

Laughing Emoji Tokens

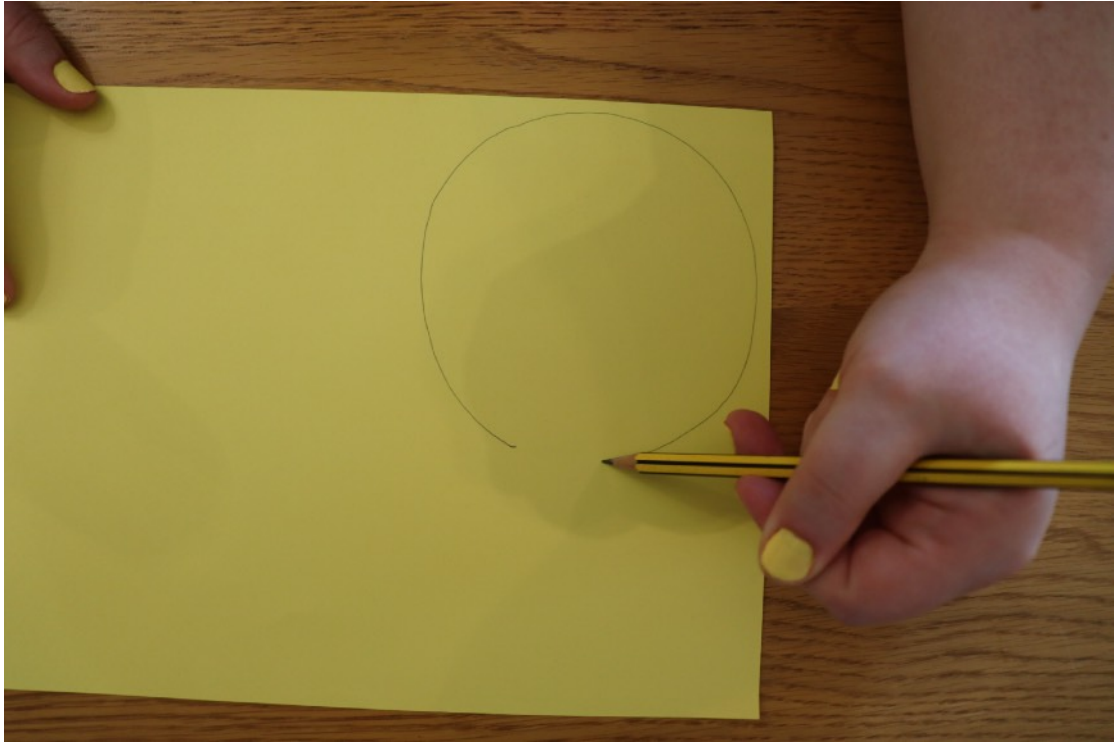

Inspired by “World Laughter Day” which falls on the first Sunday of May why not create your own Laughing Emoji Token complete with a joke on the back to gift to a friend!

Tools and Materials:

