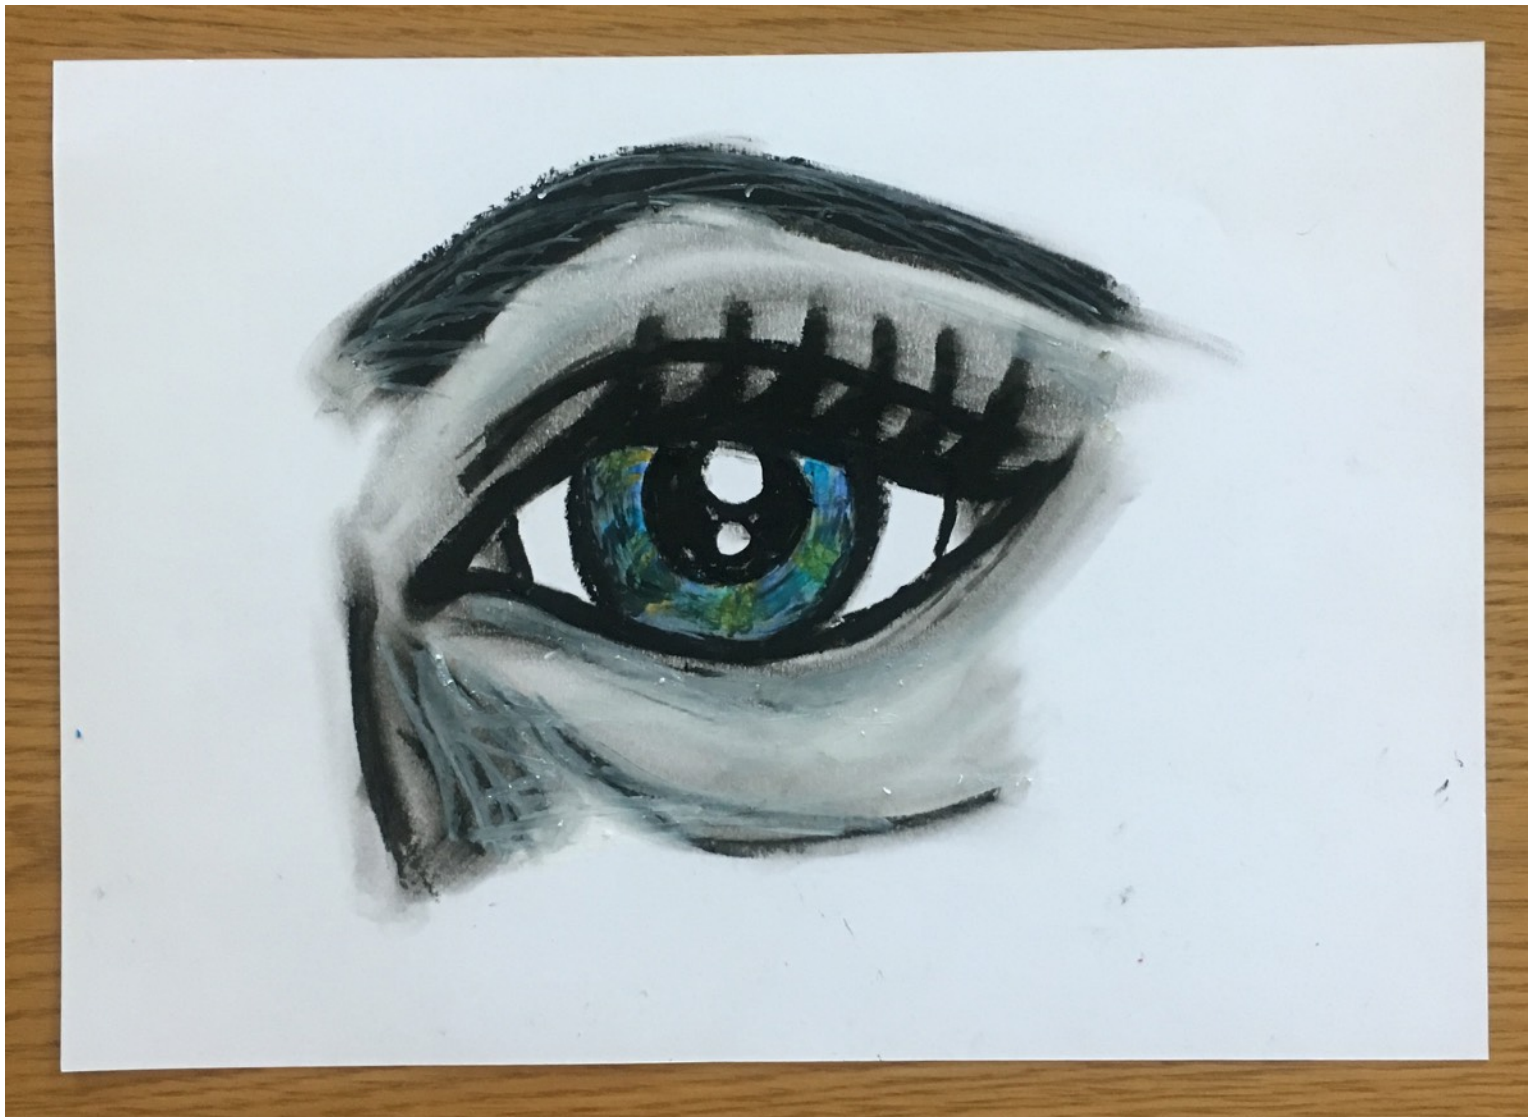

- Oil Pastels
- Paper

The fun thing about oil pastels is they are very versatile, you can draw with them as a hard line, you can blend them and work back on top with lighter colour to create pattern and tone - we are going to do a quick sketch of an eye to show you the different ways you can use them!

And there you have it your very own "Oil Pastel" Drawing

Here's another we created to inspire you!
You can even use sharp edges to draw back into the oil
pastels by scraping it off - play around and see what
techniques you can come up with!
