

Autumn Inks

Using a limited colour palette of the colours of Autumn - from burnt oranges to rusty reds, golden yellows to vivid pinks - why not create your own linear ink creation!

Tools and Materials:

- White Paper
- Mix of Inks
- Paint Brush
- Paint Palette
- Water

First of all think what it is you want to create - it could be Autumn inspired or it could be something completely unrelated, whatever imagery you want to create try something that will work well with just lines - something bold! We can't use pencil for this one as it would show through the ink - sometimes it is good to just go for it!

Using 3-6 colours total think about the different elements for the page, one colour at a time will make it slightly easier to plan how the image will turn out

Simple repetitive shapes to form a kind of pattern can work well around your name, central character or image like so

There you have it your very own “Autumn Inks” creation!

Here is another we made to inspire you!