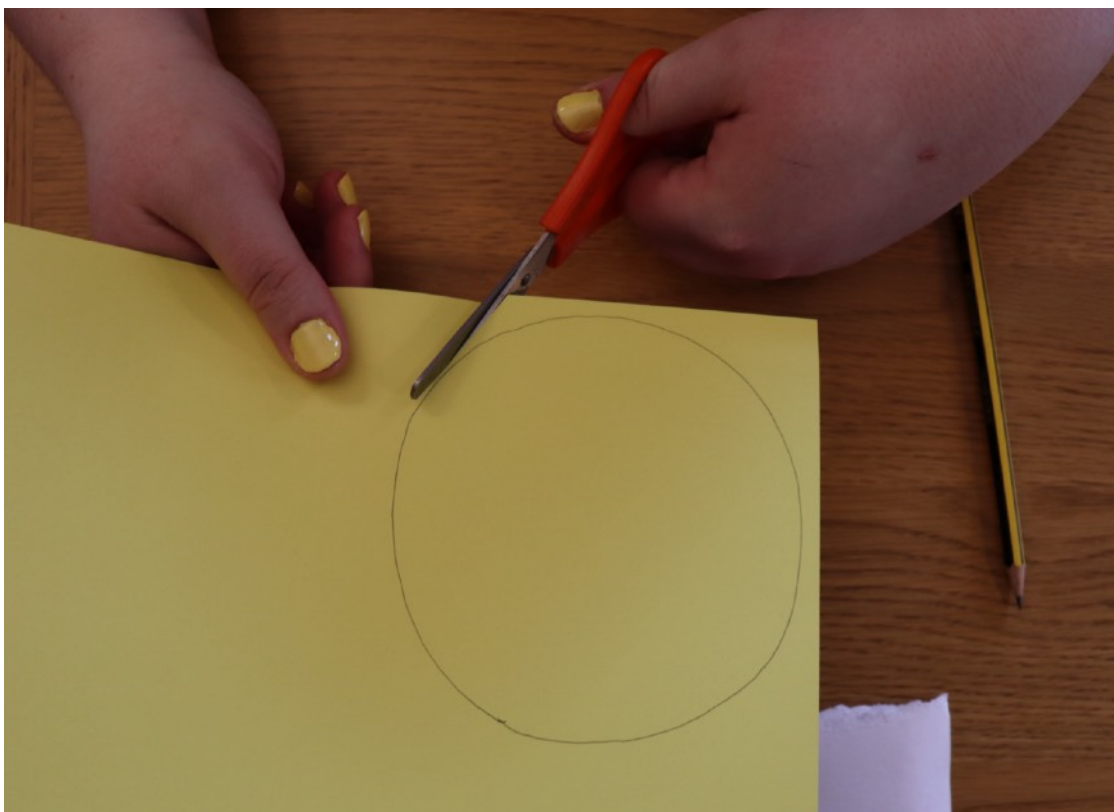

- Coloured Paper
- Pencil
- Glue Stick
- Scissors

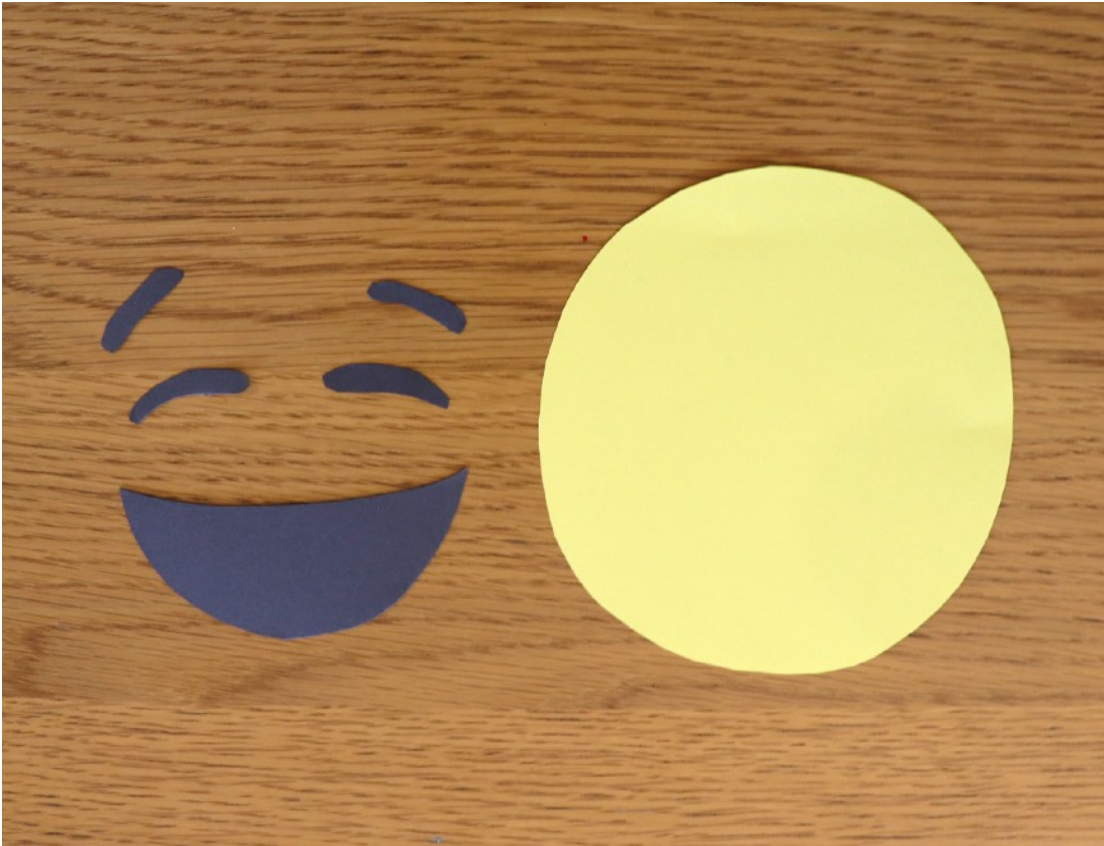

First you will want to draw a circle - this doesn't have to be perfect but if you do want it to be you could use a compass or a circular item to draw round, or you can try it freehand like we did

