

Dancing Leprechaun

To celebrate St Patricks Day on the 17th March why not create your own dancing leprechaun - your fingers create its legs to make it jig!

Tools and Materials:

- Coloured Paper
- Pencil
- Glue Stick
- Scissors

So first of all you need to create a body for your leprechaun we thought ours should wear shorts & a t-shirt (our shorts look more like a big U shape/semi circle but thats for the leg holes to go in later) - draw and cut them out when happy with your clothes/body

Then you can add some decoration plus a hat!

Once you have the “body” and hat heady you can create a head and arms

Now you can start gluing the bits together - use a piece of paper underneath to keep your table clean. You can also cut out any other embellishments you think you might need - like a belt!

Now you can create some hair for your leprechaun, use it as a guide to figure out where you need to draw

You can also decorate the hat like so - and think about drawing in a face

We also thought it would be fun to add on some freckles with some small bits of paper cut up - it can be tricky to glue them on - just try your best!

So for finishing touches is there anything else you can add to the leprechaun - we thought buckles on his belt and hat would look good. If you cut out a square and fold it in half is easier to cut out the middle to create a buckle shape - then draw some circles on the shorts which are big enough for your finger to fit through

There you have it your very own “Dancing Leprechaun”!
