

# Cuddle Monster Card

We created these cute Cuddle Monster Cards for Father's Day but they work well for any celebration!

## Tools and Materials:

- Coloured Paper
- Pencil
- Glue Stick
- Scissors
- Googly Eyes (if you have them)

To create your Cuddle Monster sketch out the body and head attached to the body - once you are happy with it you can cut it out like so

Once you have got the head and body you can cut 4 strips to create the arms and legs, your Monster may very well have more limbs - so cut as many strips as you need!

Once you have the limbs we are going to do a simple concertina fold - a bit like a fan

Now to draw the hands and feet - or paws and claws! If you draw near to the edge then there is space to fold the paper so you can cut two out at once without having to redraw them like so

Once you have the major components of your Monster think how else you might want to decorate it - facial features, special marking, maybe even horns. Cut out all the different elements you want to make your Monster

We created a heart tummy to act as the base of the “card” with a broken heart on top to hide our message just glue the broken heart flaps at the top so they can still open. Once you have all the bits out out you can start to stick them down. We stuck the limbs behind the body to look neater - you might have added decoration on top of them.

Once everything is glued down you can add your message!

There you have it your very own “Cuddle Monster Card”!

Here is another we made to inspire you!