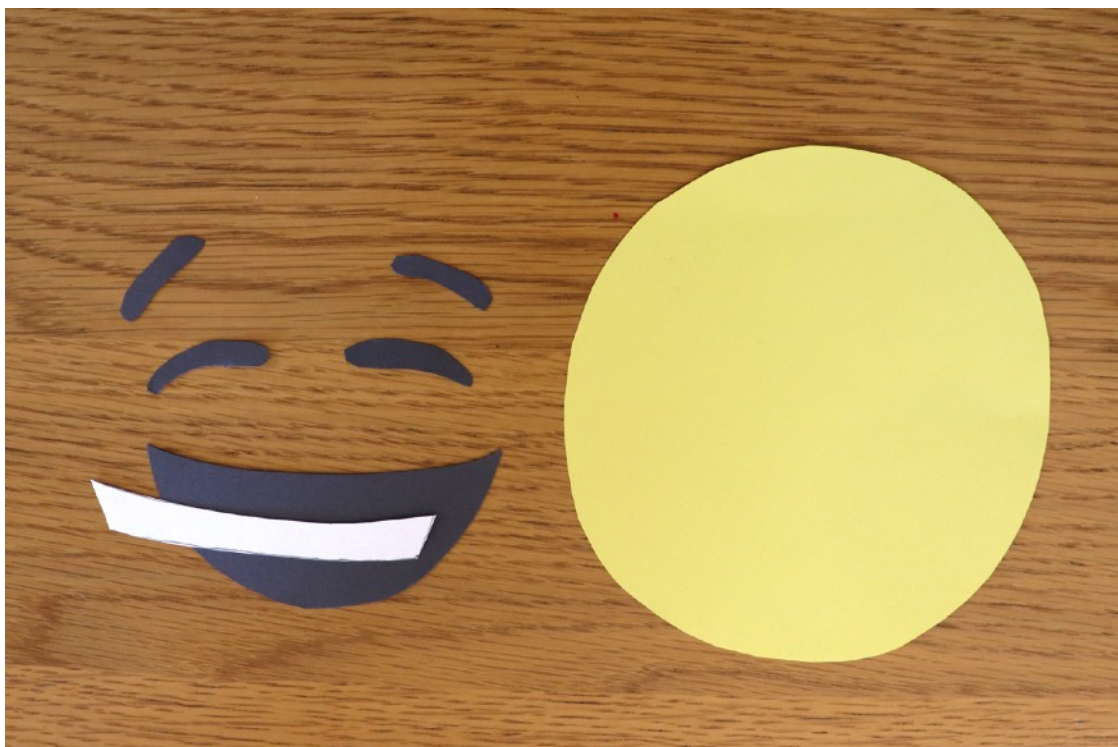

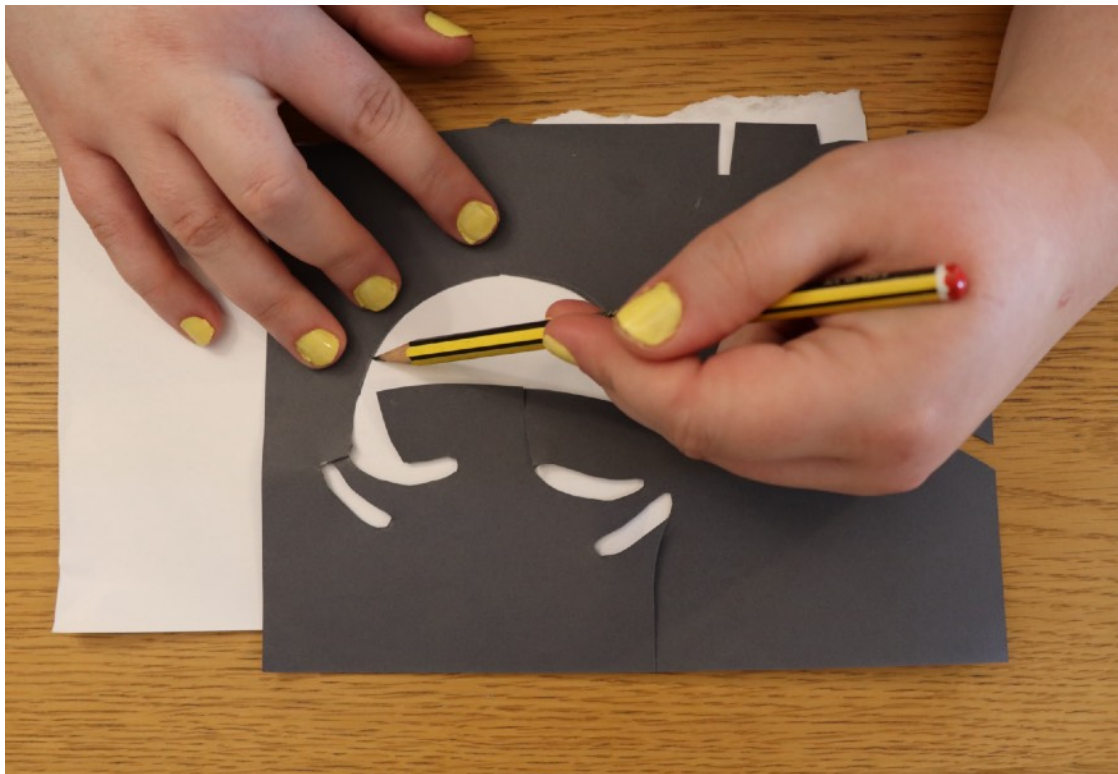

Once you are happy your circle cut it out, you can always refine the lines when you are cutting it out

Use the outline of your circle as a guide to figure out how big the facial features of your emoji will be like so and cut them out

You can use the cut out of the mouth to figure out how big to make the teeth

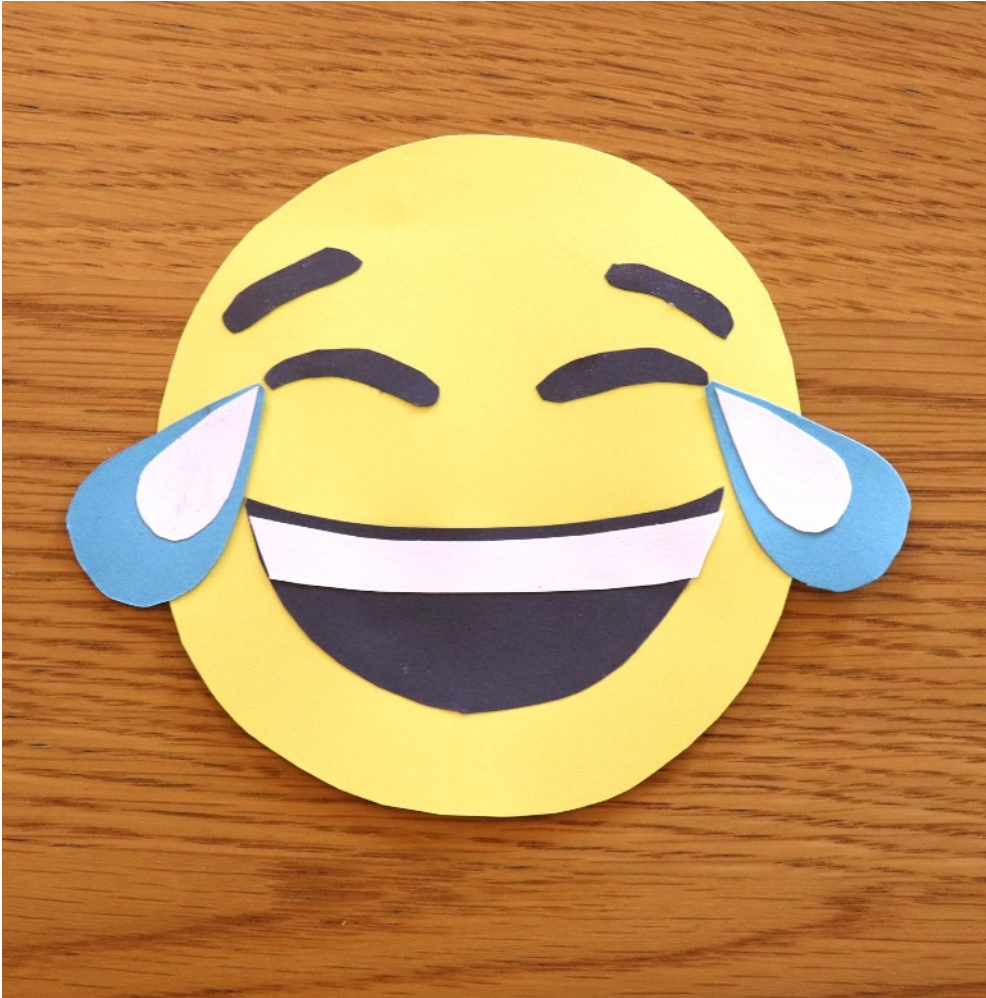

Now to create the tears - take a piece of blue paper fold it in half so you only have to draw and cut once to create two!

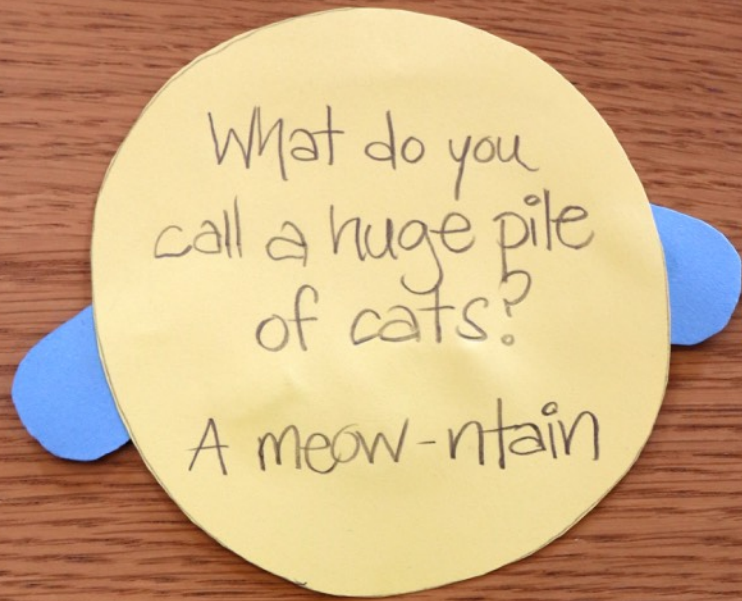

Use the outline of the tears to figure out how big the space is to create the highlight for the tears - again fold the white in half so you only have to draw and cut once!

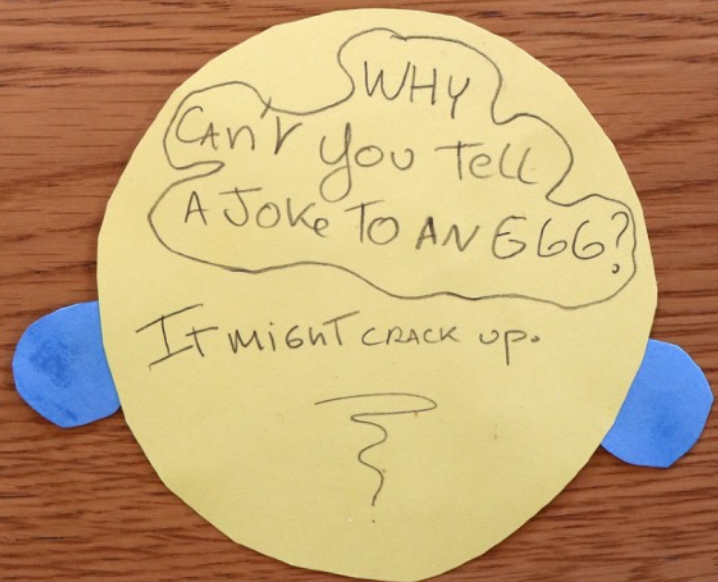

Now to glue all the parts together! You can always place them on the face before gluing to make sure the spacing is as you would like it to be

And there you have it your very own Laughing Emoji Token
- don't forget to add a joke on the back to share!

What do you
call a huge pile
of cats?
A meow-ntain

WHY
Can't you tell
A JOKE TO AN EGG?
It might crack up.
